ClearSite Communications, Inc. is focused on the outdoor security space and has developed a complete platform that allows cameras and sensors to be deployed at remote locations rapidly and cost effectively. The PPU (Perpetual Power Unit) provides the hardware and software components necessary for a single cost effective platform that offers power for cameras, sensor processing, secure communications, and long battery backup. A SOLAR option is also available.

Hanwha Vision

With its own proprietary technology and product lines, Hanwha Techwin is at the forefront of Hanwha's digital accomplishments and rapidly becoming a world-class brand as Hanwha's premiere security technology company. Hanwha Techwin is committed to providing our customers with innovative, quality products and services specifically designed for the security professional.

The Vaidio AI Vision Platform provides proven, reliable, intelligent solutions for every industry

Active real-time monitoring

delivers accurate alerts from 10s to 1,000s of cameras
Intelligent video search
at a rate of 1,000s of hours per second

At Grid Networking, we specialize in providing top-notch connectivity, transmission, and wire management solutions tailored to meet the needs of modern businesses.

iluminar

iluminar is a specialist manufacturer and supplier of IR and White Light illuminators. Iluminar boasts the largest selection of low voltage lighting products in the industry. Customers have come to rely on Iluminar for superior performance and customer service, including job spec support, technical support, warranty support, and troubleshooting.

Founded in 2011, MS3 is the mobile security division of a leading security and surveillance hardware wholesaler and design firm. With expertise from 10,000+ installations, we now bring top-tier hardware, engineering, and support to mobile security. Our team specializes in both hardware and software, providing tailored solutions for security system integrators.

KBC Networks provides hardened network and wireless equipment to power and send signals securely over wireless links, LANs, WANs, mobile, & Fiber Optic networks.

POWERSTACK™

PowerStack provides an intelligent new way of delivering power and IoT off the grid, with smart power pole systems built to last. Deployed Intelligence, wireless IoT technology, delivered to remote areas; weather sensors, security cameras, lighting, communications, charging and more. Working for multiple industries including agriculture, mining, critical infrastructure and smart cities.

SECURITY DOOR CONTROLS develops, manufactures and markets mechanical door locks and exit devices, access controls, electronic locking devices and security systems worldwide.
