Remote Learning with the Psychology

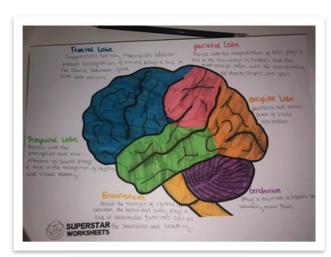

Psychology is known as the Science of Mind and Behaviour. This a particularly

interesting time to be considering why people do the things they do! Just watching the news is an eye opener into what drives people to do the things they do. Also, seeing how the community has pulled together and how our staff and students alike are coping with the uncertainty gives a fascinating and pleasing insight into human nature.

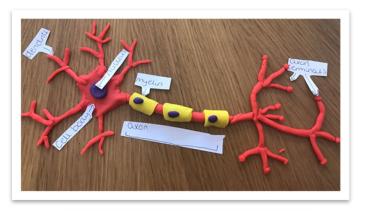

Our Psychology students, in year 10 and 11, have been working very hard at home, completing a variety of tasks from sitting exams, due to be taken in school in the week lockdown started, to making

They also got creative and using whatever materials they could lay their hands on created models of the brain and neurons, using their previous studies into neuropsychology to help them.

Currently we are busy preparing bridging work to help to introduce Year 11s to their post 16 choices, including Psychology, Sociology and Criminology. Tasks will include introductory websites, using newspapers to carry out research, reading recommendations, both fiction and non-fiction, and watching some great films!!! Perfect for this time at home!

Some students have even byeen taking part in Open University courses to support their Psychology Bridging Work.

They have been doing a variety of tasks for Criminology, for example:

In Criminology students have been asked to conduct research on the some of the following campaigns. Find out what the **original crime** was that sparked the campaign; what the **aim** of the campaign was; what **methods** were used (eg. TV interviews, advertising, wristbands, petitions, T-shirts etc) and whether the campaign was **successful**.

And been invited to take virtual tours of significant buildings to help understand Criminal Justice, like:

Supreme Court buildings in London and the National Justice Museum in Nottingham

And for sociology considered the **Sociology of Corona-** analysing societal implications of what we are living through.

Exciting stuff!!!!!

All the students have impressed us and done themselves proud with their commitment to their studies. we are pleased they are staying safe and well and are looking after their wellbeing.

We look forward to seeing them all just as soon as we are able! Miss Lee and Mrs Young
