History

1962

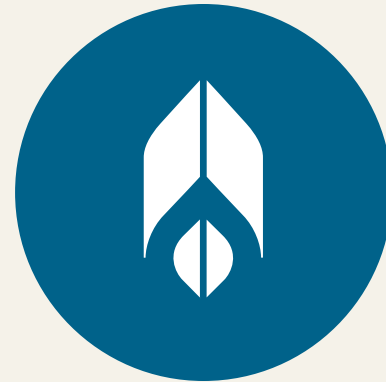

CERAMICA FAETANO
FAETANO (SAN MARINO)

Faetano has produced hand made ceramics for decades, and today its designs carry this heritage embedded in their looks and colors.

1979

CERAMICA DEL CONCA
SAN CLEMENTE (ITALY)

Ceramica Del Conca sets the foundation of the Del Conca Group. The company boasts a conspicuous sensibility for technological innovation, design, quality, research and the environment: testaments to a savvy ceramic culture.

2000/2017

CERAMICA DEL CONCA
SAN CLEMENTE (ITALY)
SAVIGNANO (ITALY)

Ceramica del Conca undergoes a period of remarkable industrial expansion, with new production plants and upgrades for the production of high-value and extra thick tiles and porcelain slabs.

2014

DEL CONCA USA
LOUDON, TN

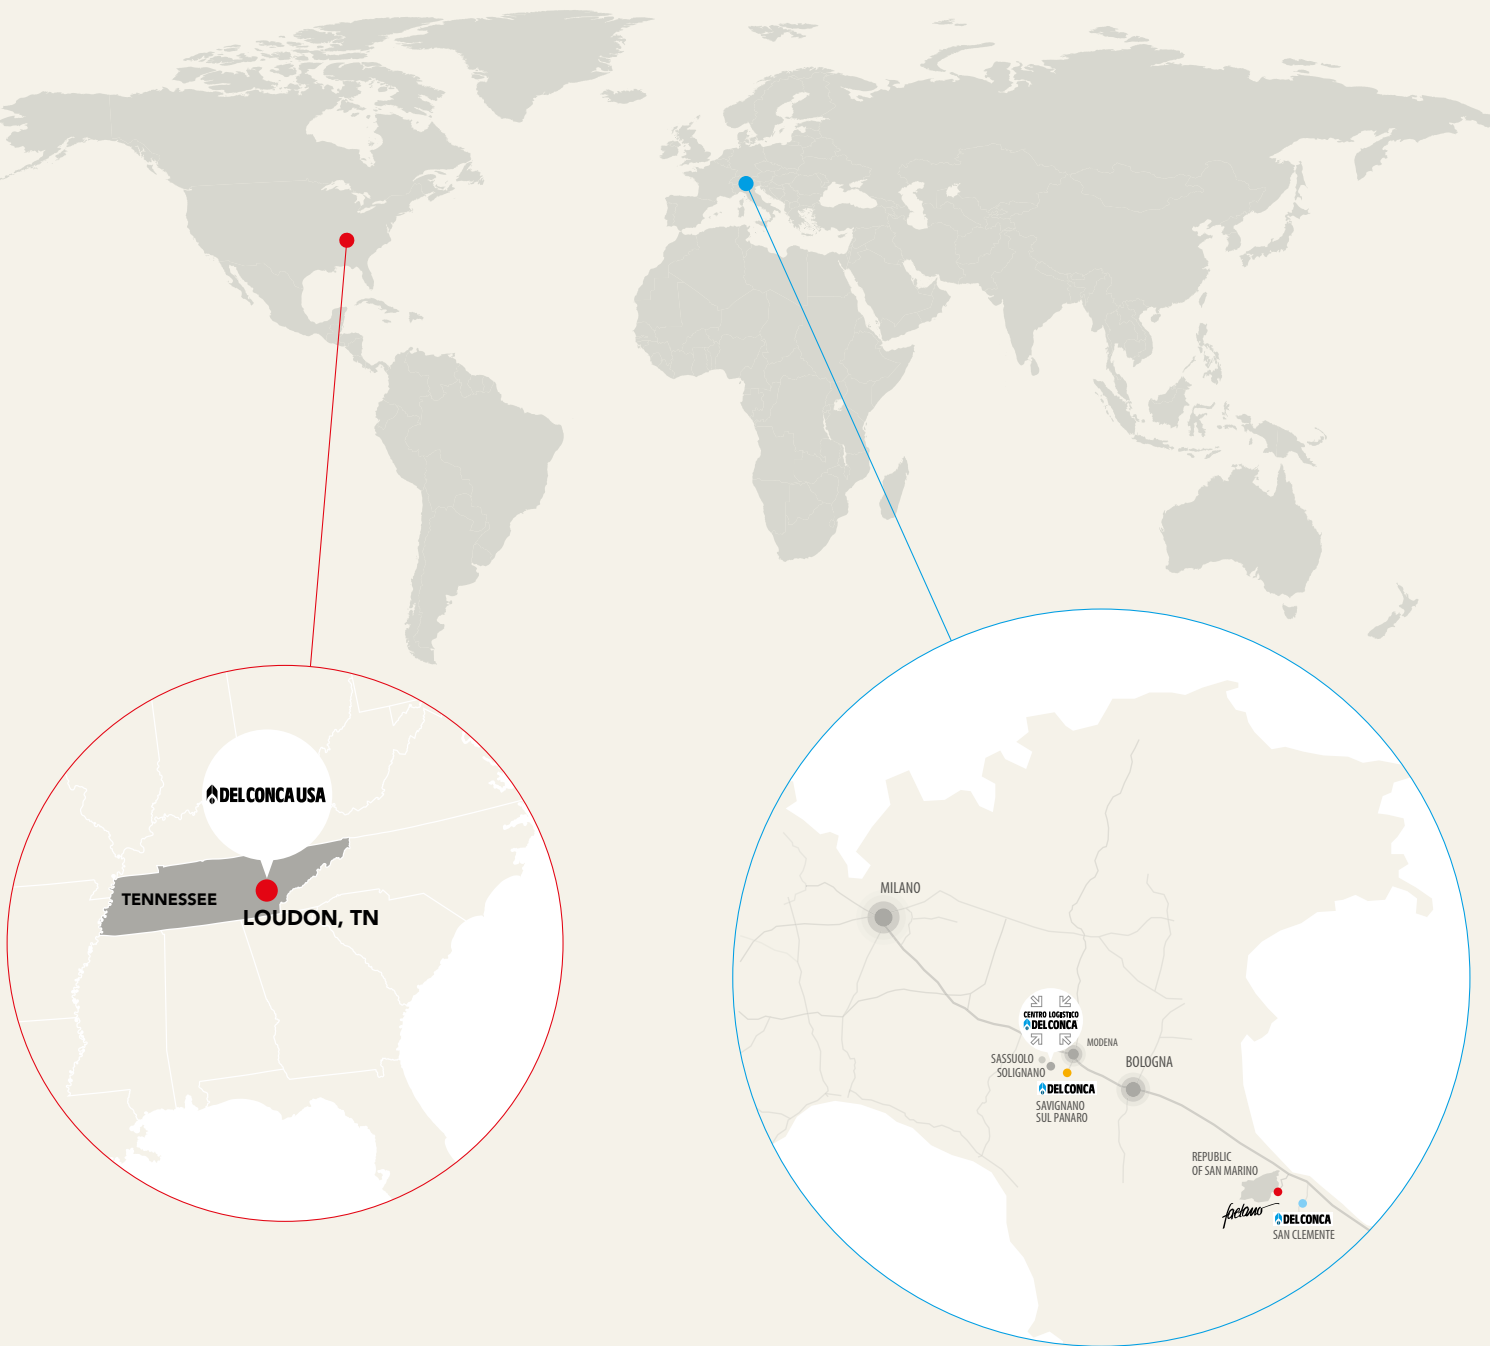

Del Conca USA is established in Loudon, TN to combine local production and Italian design, providing creativity, research and technological innovation to better serve North American customers.

Where we are

Del Conca USA is the USA subsidiary of the Del Conca Group. With four factories located in Italy, San Marino and the USA, the Group has a product portfolio containing floor and wall, indoor and outdoor, pavers and porcelain slabs.

Del Conca USA's products are designed in Italy with an eye for North American taste and made in the USA for maximum convenience. The best collections by Del Conca and Faetano are stocked in Loudon, TN, offering additional products from the Del Conca Group.

Del Conca USA, Inc.
155 Del Conca Way - Loudon, TN 37774 - USA - Tel 865.657.3550 - Fax 865.657.3554

About Del Conca USA

The planning and design of each collection is conceived and carried out in Italy, in the Group's own research facility. An across-the-board creative process, the fruit of intensive teamwork involving designers, laboratory and quality technicians in order to ensure uniquely distinctive products; all made in the USA at the high-tech facility in Loudon, TN, the latest proud achievement of the Del Conca Group. Our products combine Italian creativity with modern American trends, delivering timeless design and superior performance.

Technology

Attention to detail, sensitivity to the environment and innovation are necessary to remain faithful to the vocation of producing ceramic tiles. The awareness of a historical and artistic heritage are drawn on for inspiration. An open and active vision of the evolution of the contemporary world, associated with creativity and originality, are the driving forces behind the development of superior quality surfaces that represent high quality Italian design culture.

An innovative production system is used to create porcelain stoneware with **high-definition graphics**, which is resistant to wear and chemical agents, easy to clean, and is suitable for spaces exposed to strong external stress.

The Del Conca USA factory is a hub of innovation, with **state-of-the-art facilities** to create the highest quality porcelain tile.

A production system that includes the collaborative effort of all departments is used to create porcelain stoneware with high definition graphics and material benefits.

Our Team

Enthusiasm, energy and commitment are the underlying characteristics shared by the team of dynamic people that are the beating heart of Ceramica del Conca. The creation of a close-knit working group, which believes in the company's values and desire for continuous renewal, is an important resource; this great resource must be nurtured with great care and attention.

The ethical qualities, sense of responsibility and professional skills of each member of the team must be enhanced through refresher and training courses. In this way, through the experience and know-how acquired together with trusted partners and experienced collaborators, the cultural, technological and aesthetic content of the products and services is transformed into something unique, capable of generating and implementing ideas that are always different and innovative.

Social Responsibility

The Del Conca Group has always been active in the social sphere also thanks to the Cino Mularoni Foundation, which aims to organize cultural and scientific events, encouraging studies and research and contributing to the training of young scholars and to supporting various publishing activities.

The Del Conca Group employs human and economic resources to promote a wide number of philanthropic activities, obtaining concrete results in the humanitarian field with solidarity projects all over the world.

Since the first project carried out in Indonesia in 2008, the focus has been on the importance of health and education as a basis for social and economic development of all the poorest countries in the world; since then the company has fully committed to this mission and has moved in that direction through the construction of schools, family houses, water networks, health centers and hospital wards.

Support was also provided to the populations strongly affected by the earthquakes in Italy in 2012 and 2016.

We believe that good design should serve both people and the planet.

Sustainability

Respect for the environment and natural resources, combined with attention to energy consumption, has always been a key goal which the company pursues. The aim is to offer customers a product that not only has high quality technical and aesthetic features but that is also manufactured according to sustainability criteria. The environmental policy is implemented by raising the awareness of employees and suppliers on ecology and energy saving issues.

The company's environmental philosophy is attentive to the environment and to people's well-being. It is based on the complete internal re-use of the industrial water produced during the company and third-party's processing cycles, the reduction of CO2 emissions into the atmosphere in line with the requirements of the Kyoto Protocol, the recovery of all non-fired production waste during production and proper waste management.

Technical characteristics

TECHNICAL CHARACTERISTICS AND STANDARDS OF REFERENCE

Our first choice porcelain tiles are compliant with ISO 13006 & ANSI A137.1 standard. Therefore they must not be perfect (which is impossible for any industrial product) but fall within the tolerances defined by the standard. The valuation of the appearance of the tiles shall be performed, as defined by the standard, placing tiles on a viewing board and examining it (perpendicularly) from a distance of at least 1 meter (3.3 feet). Defects of tiles can be of two types: noticeable (already visible before setting, such as color differences, surface defects, fractures, etc) or hidden (not visible before setting). Claims about noticeable defects may be made only before tiles are installed, allowing the manufacturer to replace any defective material. However, if the buyer or tile installer decides to proceed with installation, the responsibility of the manufacturer is invalidated. No claims will be accepted regarding installed product. Responsibility for hidden defects remains with the producer if these are notified within the legal time limits.

Catalogs indicate nominal size, not actual size.

RECOMMENDATIONS FOR USE

No laboratory test, however efficient it may be, is sufficient to determine the durability of a product. Apart from the obvious factor of the number of foot contacts, durability can also be influenced by the technical characteristics of the product, location of the installation and the possible presence of abrasive agents. We therefore recommend not only that products should be chosen with resistance characteristics that are sufficient for the intended use, as shown in the following chart, but also that floors should be protected against sand, grit and other abrasives with the use, for example, of mats.

See www.delconcausa.com/download/edpceramictile.pdf to download the EPD report covering Del Conca USA products.

ANSI A 137.1 Colored Body Porcelain Stoneware Glazed Porcelain Stoneware

	Established limits	Performances	Norms
 Water absorption	≤ 0,5%	~ 0,1%	ASTM C 373
 Breaking strength (1)	≥ 250 lbf.	Conforms	ASTM C 648
 Resistance to freeze-thaw cycling	Resistant	Frost proof	ASTM C 1026
 Resistance to thermal shock	Resistant	Resistant	ASTM C 484
 Slip resistance (DCOF)	≥ 0,42	Only for Natural Surface Conforms	ANSI A326.3: 2021 (DCOF)
 Chemical resistance	As reported	Class: A	ASTM C 650
 Stain resistance	As reported	Class: A	ASTM C 1378

Reference values valid for almost all our collections. Browse through our website for further specifications.

(1) It states the resistance of a sample piece, leaning on three spots, to a concentrated load placed in the middle.

Key to symbols

SHADE VARIATIONS

**LOW**
Uniform colour with only minimal differences between tiles in the same production run.

**MODERATE**
Clearly distinguishable differences in texture and pattern within the same production run.

**HIGH**
Significant variation in texture, pattern and colour from tile to tile within the same production run. The colour range should be viewed before selecting the material.

**RANDOM**
Random differences from tile to tile. One tile may have totally different texture and colour from another. The colour range should be viewed before selecting the material.

RECOMMENDED USE

 Recommended for floors for medium-light use, as in private homes, with the exception of kitchens and rooms with direct outdoor access.

 Recommended for all rooms in the house and for business premises with medium use.

 Recommended for all rooms indoors and outdoors and for business premises in general.
