

PINEAPPLE RUNTZ AUTO

(*RUNTZ X PIÑA) x PIÑA AUTO x (*RUNTZ X PIÑA AUTO)

*Pink Runtz from clone

STATS:

Life Cycle: 70-80 Days

Yield: Medium

TAC: 20-25%

Terpenes: starbursts, tropical, fruity

FYI:

This one is special. Pineapple Runtz is the first Auto we've created that I think could potentially win a Cannabis Cup. She's terpy and resinous with spectacular functional effects.

- Thrives indoors & outdoors, vibrant color, beginner friendly
- Pungent terpenes, like tropical starbursts
- Classic "Hybrid" effects

BANANA DADDY AUTO RBX2

BANANA HAMMOCK AUTO x GRAND DADDY PURPLE

STATS:

Life Cycle: 70-80 Days

Yield: High

TAC: 20-25%

Terpenes: sweet grapes, floral, sandalwood

FYI:

Banana Daddy Auto RBX2 is vigorous and fast growing, with body-relaxing and mentally-focusing effects. She's a great match for beginners.

- A vigorous, medium-height plant with chunky, juicy and terpy flowers
- She's fast and stacks well.
- A body-relaxing and euphoric—but focused—effect

INZANE AUTO

INZANE AUTO x ZWEET AUTO

STATS:

Life Cycle: 80-100 Days

Yield: Extremely High

TAC: 20-25%

Terpenes: sweet & tart limes, gasoline, pine

FYI:

Inzane Auto is insanely vigorous, with a Sativa-dominant structure.

She's easy-growing and high-producing—give her lots of light and watch her flourish.

- Thrives indoors & outdoors, uplifting effect
- Large flowers with thin, bladed leaves
- Loves lots of light and feeds heavier than most autos
- Easy to grow in any system, at any grow level

LILAC DIESEL AUTO RBX2

(LILAC DIESEL #22 X PLUTO AUTO)

STATS:

Life Cycle: 70-80 Days

Yield: Extremely High

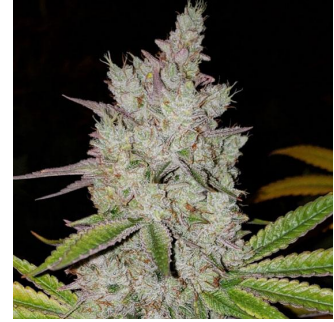

TAC: 20-25%

Terpenes: sweet haze, dry floral, lemon & pine

FYI:

Mood-lifting and physically relaxing, Lilac Diesel Auto RBX2 is a true mind and body experience. Savor notes of sweet haze, dry florals, lemon and pine.

- Thrives indoors & outdoors, beginner friendly
- Large vigorous plants stacked with big ol' flowers
- Uplifting mentally and relaxing physically

OG KUSH AUTOFLOWER

'92 OG KUSH x DIESELRYDER

STATS:

Life Cycle: 70-80 Days

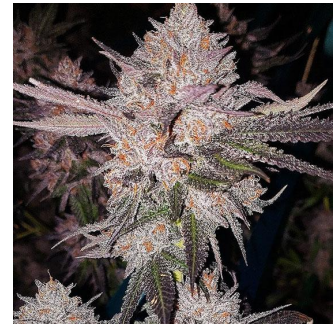

Yield: High

TAC: 20-25%

Terpenes: petrol, pine, spices

FYI:

- Strong & vigorous, thrives indoors & outdoors
- After starting this project in 2008, she's finally come to fruition: an autoflower as strong and complex as her photo period cousins.
- Euphoric, relaxing effects
- Easy to grow and fast to flower

PIÑA AUTO RBX2

PLUTO AUTO x PEACH OG

STATS:

Life Cycle: 70-80 Days

Yield: Average

TAC: 25%

Terpenes: candied fruits, pineapple, peaches

FYI:

Piña Auto RBX2 is quick to flower and finish—and full of tantalizing, candied flavors like pineapple, peach, grape and sweet grapefruit.

- Pungent terpenes, euphoric effect
- Thrives indoors & outdoors, beginner friendly
- A fairly large plant with a great stretch and stack
- Medium-sized nugs that stack deep
- Her longer nodes and vigor are an obvious influence from the Peach OG, but she's quick to flower and finish.

PLANET OF THE GRAPES AUTO

PLANET OF THE GRAPES x GRAPE AUTO

STATS:

Life Cycle: 80-90 Days

Yield: High

TAC: 20-25%

Terpenes: grape, gasoline, red fruits

FYI:

Chunky, frosty and easy to grow in any environment.

Her concentrated terpene profile is dominated by heavy grape and gasoline.

- Beginner friendly, thrives indoors & outdoors
- Medium-height with chunky, frosty flowers
- Classic "hybrid" effects

PLUTO CUT AUTOFLOWER RF3

PLUTO CUT OF QUATTRO KUSH x OG KUSH AUTO

STATS:

Life Cycle: 80-90 Days

Yield: High

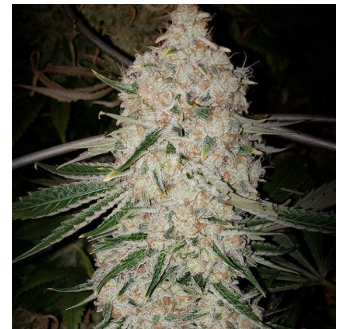

TAC: 25-30%+

Terpenes: incense, sweet flowers, gasoline

FYI:

This F3 cross is the product of a multiple-cup-winning cut of Quattro Kush (AKA The Pluto Cut) and our OG Kush Auto F4. Her alternative cannabinoids make her effects quite intense.

- Thrives indoors & outdoors, beginner friendly
- Stocky, with large flowers that fill their space nicely
- Depending on your environment, typical flowering time is less than 80 days from sprout.
- She keeps growing for at least 100+ days but her appearance may diminish.
- Classic "Indica" effects. She packs a heavy punch!

PURPLE THAI AUTOFLOWER RBX1

PURPLE THAI x PLUTO AUTO

STATS:

Life Cycle: 70-80 Days

Yield: Average

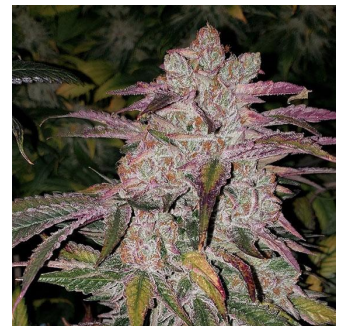

TAC: 25%

Terpenes: spices, incense, floral

FYI:

Purple Thai Auto is adorable, but packs some serious weight for the area she takes up. Staying extremely squat, she's almost all bud when she's finished. This stocky creature is unique and wonderful, with large and compact purple flowers.

- Chunky & dense, vibrant color, thrives indoors & outdoors, beginner friendly
- She's extremely low maintenance, no matter where you put her.
- Complex, classic "Indica" effects, with a lean toward "hybrid"

ZWEET AUTO RBX2

ZWEET INZANITY x DURBAN AUTO

STATS:

Life Cycle: 80-100 Days

Yield: Beast!

TAC: 20-25%

Terpenes: lemon lime candy, sour fuel, sweet citrus

FYI:

Zweet Auto likes to get BIG! She has significant distinction compared to her stable mates, taking on the vigor, flowering time and bud size from her Zweet mom.

- Strong & vigorous, beginner friendly
- Expect a longer flowering time and a larger plant.
- She pistils early but starts stacking about 10 days after the quicker varieties
- Uplifting and energetic, with classic "Sativa" effects
