CONTRACT SCOPE OF WORK:

Contract Audit, Contract Compliance and Cost Containment Review Services

Team Life Cycle will leverage proven and advanced methodologies and tools to analyze pre-award and post-award contract actions and documentation executed by the Customer. Contracts include unique characteristics that require a holistic approach and deep understanding of contractual terms and conditions, financials, ordering instruments, business systems, institution management policies and procedures, internal controls and procurement and pricing policies.

Our value proposition includes support from subject matter experts that have managed and supported the life cycle of accounting, acquisition, and contract management (inception to closeout). We have served in various roles from executive to individual contributor conducting contract compliance/management reviews and audit and recovery initiatives.

VHEPC Purchasing Process:

The VHEPC Contract enables entities to utilize a complete and defined procurement process. Using this contract provides for flexibility to define project scope and receive a customized solution with cost-efficient pricing models.

Step 1: Define Project Scope

Life Cycle Management Consulting & Training will provide a technical and price proposal upon receipt of defined project scope

Step 2: Proposal Acceptance

Upon acceptance of our proposal, the Customer will prepare and issue Order. The Customer's Scope of Work, our proposal response and Order will be reviewed by VHEPC Contact Ryan Balber

Step 3: Contract Execution

Contractual documentation fully executed with copies provided to VHEPC

Step 4: Commencement of Services
