Wood Characteristics

Color, Graining & Natural Changes

Wood flooring is a natural product that will feature distinct color and graining between planks. Each board contains large to small knots, sap wood, and a high contrast within the natural and lighter stained visuals. Knots and voids may or may not be filled with dark putty.

Note: This sample may not be representative of your entire installed floor, for your reference and the latest updated information, please refer to hallmarkfloors.com to see our online room scenes and product galleries.
