Notes
s when trying to load from Towns OS, cannot find a clean dump of disk 1 to test
I, Mouse speed change in menu put on high
n graphics down to 1 for Marty otherwise very slow
for the game seems to play
to save since I can't survive long enough through the story
Julio
ick in a read loop
aves to boot disk, need 2 FDD to create new boot disks
tion
ced reads, but there are way too many disk swaps to force through with a single dive
o stop working but can be reloaded in game, game is playable though
e slow but game is fine
jer zooms, 6 scenarios
can't move up or down (controller only, trigger counts as button press), Ayumi-chan Story plays fine
Towns 2.1 L51 needs ram expansion and is slower, repacked version with Towns 2.1 L40 works best, slow down but playable

Music Application

Music Pro-Towns (V1.3)

Hangs loading but can launch from separate Towns

photos, some nude, of women that you can modify in limited ways
asswords
wns OS,
Il but querries the FDD
k, too slow to play
Magic IV and V need to be installed and then this will add a prologue quest, so it sounds like you need a hard drive
owns OS
voice acting
needs to be in at the beginning
d mouse so remove it before loading
a mode de femere a solute localing
ds to be unplugged to work properly, voice/text at same time, voice can be turned off in options, trigger zooms
as as as an program of their property, volce-real sum of their sector and the futures of in options, anguer zoonis
keyboard to save
auses, game will put in random name for save if you don't have access to a keyboard,
pattle them
is a software keyboard available too
It game freezes when trying to load
atically 2nd player
atically 2nd player
atically 2nd player
atically 2nd player play back as it appears there are instruments you can select and have multiple, software keyboard available, obviously you can't print
atically 2nd player

Yes System

CD 1 Yes (DB) C, M

uite playable
g up save menu
with random character, create opens character creation but you need a keyboard to enter a name, with random character no keyboard needed
is pad easier since turbo is mapped to run button
lank disk needs to be in when you create new character otherwise game freezes
after character creation, need keyboard, slow
install
enes with no interaction, uses a password system rather than saving
hose to disk?
rk properly, can disk swap/force read but too many disk swaps
rn videos at 4 fps
, autosaves
ler so remove the mouse prior to loading the game, trigger zooms,
ving application, and what looks like some kind of video composition application, others as well. Need a blank disk to load the video application
ving application, and what looks like some kind of video composition application, others as well. Video application won't load in this version
or right mouse button in game, seems to freeze randomly
