Increased wear & stain resistance | 6k rotations

Harbor Oak

## Trim Options

- Stair Nose
- T-molding
- Threshold
- Reducer

## Installation

Float

Over Radiant Heat  
\*excluding hickory

Installs over: concrete, wood, vinyl floors and radiant heat systems. Above, on or below grade.

## Wood Characteristics

Color, Graining & Natural Changes

Wood flooring is a natural product that will feature distinct color and graining between planks. Each board contains large to small knots, sap wood, and a high contrast within the natural and lighter stained visuals. Knots and voids may or may not be filled with dark putty.

Note: This sample may not be representative of your entire installed floor, for your reference and the latest updated information, please refer to [hallmarkfloors.com](http://hallmarkfloors.com) to see our online room scenes and product galleries.

Before installation review the samples with the floor and verify our beautiful one of a kind floor is what you are expecting.

Installation constitutes acceptance.

## Light Characteristics

Wood Floor Plank with Natural Finish  
Light\* Exposure Over 48 Months
