

MANDARIN COOKIES R3

MANDARIN COOKIES #7 x MANDARIN COOKIES #17

STATS:

Flowering Time: 60-63 Days

Yield: Very High

TAC: 25-30%

Terpenes: heavy orange, skunk, spices

FYI:

Many years of breeding have gone into making this more homogenous version of Mandarin Cookies.

We've finally captured all of the various desired qualities from previous versions and have them all in this one.

Expect INTENSE terpenes, along with large, extremely dense flowers completely coated with trichomes.

She's amazing for extractions and easy to grow in any environment.

- Pungent terpenes, thrives indoors & outdoors, great for extractions, high yield
- Her effects are long-lasting, enjoyable and chill—but not sleepy.
- Medium height with good vigor and perfect internode spacing. She grows well in any system or environment
- Extremely dense with a high bract-to-leaf ratio. She's covered in trichomes and super terpy.

FANTA SEA RBX

(WEDDING CAKE x TRIANGLE KUSH) x (MANDARIN COOKIES) x GRANDPA'S COOKIES #6

STATS:

Flowering Time: 60-63 Days

Yield: Extremely High

TAC: 25-30%

Terpenes: cake batter, pungent oranges, sandalwood & gas

FYI:

Fanta Sea RBX is boutique in every way, with dreamy flavors of sweet cake batter, heavy orange, sandalwood and gasoline. She's incredibly easy to trim, super resinous and visually striking.

Her long-lasting effects are great for daytime: euphoric and relaxing, but also motivating.

- Morphology: She's a medium-sized plant that grows well in any environment.
- Strong branches with medium length internodes
- Morphogenesis: Incredibly easy to trim. Very high bract to leaf ratio!
- Thrives indoors & outdoors, euphoric effect, high yield, strong & vigorous

ZWEET INZANITY RBX

ZWEET INZANITY* #22 x DURBAN POISON**

*Zweet Inzanity is Durban Poison x (Gorilla Glue #4 x Citral Skunk) ** The Colorado Cut

STATS:

Flowering Time: 63-70+ Days

Yield: Very High!

TAC: 25%

Terpenes: powdered sugar, sweet citrus, sour gasoline

FYI:

This insanely vigorous plant stacks monster flowers—she grows like a classic large Dutch Skunk.

Her extractions are mouth-watering and her terpenes are PUNGENT.

- Incredibly vigorous and a heavy consumer
- Spongy white flowers with solid mold resistance
- She continues to get bigger without losing quality until about day 80. If bud rot isn't a concern, let her go at least 70 days for full yields and quality.
- Extremely high terpene percentages on extractions. Top testers: Terpinolene, Myrcene, Ocimene

10TH PLANET R1

PLANET OF THE GRAPES R1 x THE "PLUTO CUT" OF QUATTRO KUSH

STATS:

Flowering Time: 56-60 Days

Yield: Chunky AF!

TAC: 30%

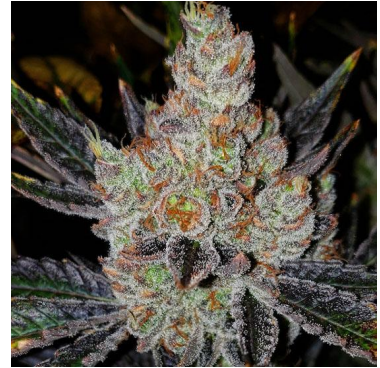

Terpenes: citrus & grape, gasoline, skunky spice

FYI:

10TH Planet R1 produces phenomenal yields in any system or space.

Journey into an otherworldly blend of grape, citrus, gasoline and thick, skunky spice.

- Fast flowering time, pungent terpenes, thrives indoors & outdoors, chunky & dense
- Medium-size, with solid vigor and medium stretch in flower
- VERY calyx-heavy flower with bare minimum leaves

BANANA DADDY R1

GRAND DADDY PURP x BANANA HAMMOCK R1

STATS:

Flowering Time: 56-60 Days

Yield: Average

TAC: 25-30%

Terpenes: fruit stripe gum, gasoline, skunky spice

FYI:

Banana Daddy R1 smells like the best road-trip pit-stop: fruit stripe gum and gasoline.

Fast trigger both indoors and outside makes this one great for earlier finishing crops.

- Fast flowering time, pungent terpenes
- Medium-height, with strong lateral branching
- Chunky, dense flowers scattered all around this round bush
- Medium-short internodes and heavy stacking

BANANA HAMMOCK RBX

GRAPE GOD x MANDARIN SUNSET

STATS:

Flowering Time: 56-60 Days

Yield: Average

TAC: 22-25%

Terpenes: honey & grape, heavy tropical, skunky

FYI:

Massive purple flowers and heavy honey, grape and tropical terpenes make this unique plant desirable in any garden.

- Vibrant color, thrives indoors & outdoors
- Thick vertical stalks support massive purple flowers
- Fast to flower and functional for any garden

BIG DETROIT ENERGY R1

MANDARIN SUNSET x LILAC DIESEL #22

STATS:

Flowering Time: 60-63 Days

Yield: Extremely High

TAC: 25%

Terpenes: earthy orange, sandalwood, lemon & lime

FYI:

Big Detroit Energy R1 is strong and vigorous, with large terpy flowers.

Earthy orange, sandalwood and lemon-lime notes take you to Motown.

- Thrives indoors & outdoors
- Strong and vigorous with medium-long internodes and large flowers with good stacking
- Long, bladed, thin leaves with an average bract-to-leaf ratio
- Large trichome heads

BOOBERRY COOKIES RBX

BLUEBERRY COOKIES x END GAME #3

STATS:

Flowering Time: 60-63 Days

Yield: High

TAC: 30%

Terpenes: Candied blueberries, strawberry, orange

FYI:

Booberry Cookies RBX has scary-spectacular looking flowers, with huge calyx coated in trichomes.

Sink into interesting variant medleys of sweet fruits and earthy accompaniments.

- Unique boutique, pungent terpenes
- Strong and vigorous with medium-chunky flowers that stack for days
- Huge calyx coated in trichomes
- Phenomenal extractor

CANDY STORE RBX

LEMON BERRY CANDY OG x ETHOS COOKIES #16

STATS:

Flowering Time: 60-63 Days

Yield: She throws down!

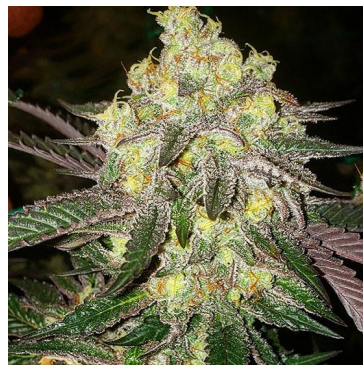

TAC: 30%+

Terpenes: Candied berries, thick florals, gasoline

FYI:

Orange-sized nugs, monster trichome heads, huge yields—Candy Store RBX is a beast of a plant! Her confectionery blend of sharp candied berries, thick florals and sandalwood is grounded by a gasoline back.

- Unique boutique, thrives indoors & outdoors
- She likes to get BIG! Medium-tall with strong lateral branching
- Orange-sized nugs stacked all the way down
- Monster trichome heads make her perfect for extractions

CHERRY GAR-SEE-YA R1

BLACK CHERRY SODA x CHERRY MADURO x MANDARIN SUNSET

STATS:

Flowering Time: 56-63 Days

Yield: High

TAC: 25%

Terpenes: cherry & citrus, smoky & earthy, gas & propane

FYI:

This is not your typical compact, leafy cherry variety. Cherry Gar-See-Ya R1 stacks chunky, baseball-sized nugs from top to bottom.

- Easily-trained and beginner friendly
- LOVES growing outdoors!
- High calyx-to-leaf ratio and medium internodes that can stretch a bit

CITRADELIC SUNSET

GHOST TRAIN HAZE x MANDARIN SUNSET

STATS:

Flowering Time: 63-70 Days

Yield: Extremely High

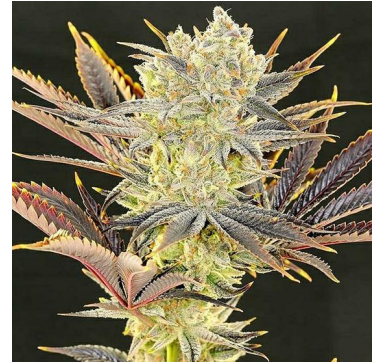

TAC: 25-30%

Terpenes: Margarita mix, orange citrus, fruit snacks

FYI:

In the words of Green Dot Dave, Citradelic Sunset's "aromas range from sour lime margarita mix and orange citrus to rare organic fruit snacks."

- Pungent terpenes, loves indoors, high yield, not for beginners
- Fairly tall, with medium-length internodes
- Spongy, high calyx-to-leaf ratio flowers covered in terpene-rich trichomes

COLIN OG RBX

GRATEFUL DAWG* x (GRATEFUL DAWG X THE WHITE)

*Dead Head OG cut from Irie Genetics

STATS:

Flowering Time: 63-70 Days

Yield: Average

TAC: 27-30%

Terpenes: classic sour OG, grape, cherry

FYI:

As she ripens, Colin OG RBX changes color dramatically—various purple shades come out from nearly black to vibrant magenta. Sink into Classic Sour OG with hints of grape and cherry.

- Loves outdoors, vibrant color, strong & vigorous, pungent terpenes
- Medium-height and fairly strong lateral branching.
- The more stocky phenos enjoy a regular defoliation.
- She can give large yields of flower and oil once she's dialed in.
- She finishes early but keeps growing—and changes color dramatically.

CRESCENDO RBX1

(CHEM D X I95 X MANDARIN SUNSET) x HEADBAND X I95

STATS:

Flowering Time: 63-70 Days

Yield: Very High

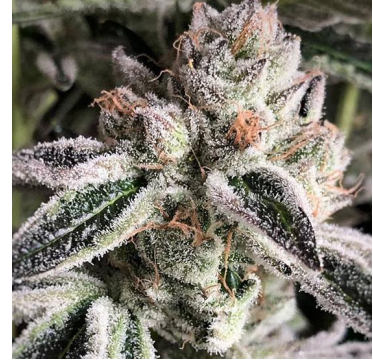

TAC: 30-37%

Terpenes: syrupy mandarin oranges, sour & gassy, earthy

FYI:

CrescendO's sour, gassy and citrusy flowers are insanely pungent!

- Beginner friendly, pungent terpenes, high yield, thrives indoors & outdoors
- Medium-tall with some stretch; she likes a little training.

EARLY LEMON BERRY RBX

LAS VEGAS LEMON SKUNK x MEMBER BERRY RBX*

*Pink Grapefruit Pheno

STATS:

Flowering Time: 56-60 Days

Yield: Chunky & Stacked

TAC: 25-30%

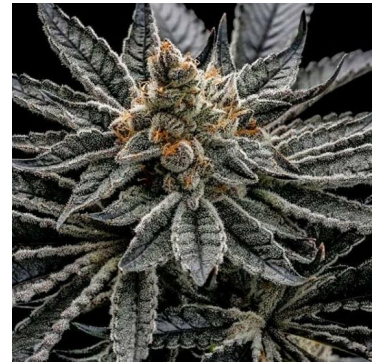

Terpenes: sweet lemons, orange & grapefruit, sugary berries

FYI:

Early Lemon Berry RBX has been bred for earlier harvests and generous terpy extraction returns.

Experience relaxing, classic "hybrid" effects and a euphoric blend of sharp, sugary citrus.

- Great for extractions, pungent terpenes, euphoric effect, fast flowering time
- She's a medium-large, fairly round bush.
- Strong lateral branching and stacked, orange-sized flowers
- Loves outdoors! Expect an early finish.

END GAME R2

END GAME #3 x END GAME #5 (CHERRY PUNCH X ETHOS COOKIES #16)

x (ETHOS COOKIES #4 X MANDARIN SUNSET)

STATS:

Flowering Time: 63-70 Days

Yield: Very High

TAC: 30%+

Terpenes: sour cherries, gasoline & incense, grape & orange

FYI:

With End Game R2, it's easy to grow heavy yields of large, pungent flowers.

Sour cherries and gasoline accompany notes of light grape, orange and incense.

- Thrives indoors & outdoors, high yield, chunky & dense, beginner friendly
- Easy to grow, both indoor and outdoors
- Medium-height plants with strong lateral branching. Large, chunky flowers stack nicely.

END GAME RBX EC #4 LINE

ETHOS COOKIES #4 x END GAME V1 #5

STATS:

Flowering Time: 63-70 Days

Yield: High

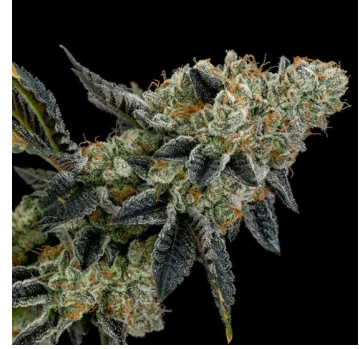

TAC: 30%+

Terpenes: sour oranges, sweet cherries, incense & candy

FYI:

Explore an indulgent blend of boutique aromas: sour oranges, sweet cherries, sandalwood, incense and candy. She's happy indoors and outdoors.

- Thrives indoors & outdoors, high yield, strong & vigorous, pungent terpenes
- A vigorous plant that grows best when topped and/or trained
- Medium-long internodes give her extremely dense flowers some elbow room. Plan on significant stretch in flower.

END GAME RBX “THE PUNCH LINE”

CHERRY PUNCH x (CHERRY PUNCH x ETHOS COOKIES #16) x ETHOS COOKIES #4

STATS:

Flowering Time: 56-63 Days

Yield: Friggin' Huge!

TAC: 25%

Terpenes: fruit punch, sweet berries, sour cherries

FYI:

If you're just getting started, The Punchline is easy to grow in any environment—and her yields are no joke. She's known for fruit punch flavors like sweet berries and sour cherries.

- Beginner friendly, high yield, thrives indoors & outdoors, pungent terpenes
- Fantastic structure with strong vertical branching, closely-stacked flower sets and a very high calyx-to-leaf ratio
- Huge yields at a beginner level

ETHOS APEX R1

LILAC DIESEL #10 x MANDARIN COOKIES

STATS:

Flowering Time: 60-63 Days

Yield: Beast Mode!

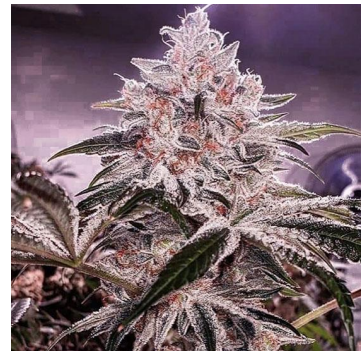

TAC: 30%

Terpenes: candied lilac, lemon cake, earthy chem

FYI:

Ethos Apex R1 produces HUGE yields of boutique flower. Her complex aromas range from candied lilac, lemon cake, berries and grapefruit to earthy chem and petrol.

- Unique boutique, high yield, loves indoors, pungent terpenes
- Medium-long internodes stack large medium-dense flowers
- Vigorous and easily trained

ETHOS COOKIES #4 S1

EC #4 x EC #4

STATS:

Flowering Time: 63-70 Days

Yield: Average

TAC: 30%

Terpenes: incense & sandalwood, sour orange, gasoline

FYI:

This is a truly special, unique boutique flower. She can yield fairly well when grown to her potential—but it's her quality that makes her distinct.

- Not for beginners, loves indoors, pungent terpenes
- Classic cookie structure with smaller, extremely dense flowers drenched in trichomes
- Tall and vigorous with long internodes. She can get out of control if not topped and trained properly.

ETHOS COOKIES R2

ETHOS COOKIES #1 x ETHOS COOKIES #16

STATS:

Flowering Time: 60-63 Days

Yield: Heavy!

TAC: 30%+

Terpenes: sweet berries, cherries & grapefruit, florals & gasoline

FYI:

Ethos Cookies R2 is a cookie bred to be grown at scale. She's complex and rich, with luxurious notes of sweet berries, candied cherries, tart grapefruit, pleasant florals and gasoline.

- Beginner friendly, pungent terpenes, high yield
- Large, chunky flowers stack on her very strong lateral and apex growth.
- She's a fast finisher that's easily trained and grows well in any system or environment.

ETHOS HAZE IBL

LILAC DIESEL #22 x SUPER LEMON HAZE* x (1994 JACK HERER X NL #5 X HAZE) x (NYCD X LILAC DIESEL BX1) x (JACK HERER** X NL #5 X HAZE**)

*Greenhouse Seed Co 2009 **Sensi Seed Bank 1994

STATS:

Flowering Time: >70 Days

Yield: Absolute BEAST!

TAC: 25%

Terpenes: sharp lemon, spices, pine

FYI:

Ethos Haze IBL likes to grow tall and give massive yields—and is best suited for a pro grower.

- Loves indoors, not for beginners
- Extremely vigorous and tall. Fairly long internodes with very large flowers
- Long, thin leaf blades
- Only one pheno. Spongy flowers with large trichome heads

GRANDPA'S COOKIES #6 S1

GRANDPA'S COOKIES #6 x GRANDPA'S COOKIES #6

STATS:

Flowering Time: <56-60 Days

Yield: High

TAC: 25-30%

Terpenes: orange, lemon, grapefruit rinds

FYI:

Grandpa's Cookies #6 S1 is fast to flower and easy to trim, with golf ball-sized, super dense nugs coated in resin.

- Loves outdoors, strong & vigorous, pungent terpenes
- Strong plant with good lateral growth. Not too tall.
- Extraordinary bract-to-leaf ratio.

GRANDPA'S COOKIES R1

GRANDPA'S STASH #7 x ETHOS COOKIES #4

STATS:

Flowering Time: 56-63 Days

Yield: Beast Mode the Entire Cycle!

TAC: 25-30%

Terpenes: sweet pine, orange incense, skunky & musky

FYI:

Grandpa's Cookies is boutique quality, with a complex bouquet of sandalwood, sweet pine, skunk and musky orange incense. This lush, vigorous plant stacks dense and produces bountiful yields.

- Lush and vigorous. Not very leafy
- Height varies a bit, along with lateral growth. The stockier plants are still extremely vigorous.
- Densely stacked with large flowers and bountiful yields

GRANDPA'S COOKIES R2 V1

GRANDPA'S COOKIES #11 x GRANDPA'S COOKIES #6

STATS:

Flowering Time: 56-63 Days

Yield: Monster!

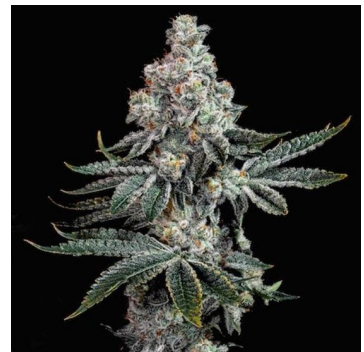

TAC: 25-30%

Terpenes: sandalwood, spices, citrus peels

FYI:

Grandpa's Cookies R2 V1 is a big plant with lots of stacked branches covered with large, dense flowers. She's easy to grow and trim.

- High yield, fast flowering time, chunky & dense, thrives indoors & outdoors
- High bract-to-leaf ratio and extremely resinous

GRANDPA'S STASH R2

GRANDPA'S STASH #5 x GRANDPA'S STASH #12

Lineage: Super Skunk, Afghan Kush, OG Kush

STATS:

Flowering Time: <56-60 Days

Yield: Monster!

TAC: 25-30%

Terpenes: sweet pine, chem, skunk

FYI:

This easygoing plant thrives anywhere. With a natural mold and mildew resistance, Grandpa's Stash R2 is well-suited for wet seasons.

- Easily grown in any situation, indoor or outdoor. Beginner friendly
- Mold and mildew resistant—perfect for short or wet seasons outdoors
- A stocky frame that stacks huge flowers all the way down the plant
- Quick onset and a fast ripener

GRAPE DIAMONDS R2

GRAPE DIAMONDS* x PINK GRAPEFRUIT*

*Both are phenotypes of Memberberry

STATS:

Flowering Time: 60-63 Days

Yield: Huge

TAC: 25-30%

Terpenes: grape skunk, tart grapefruit, propane

FYI:

Grape Diamonds R2 does the work for you—she's easily grown in any system, indoors or sun grown.

- Beginner friendly, high yield
- A strong, vigorous plant with solid lateral branching.

LEMON BERRY CANDY OG R2

LBCOG #1 x LBCOG #7

STATS:

Flowering Time: <56-60 Days

Yield: Heavy

TAC: 25%

Terpenes: candied lemons, mixed berries, gasoline

FYI:

An absolute dream to grow in every way: early to ripen, extraordinary for extractions and bursting with sharp, candied aromas.

- Thrives indoors & outdoors
- Medium-height with strong lateral branching
- Her flowers and leaves are coated in huge terpy trich-heads.
- Ripening early, she can be taken at 7 weeks, or keep letting her swell until week 9.

LILAC DIESEL RBX2

(SLH X FORBIDDEN FRUIT) x (NYCD X CHERRY PIE) x (CITRAL GLUE X CHEMDI95)

STATS:

Flowering Time: 56-63 Days

Yield: Extremely Heavy

TAC: 25-30%

Terpenes: gassy & skunky, floral, sour citrus

FYI:

Easily trimmed and known for big yields, Lilac Diesel RBX1 is an obvious choice for any garden.

- Uplifting effect, thrives indoors & outdoors
- Strong and aggressive with medium-length internodes and heavy lateral branching
- Large, spongy-but-solid flowers

MAC N' JACK R1

MAC 1 x 1994 JACK HERER

STATS:

Flowering Time: 63-70+ Days

Yield: She's a monster!

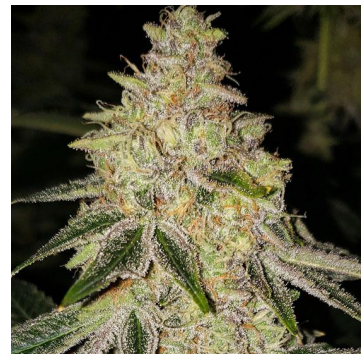

TAC: 25-30%

Terpenes: landrace lemon, incense & pine, sandalwood

FYI:

Mac n' Jack is insanely vigorous, with extremely high yields and a mind of her own. She's a great match for seasoned growers. Her terpene profile blends sharp lemon with earthy, woody notes.

- Not for beginners, uplifting effect, loves indoors
- Insanely vigorous—she can get out of control if not properly grown.
- Great stacking for such a fast growing plant
- Tip: Send her into flower earlier than a typical plant. She'll fill in nicely the first month of flower, with strong vertical and lateral branching.
- Can thrive outdoors but needs the full season

MANDARIN COOKIES V2

ETHOS COOKIES #12 x MANDARIN SUNSET R1

STATS:

Flowering Time: 60-63 Days

Yield: High

TAC: 25-33%

Terpenes: cutie mandarins, grapefruit & grapes, gas & hash

FYI:

Mandarin Cookies V2 grows like a champion, with colorful, flavorful flowers and loud AF aromas. The V2 version adds even more citrus—along with the always-welcome gasoline—by moving away from the Forum Cut to the MUCH chunkier, OG-Kush-heavy Ethos Cookie #12.

- Pungent terpenes, thrives indoors & outdoors
- Exquisite flower structure: medium-sized, dense and stacked with perfectly spaced internodes and low bract-to-leaf ratio.
- About 20% are half-height but can put out VERY colorful and flavorful flowers.
- Strong apex-heavy growth may require light training.
- She can stretch quite a bit in flowering but is controllable. She performs well when often-topped (not within 10 days of flower).

MANDARIN COOKIES R1 (ORIGINAL)

FORUM CUT COOKIES x MANDARIN SUNSET

STATS:

Flowering Time: 56-63 Days

Yield: High

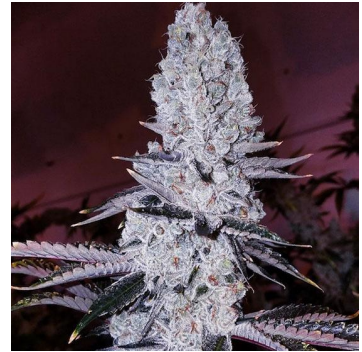

TAC: 25-30%

Terpenes: sharp grapes, sweet citrus, heavy chem dawg

FYI:

Original Mandarin Cookies R1 boasts vigorous growth and chunky, high-bract flowers—and intoxicating aromas of citrus and gasoline. She's quickly becoming a legend.

- Thrives indoors & outdoors, pungent terpenes
- Medium-long internodes and chunky, high-bract flowers
- Vigorous growth

MANDARIN SUNSET

HEROJUANA x ORANGE SKUNK

STATS:

Flowering Time: 56-63 Days

Yield: Average

TAC: 25%

Terpenes: mandarin orange, skunk

FYI:

Mandarin Sunset is known for her extremely unique, pungent flavor and heavy, sedative high. Rich mandarin orange and skunk terpenes have led this lady to multiple concentrate awards.

- Cup winning flower AND extract!
- Medium-stretch and great bract-to-leaf ratio make Mandarin Sunset easy to grow.
- She's sure to bring good yields of amazing flower for decades to come.
- Low plant and flower morphology

MANDARIN ZKITTLEZ R1

CALIFORNIA BLACK ROZÉ x MANDARIN SUNSET R1

STATS:

Flowering Time: 56-60 Days

Yield: Average

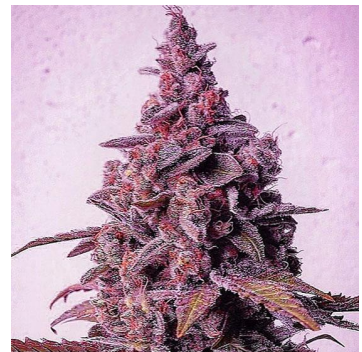

TAC: 25%

Terpenes: grape & orange, grapefruit, hashy spice

FYI:

Vibrant hues of purple, black and red dominate this heavy-hitter. Dying Breed's California Black Rozé was used as the female in this cross—her flavor and effects are extraordinary and much more resinous than the original Zkittlez.

- Euphoric effect, pungent terpenes
- Avocado-shaped flowers are dense and easy to trim.
- Her extraction quality is beyond description.

MEMBER BERRY RBX1

SKUNK BERRY x MANDARIN SUNSET

STATS:

Flowering Time: 56-70 Days

Yield: High

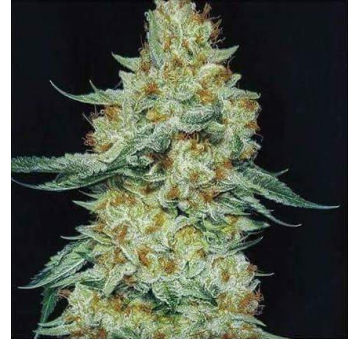

TAC: 24-28%

Terpenes: sweet & tart citrus, citrus & florals, old-school skunk

FYI:

With Member Berry, you can expect large yields of truly boutique flowers—and heavy, long-lasting effects. Sweet and tart citrus and floral flavors are accompanied by old-school skunk in certain phenos. Do you member?!

- Beginner friendly, euphoric effect
- Cup winning flower AND extract!
- Low plant morphology; high flower morphology
- Extracts up to 4-5% terpenes

ORANGE KUSH CAKE R1

(WEDDING CAKE X JILLY BEAN) x TRIANGLE KUSH x LIL R2

STATS:

Flowering Time: 56-70 Days

Yield: HUGE!

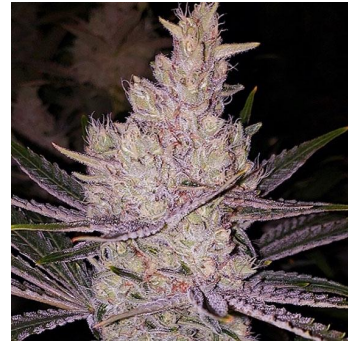

TAC: 30%+

Terpenes: orange & citrus, sour grape candy, earthy chem

FYI:

Orange Kush Cake's medium-sized, spongy flowers glisten with huge trichomes that sparkle like diamonds. Her complicated combo of citrus leans toward rich oranges and mingles with grapefruit, sour grape candy, sandalwood and earthy chem.

- Strong plant that stays medium-height with good lateral branching
- Orange Kush Cake is a euphoric and hard-hitting nighttime smoke, minus the couch lock. Great for nighttime—she's physically and mentally euphoric and relaxing.
- She's perfect for any substrate or room, indoors or outdoors.

ORANGE VELVET UNDERGROUND RBX

(SOUR TANGIE X MANDARIN SUNSET) x ORANGE VELVET (CLONE ONLY)

STATS:

Flowering Time: 56-63 Days

Yield: Average

TAC: 20-25%

Terpenes: orange spices, earthy skunk

FYI:

Orange Velvet Underground is a beast in all phases, with baseball-sized nugs. Dark purple is her most common hue, but cold temps make her colors more vibrant and dynamic—almost blue.

- Pungent terpenes, thrives indoors & outdoors
- Dark purple hues, especially in her flushing phase. Cold temps turn her almost blue.
- Large, medium-dense kolas and side branching, baseball-sized nugs
- Easily controllable and trained due to her strong lateral branching and vigorous, stacked apex growth

PLANET OF THE GRAPES RBX

GRAPE DIAMONDS* x (CHEM D X I95)

*Grape Diamonds is a phenotype of Memberberry RBX

STATS:

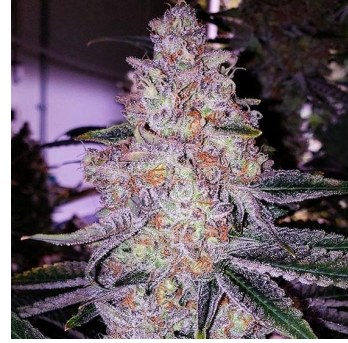

Variety: Fem Photo

Flowering Time: 60-63 Days

Yield: High

TAC: 30%+

Terpenes: sharp grapes, sweet citrus, heavy chem dawg

FYI:

Planet of the Grapes is made to PRODUCE! Extremely high in both cannabinoid and terpene percentages, she's close to a perfect commercial plant for scale production, regardless of end-game.

- Beginner friendly, pungent terpenes
- Heavy flower yields are easy to get on this low-maintenance, medium-height, strong, lateral plant.
- She tests and extracts HUGE in usable oils!
- Acrid aromas like propane and "hooch" accompany the more citrusy pheno.
- Intense, heavy, classic "Indica" effects.

PUNCHBERRY COOKIES RBX

PUNCHBERRY COOKIES x END GAME THE PUNCH LINE

STATS:

Flowering Time: 60-63 Days

Yield: High

TAC: 30%

Terpenes: hawaiian punch, extra-sweet cherry, strawberries

FYI:

Punchberry Cookies RBX produces beautiful, vibrant flowers with Hawaiian Punch flavors and a relaxing effect.

- Great for extractions, thrives indoors & outdoors
- She grows like a champ! Medium-height with good vigor and stacks nicely
- Lovely, colorful flowers make for amazing extraction.
- Hawaiian Punch flavors with extra-sweet cherry and strawberries mixed in.
- Undertones of orange and grape come out more strongly in the taller pheno.

PURPLE MAJIK R1

HEIRLOOM PURPLE CLONE x MANDARIN SUNSET

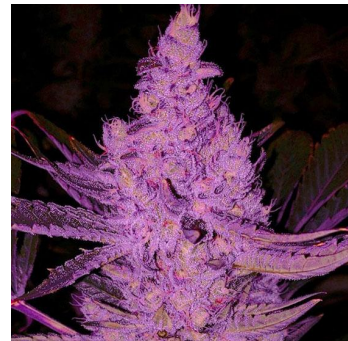

STATS:

Flowering Time: <56 Days

Yield: Average

TAC: 20-25%

Terpenes: pink cotton candy, blueberry muffins, candied cherries

FYI:

Purple Majik R1 has a good amount of variation, but it's all desirable and distinct. Flowers range in size and structure from large and medium-dense to spongy flowers that form bract-heavy sets that remind us of the original Purple Urkel.

- Most grow fairly compact, with strong lateral branching.
- Very fast onset and quick to ripen. She's great for fast production and quick turnover for the perpetual work flow—a great early season plant for outside.

PURPLE SUNSET RBX2

(PURPLE PUNCH X MANDARIN SUNSET) X (PURPLE PUNCH X MANDARIN COOKIES)
X MANDARIN SUNSET

STATS:

Flowering Time: 56-60 Days

Yield: High

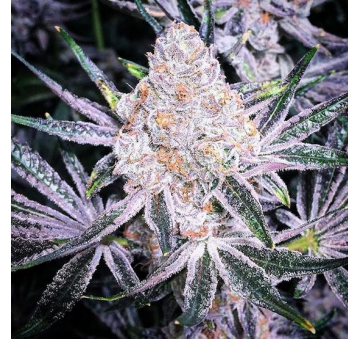

TAC: 25-30%

Terpenes: sweet & spicy citrus, berries, floral

FYI:

Versatile and vibrant-purple-hued with tangerine-sized nuggets from head to root.

- Beginner friendly, thrives indoors & outdoors, chunky & dense
- Purple Sunset is an anxiety-calming day smoke or a euphoric nighttime smoke, no couch-lock here.
- Her iconic purple hues come on heavy as she flushes.
- She's a grower's dream: strong lateral branching, good vigor, fast to flower, easily trained for any system. (If she gets big, she'll need some support for her flowers.)

PURPLE ZKITTLEZ RBX

PURPLE ZKITTLEZ #1 X PUNCHLINE #3

* (Zkittlez x Purple Punch)

STATS:

Flowering Time: 60-63 Days

Yield: Average

TAC: 25-32%

Terpenes: sweet candy, various fruits, sandalwood

FYI:

Purple Zkittlez is known for her extraordinary flavor, effects and appearance.

Her flowers are spectacular, with deep purple hues completely coated in large-headed trichomes.

- Unique boutique, pungent terpenes, thrives indoors & outdoors
- Medium-height with medium-sized flowers. Strong lateral branching makes training easy.
- She's easy to grow in any environment. She's not a big feeder, but enjoys lots of light.
- Acrid diesel gasoline can come through on some.

SAMO 78

PANCAKE ICE* X ETHOS HAZE IBL

*Original Crescendo pheno

STATS:

Flowering Time: >70 Days

Yield: Gigantosaur!

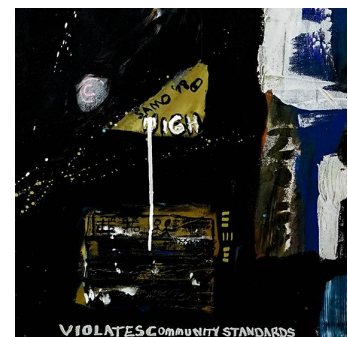

TAC: 30%+

Terpenes: sharp lemon, heavy gasoline, garlic & spices

FYI:

SAMO 78 is vigorous, medium-dense and pungent, with aromas of gasoline, incense, pine and lemon. And, she comes wrapped in limited-release artwork. Intense and long-lasting, SAMO 78 is initially uplifting—then quickly turns to heavier, narcotic effects.

- She grows best indoors
- Medium-long internodes
- Good bract-to-leaf ratio

SHAWTY R1

SUPER SKUNK x ZOUR APPLES x END GAME #5 x MANDARIN SUNSET

STATS:

Flowering Time: 56-63 Days

Yield: Very Heavy

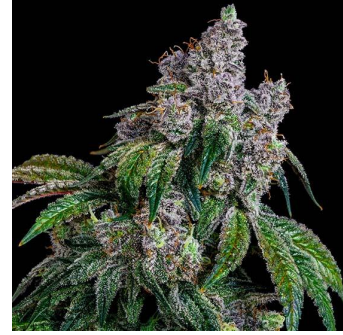

TAC: 30%+

Terpenes: exotic spices, sweet garlic, steak

FYI:

Easy-growing and great for hash, Shawty R1 is very resinous with chunky, spongy flowers. She's uniquely funky with some sweet berry undertones and cooking aromas like basil, garlic and steak. Expect euphoric and clear effects.

- Stocky and stacked, with classic Afghan Kush traits
- Chunky, spongy, fast and potent
- Full spectrum effects—a cerebral and body experience. She hits like a freight train.
- Beginner friendly—easy to grow and train in any environment

SKUNK HERO RBX1

1994 SUPER SKUNK x MANDARIN SUNSET

STATS:

Flowering Time: 56-63 Days

Yield: Massive!

TAC: 20-25%

Terpenes: dutch skunk, citrus undertones, earthy

FYI:

Old-school and easy to grow, Skunk Hero thrives wherever you put her.

Throw some light her way and watch as she produces huge yields.

- Robust and strong with good lateral branching and extremely large, fast-onset flowers
- She likes heavy light and can thrive in any system. Easy to grow for anyone, even the beginner grower
- Late 80s early 90s classic Dutch Skunk profile along with some citrus undertones

STRAWBERRY COOKIES OG R1

STRAWBERRY OG IBL x ETHOS COOKIES #16

STATS:

Flowering Time: 60-70 Days

Yield: Excellent

TAC: 30%+

Terpenes: musky incense, sweet strawberries, dry grapes & gas

FYI:

Strawberry Cookies has a distinct OG pheno that's heavy in gas, sour and pine.

The others mix between the sweeter strawberry or the dry grape—all are rich and complex.

- Heavy, relaxing and euphoric, but not sleepy
- Her flowers grow in solid chunks with medium-long internodes. High bract-to-leaf ratio allows this fairly tall plant to bud heavily all the way down her branches.
- She does best if she's topped after the first large set of fan leaves.
- She may go vertical and need light training; excellent in trellises.
- Phenomenal extraction indoor and outdoor

SUPER LEMON HAZE RBX3

SLH X LILAC DIESEL #22 x [SLH X (SLH X LEMON OG HAZE)]

*SLH from Greenhouse Seed Co 2009

STATS:

Flowering Time: 60-70 Days

Yield: High

TAC: 25-30%

Terpenes: sweet lemons, spices, berries

FYI:

Delight in an uplifting, social smoke—Super Lemon Haze RBX3 is a happy appetite stimulant with flavors of sweet lemons, spices and berries.

- Thrives indoors & outdoors
- Strong and vigorous with good lateral and vertical branching
- Medium internodes and large, spongy flowers with thin and sparse leaves
- Easy to trim

THUG ROZÉ R1

(CALIFORNIA BLACK ROZÉ X LILAC DIESEL #22) x END GAME PUNCH LINE #3

STATS:

Flowering Time: 60-70 Days

Yield: Absolute Monster

TAC: 25%

Terpenes: sharp sativa lemon, sweet tarts, sour gas

FYI:

Sharp and sweet, Thug Rozé is an invigorating daytime smoke—perfect for activities or mood-boosting. She produces monster yields and prefers to grow indoors.

- Uplifting effect, appetite stimulant
- Extremely vigorous with huge flowers. Long internodes and fairly stacked flowers
- Thin, scant blades on the sugar leaves of bulbous, spongy flowers. Fox tails that ripen nicely
- Terpene onset comes a little late in this one.
- Be aware of possible botrytis in humid environments late in flower.
- Not recommended for outdoor setups

WHITE WEDDING RBX

WEDDING CAKE x MANDARIN COOKIES x CRESCENDO

STATS:

Flowering Time: 60-63 Days

Yield: Chunky AF!

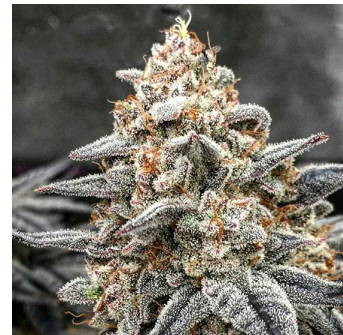

TAC: 30%+

Terpenes: sour gasoline, incense & pine, cherries & mandarins

FYI:

She's a beast! Extremely dense and large flowers coated in trichomes and rich, complex terpenes that coat the senses. Enjoy indulgent aromas of sour gas, incense, pine, syrupy cherries and mandarin oranges.

- Relaxing Effect
- Extremely dense and large flowers coated in trichomes
- Medium-large plant with medium-length internodes. Extremely high bract-to-leaf ratio makes her a delight to trim.
- Perfect for indoor or outdoor

XXX

LEMON BERRY CANDY OG x END GAME PUNCH LINE #3

STATS:

Flowering Time: 56-63 Days

Yield: Average

TAC: 25-30%

Terpenes: sweet berries, pineapple, synthetic grape

FYI:

Extraordinary and LOUD AF, her terpenes make her truly special—sweet berries, grapes and pineapple along with candied lemon. Some have a Sex Panther quality to them: an acrid, synthetic grape that stings the nostrils.

- Beginning friendly, fast flowering time
- Fairly vigorous with strong lateral branching. Large flower clusters like grapefruits
- Spongy flower with frequent, thin-bladed sugar leaves; fox tails are a common tendency
- Uplifting and happy effects. XXX is a great daytime smoke.

ZWEET OG R2

ZWEET OG #23 x ZWEET OG #8

STATS:

Variety: Fem Photo

Flowering Time: 63-70 Days

Yield: Very High

TAC: 30%+

Terpenes: heavy gas, chem, lemon lime candy

FYI:

Zweet OG R2 is extremely potent, with long lasting effects: clear and euphoric but also heavy. Her terpene profile is a delightful mix of gas, chem and lemon lime candy.

- Extremely vigorous with medium-long internodes and large stacked flowers
- Spongy, solid flowers. Big trichome heads, great for water extraction
