# ACTS

## GLOBAL INC.

### **Mission:**

Spark the interest of underserved youth to create generational wealth in a global society.

ACTS Global, Inc. will achieve this through exposure to H.E.A.T - Higher Education,  
Economics, Agriculture, and Technology.

### **Vision:**

Expose the youth to their like-minded peers around the world to foster a multicultural  
appreciation while connecting ideas to solve problems we all face globally.

**Justification on how the H.E.A.T initiative can help your child:**

Our unique niche as a non- profit organization is to serve as a connecting piece that will bridge generations together to rebuild and reconstruct local and global issues. We will help adolescents foster the ability to think globally, and ACT locally. In an article on raising a global child, it was professed that exposing an adolescent to global issues and ecosystems will help them to foster a “global mindset”.

Having a global mindset and pairing it with ACTS Global, Inc. H.E.A.T initiative, will propel adolescents to expand their way of thinking, become culturally aware, develop global agricultural partnerships, and have confidence in partaking in economic risks. As a result, an adolescent in ACTS Global, Inc. program will be able to take their “global mindset” to recondition local community issues successfully.

**Goals:**

- Expose the youth to enriching life experiences: globally and locally
- Create an opportunity for the youth to serve the community in which they live
- Provide youth a multi-cultural appreciation
- Create a therapeutic rapport
- Prepare youth for career development
- Provide a plethora of healthy lifestyle choices
- Expose the youth to different career choices

- Plant the idea of generational wealth
- Increase graduation rates
- Expose students to various career paths
- Increase college graduation rates for underserved populations
- Increase entrepreneurship among at-risk youth
- Create a generational wealth mindset
- Provide agricultural resources within the areas in which our participants live (i.e. build community and aquaponics gardens so that all families are able to benefit).
