REGATTA HARDWOOD

Hallmark is proud to introduce the Regatta Hardwood flooring range, combining the beauty of real hardwood with supreme wear resistance and comfort.

Regatta Hardwood floors offers a dozen beautiful visuals in a variety of species, including European Oak, American Hard Maple and American Hickory. The innovative 3-layer construction features a real wood wear layer, a strong and waterproof core and soft, sound reducing backing.

The Regatta Hardwood floors come with a Spill Proof guarantee, a high performance commercial finish and an edge sealant that provides 360 degree protection. The “push lock” fastening system provides extra seam protection and makes the floors easy to install.

#1 SPILL PROOF COMMERCIAL FINISH

A 72-hour moisture resistant commercial urethane topcoat protects the Real Wood wear layer of the Regatta floors from the wear and tear of everyday life. The Glaze Tek Commercial Finish repels moisture and is reinforced with aluminum oxide, creating a physical barrier to provide maximum scratch and wear resistance.

#2 REAL WOOD

Only natural wood creates authentic and unique designs; in real hardwood floors you never see the same board repeated twice. That is why Hallmark has chosen real European Oak, American Hard Maple and American Hickory for the wear layer of the Regatta floors. The meticulously selected boards are carefully treated using hand-scraping and unique brushing techniques to enhance nature's own graining. The result is a floor that will add a sense of luxury and warmth to any space.

#3 TOUGH TO THE CORE...

The real wood wear layer is supported by a waterproof Purcore RIGID+ center core - a high density, moisture resistant layer that is made from 60% compressed stone and virgin PVC. This solid layer boasts an incredible 5000+ psi indentation rating* from high heels and heavy furniture.

- Waterproof Purcore RIGID+ center core
- High density
- Moisture resistant layer
- 60% compressed stone and virgin PVC
- 5,000+ PSI indentation rating*

#4 LISTEN TO THIS...

Creating a comfortable feel is our soft backing that not only insulates from the cold subfloor but also softens the ambient tones from family to visiting friends. So, you can forget your everyday hustle and bustle, relaxing in your space and enjoying life's quiet moments.

360° PROTECTION

Regatta's UNIPUSH® locking system is a state of the art drop and go installation miracle. It eliminates adhesive and provides a perfect fit. By engaging the tongue side of one plank into the groove side of the other plank, you simply drop it into place. Adding to the UNIPUSH® locking system is our 360° spill proof coating that creates a tight connection between the planks and doesn't allow for everyday mishaps to creep through the seams.

Unlike traditional hardwood flooring that can absorb water and trap dirt in joints, the 360 degree coating is topical and administered to the tongue and groove for moisture protection on all sides.

ADVANTAGES

- USFS & PEFC hardwood wear layer
- Dent resistant core
- 5,000* PSI Waterproof RIGID core
- Pure virgin vinyl & 60% stone

FEATURES

Hand glazed finish with Aluminum Oxide & Nano Technology Guaranteed quality and durability – long lasting finish 100% Renewable with Hallmark's XYZ.

BENEFITS

- Antibacterial and Fungal Control
- 100% FloorScore® Certified
- Increased wear & stain resistance | 6k rotation

DETAILS

Length:	Up to 6'2" RL
Width:	6"
Thickness:	7.5mm [overall with attached IXPE pad]
Finish:	Glaze Tek
Wear Layer:	1.2mm Slice Wood Veneer
Edge Detail:	Micro Bevel
Certified:	FloorScore® Certified
Construction:	PurCore RIGID+
