

GCSE DT—Textiles Summer work

NEA (Non Exam Assessment) 10Z/Tx1

Description Insights Assess

Miss L. Burnett set this assignment for group 10Z/Tx1 - Textiles

Set on Fri 26 Jun

Due on Thu 02 Jul

Task description

Hello Year 10,

It's NEA Time!!!! This week is the first lesson on our real NEA. Although you do not need to panic as over the next few weeks, we are just preparing. You are not expected to produce any polished pages that will be included in your NEA, you will just be producing draft versions that we can tweak and alter after the summer.

Go through the powerpoint carefully and let me know if you have any questions. NEA

Make sure you have caught up with all SMH tasks and in particular come the 3 NEA tasks before the Autumn term begins.

NEA 2 - Identifying a need 10Z/Tx1

Description Insights Assess

Miss L. Burnett set this assignment for group 10Z/Tx1 - Textiles

Set on Fri 03 Jul

Due on Thu 09 Jul

Task description

Use the powerpoint to research your chosen context and identify needs.

Remember that any work you produce can be tweaked and altered so please don't worry about getting it 100% right.... just give it your best shot.

Make sure you have an A3 folder ready to keep all your NEA work in (you can use the folder you used for your practice NEA, but will need to take this out and keep that work safe).

NEA 3 - Client 10Z/Tx1

Description Insights Assess

Miss L. Burnett set this assignment for group 10Z/Tx1 - Textiles

Set on Fri 10 Jul

Due on Fri 21 Aug

Task description

By now you will know your context, and the issues surrounding this that you can focus on. You now need to find a client and carry out some research to help you identify their needs and wants.

Use the powerpoint attached to help you go through this process and send me any questions you may have.

Remember this is work that can be tweaked in school, but is very important that you have given it a go.

If you have completed all of this work these are extra tasks you can do....

- Create an image board around the issues you've found from your research into the context (lesson 2)
- Create an image board based on your client and their needs and wants (lesson 3)
- Sketch some very quick ideas you may have thought about (please don't spend too long on these however as this is an early stage to be doing this in any detail)
