If your child does not attend school due to an illness or is sent home by the school nurse during the school day, he/she should not come to the Club that day.

Chronic Illness, Dietary Restrictions & Special Needs

Parents/Guardians are encouraged to inform Boys & Girls Club staff of all relevant information so that we may work together to meet the needs of your child(ren) to the best of our ability. Parents/guardians whose children are diagnosed with special needs such as Autism, Down syndrome, ADD or ADHD are encouraged to share home and school setting needs with BGC staff so that we can attempt to mirror successful strategies when possible during our program time and work to see if this program will be a positive fit for the child.

Medication Needs

If a member requires distribution of medication during hours of operation of the Club or has severe asthma or a potentially life-threatening allergy, please notify the Director, Jill Strube, and provide a detailed process of distribution in written form.

Enrichment

Participants choose, create, and participate in Club activity options. These include monthly themes and daily activities facilitated by our staff. We use evidence-based STEAM (Science, Technology, Engineering, Art and Mathematics) curricula to design activities that support our members' creativity, innovation and achievements in these areas.

PROGRAM SAFETY

Mandatory Reporting

The Boys & Girls Club Program is mandated by the State's child protection laws to report to the Vermont Department for Children and Families any suspected cases of child abuse, child sexual abuse or sexual exploitation. Staff are required to immediately notify the Department of Children and Families when they suspect that a member has been abused or neglected. Board-approved policies and supervision practices have been created to prevent and protect youth from abuse or neglect while at the Boys & Girls Club. Should you have any questions or concerns regarding the child protection laws, the Club's policies and practices in this area, or the program's reporting guidelines, please contact Jill Strube at 802-870-7199.

- No member will be left alone or unsupervised at any time while attending the Boys & Girls Club.
- Members will inform staff if they are leaving the Club and will sign themselves out.

Staff

Our staff is carefully selected for their experience and interests. They all are screened and trained to ensure the safest, highest quality programs for our members.

Volunteers

Volunteers are welcome to assist in programming and special events. Volunteers must submit a completed volunteer application that includes a background check. When the background check has been completed, volunteers go through an Orientation, receive training, and are then placed in a program area matching their interests and skills.

ELECTRONICS

Phone Usage

We understand that personal electronics are widely used and can support growth and development. *Personal electronics may be used in the Club except during programs and meal time.* Should a cell phone be used inappropriately or its use becomes a hindrance to program goals, staff will ask the member to put it away. Members may not take or post photos of other members or staff from the club's computers.

Members must ask staff permission to use the club phone.

Acceptable Use Procedures for Electronics

The Boys & Girls Club of Greater Vergennes uses the following acceptable use procedures for electronics in order to maintain a safe and secure environment for members, staff, volunteers and others.

A personally owned device shall include all member-owned existing and emerging technologies and devices that can take photographs; play and record audio or video; input text; upload and download content and/or media; and transmit or receive messages or images.

Emerging technologies and devices include but are not limited to cell phones, computers, tablets and storage media (e.g., flash drives) as well as communication tools including social media sites, text messages, chat, and websites.

A Club owned device shall include all Club owned desk top computers, Chrome books and Tablets. Not all devices are covered by these procedures including gaming devices or consoles, laser pointers, modems or routers, and televisions.

Club purposes include program activities, career development, communication with experts and/or Club peer members, homework and Club activities. Members are expected to act responsibly and thoughtfully when using technology resources. Members bear the burden of responsibility to inquire with staff when they are unsure of the permissibility of a particular use of technology prior to engaging in the use.

Personally, owned devices and Club owned devices are permitted for use during Club time for Club purposes and in approved locations only. The Club expressly

prohibits use of personally owned or Club owned devices restrooms and other areas where there is an expectation of privacy.

Any inappropriate use of a personally owned device or a club owned device, as determined by Club staff, can lead to disciplinary action including, but not limited to, confiscation of the device, immediate suspension from the Club, termination of membership, or other disciplinary actions determined to be appropriate to the Club's existing disciplinary policies including, if applicable, referral to local law enforcement.

Inappropriate communication includes, but is not limited to, the following: obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language or images typed, posted, or spoken by members; information that could cause damage to an individual or the Club community or create the danger of disruption of the Club environment; personal attacks, including prejudicial or discriminatory attacks; harassment (persistently acting in a manner that distresses or annoys another person) or stalking of others; knowingly or recklessly posting false or defamatory information about a person or organization; and communication that promotes the destruction of property, including the acquisition or creation of weapons or other destructive devices. If a member is told to stop sending communications, that member must cease the activity immediately.

Members may not utilize **any** technology to harass, threaten, demean, humiliate, intimidate, embarrass, or annoy their peers or others in their community. This behavior is cyberbullying, bullying that takes place using emerging technologies and devices. Examples of cyberbullying include mean text messages or emails, rumors sent by email or posted on social networking sites, and embarrassing pictures, videos, websites, or fake profiles. Any cyber bullying that is determined to disrupt the safety and/or well-being of the Club, Club Member, Club Staff or community is subject to disciplinary action.

Members must be aware of appropriateness of communications when using Club or personally owned devices. Inappropriate communication is prohibited in any public messages, private messages, and material posted online by members.

Internet access. Club owned devices used at the Club are not permitted to directly connect to the Internet through a phone network or other content service provider. Club owned devices must access the internet via the Club's content filtered wireless network. Boys and Girls Club of Greater Vergennes reserves the right to monitor communication and internet traffic, and to manage, open or close access to specific online websites, portals, networks or other services. Members must follow Club procedures to access the Club's internet service.

Furthermore, The Club shall not be liable for the loss, damage, misuse, theft of any personally owned device brought to Club.

Parental Notification and Responsibility. BGCA's Internet Acceptable Use Policy restricts the access of inappropriate material and while using the internet supervision of usage may not always be possible. Due to the wide range material available on the internet, some material may not fit the particular values of members and their families. Because of this, it is not practical for BGCA to monitor and enforce a wide range of social values in student use of the Internet. If parents do not want members to access information beyond the scope of the Internet Acceptable Use Policy, parents should instruct members not to access such materials.

The Club Director or appropriate staff member will inform the parent or guardian of any member who was observed as a victim or perpetrator of bullying if the issue has not been appropriately resolved.
