

Defining DVA - From Concept to Profitability

Prepared by: Danie F. Van Aswegen

Date: 9 September 2025

DVA Business Consulting is more than a consulting firm, it is a philosophy, a movement, and a commitment to transforming ideas into thriving, investment-ready enterprises. *The very name DVA embodies the spirit of our work and the values that drive us:*

D = Dreamers

We are Dreamers of the Extraordinary, with the courage to imagine what others believe impossible.

At our core, we partner with entrepreneurs, SMEs, and innovators who dare to dream big. Through efficacy, we transform these dreams into actionable, high-impact business cases and strategies that attract investment, unlock growth, and fuel long-term success.

Dreams are the seeds; we provide the fertile ground and structured guidance to make them flourish.

V = Visionaries

OkA = Achievers

- *We are Achievers who turn Action into Achievement.*
- *Our mission is not only to design strategies but also to deliver measurable results, ensuring that every initiative creates tangible impact.*
- *Through excellence, professionalism, and integrity, we co-create accountable, scalable, and socially responsible outcomes in collaboration with our clients and stakeholders.*
- *Achievement is not only about profit, it is about creating lasting value for people, businesses, and society.*

The Essence of DVA Business Consulting

- Together, **Dreamers**, **Visionaries**, and **Achievers** form the DNA of DVA Business Consulting.
- We embody a culture of innovation, integrity, collaboration, and sustainability, aligning every project with environmental, social, and governance (ESG) principles to ensure that our impact extends beyond business into the broader entrepreneurial ecosystem.

At DVA, we believe that:

- *Dreams inspire purpose.*
- *Vision shapes direction.*
- *Achievement builds legacy.*

This is what it means to be a DVA partner.

From Vision to Value – Together, We Build the Future.
