Dear Dr. Saurabh,

On behalf of the Ideate Lab & Family Business Centre at O.P. Jindal Global University, Sonipat, Haryana, an Institution of Eminence recognized by the Ministry of Education, Government of India, I would like to sincerely thank you for delivering such a wonderful and insightful session to fellows from 28+ countries on 15 June 2026 at Nalanda, T5, Shallu Jindal Academic Block.

Value engineering is a highly relevant topic for entrepreneurs and industry professionals. It encourages a disciplined approach to asking how we can deliver the required function with minimum waste and maximum usefulness.

Your insights were particularly valuable because you illustrated the concepts through real-life industry examples and case studies. These examples made the subject easy to understand and demonstrated how value engineering can be applied through disciplined problem-solving and decision-making.

Thank you once again for generously sharing your time, expertise, and valuable insights with our participants. We truly appreciate your contribution and look forward to welcoming you again to the Ideate Lab & Family Business Centre for another fruitful and engaging session.
