Our Process

1

Fill out our pre-quoting form to give us the information we need to give you an accurate quote for supply, survey and install.

2

Should you choose to go ahead, simply accept our quote and sign our order form.

3

Book in a survey and fill out the pre-survey form.

4

Our experienced surveyors will attend for a survey.

5

We will use our survey findings to manufacture your products.

6

When we have a delivery date for your products we will book in an install date with you.

7

We will complete the install and then our installers will complete a customer sign off form with you on site.

8

We will send you our aftercare document out by post.

Aluminium Bifolding Doors

- Incredibly popular doors on Homeowner projects
- Available in any RAL colour
- Quick turnaround times available
- High security locks and cylinders as standard

Kitemarked and security-tested to the PAS24 standard, bifolding doors feature a choice of internally or externally folding panels, which when open help to integrate your home's external and internal living spaces, offering uninterrupted views.

Upon request we can supply the doors to the following standards:

Aluminium Heritage Windows & Doors

The System has been meticulously engineered as an ultra-slim, thermally efficient, secure aluminium alternative to conventional steel windows. This highly adaptable aluminium window system presents a genuine and cost-effective glazing solution that mirrors the aesthetics of traditional steel windows.

Design Applications

Windows :  fixed windows, side hung & top hung open out casement

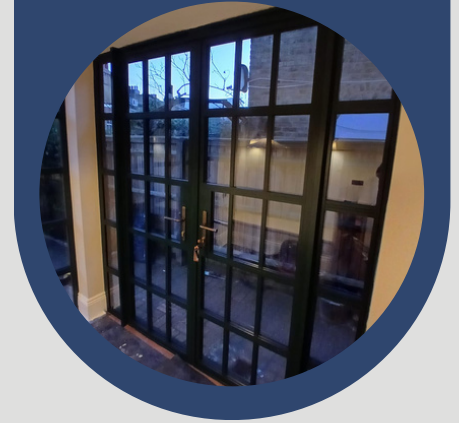

Doors:  Single or double open out balcony doors

- Optimum thermal efficiency to Grade B
- Ultra-slim framework ideal for fitting between stone mullions
- Replicated the appearance of steel
- Approved replacement for listed buildings by many council authorities
- Rust proof
- Paint finish guarantee - 25 years
- 10 year manufacturers warranty
- Fully compliant with the latest building regulations

Diverse array of applications

Well-suited for many different applications, including heritage, listed buildings, retro refurbishments and Art Deco projects.

Slender Sightlines

Heritage windows and doors feature slender sightlines that maximize glass areas, the stepped frame profiles, glazing bar options and hardware selections provide a classic look while ensuring outstanding thermal and operational performance.

Specialised System components

With a variety of specialised system components, Heritage can be tailored to seamlessly integrate with external render and cladding finishes, making it an excellent choice for modern applications that demand slim sightlines.

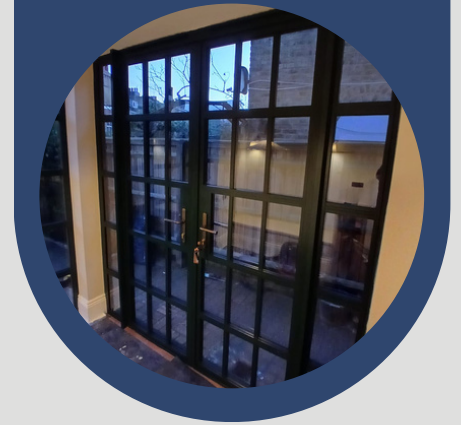

Individual Modules

Heritage windows can be constructed as a series of individual modules, allowing for the creation of expansive multi-part windows.

Composite Garden Studio Range

(See our seperate Garden Studio Brochure)

Transform your outdoor space with our affordable and versatile blank canvas studios. Ideal as an office, creative retreat, meditation space, or treatment room - offering flexibility year-round.

Orangeries

The Fenestration Network is capable of customising the supply and installation of an orangery to suit your project requirements, irrespective of the size or location of your property. The Orangery extension can be regarded as the more refined and sophisticated counterpart to the conservatory.

When meticulously designed and constructed with high-quality materials, orangeries present a truly remarkable visual appeal. These structures are suitable for year-round use, providing homeowners with additional space that can serve as essential living quarters or a luxurious retreat for relaxation.

Regardless of your choice, The Fenestration Network offers a flexible and comprehensive bespoke package tailored to your needs. Whether you desire a design that harmonises with a specific architectural style or seek something innovative and modern, we can customize our services to meet your specifications. You have the option to be as involved as you wish in the design process, selecting your preferred flooring, glazing, and any additional features you wish to incorporate into your new wooden orangery.

Our team of professional planners and designers will collaborate with you to create a final product that is both visually stunning and functionally impressive. Numerous options are available, and fresh ideas are frequently introduced. Some individuals opt to utilize their orangeries as kitchens, while others prefer them as dining areas or simply as extra living space for relaxation.

Traditional

A wooden orangery crafted by The Fenestration Network serves as an ideal enhancement to our residence, offering additional living space complemented by exceptional natural light and panoramic views of the sky. Our custom service focuses on understanding our clients' requirements and designing the orangery they envision. We assure the use of the highest quality wood in our wooden orangeries.

Bespoke Designs

Imagine the possibility of having an orangery designed in the style you have always envisioned; with The Fenestration Network custom Orangeries, your aspirations can become a reality. We collaborate closely with our clients to create a design and structure that align with their specific requirements. Our team of specialists are dedicated to transforming your dreams into tangible results.

Victorian

Enhance your residence by incorporating a Victorian-style orangery. This addition can serve as a stunning complement to a home designed in the Victorian architectural style. We collaborate closely with our clients to create custom orangeries tailored to their specific requirements. This additional space can be utilised as a kitchen, garden room, living area, or any other purpose you desire.

Reviews

“We had a good experience with The Fenestration Network, who co-ordinated the installation of aluminium doors. Tom was very responsive and clear throughout the process, and the installation team did a great job on the day - we're very happy with the final result.”

TE

“Couldn't recommend these guys enough. Tom's communication from the start has been so clear and responsive. Cian and his fit team were also extremely knowledgeable, tidy and eager to do a good job. So happy with the end result....the doors have totally exceeded our expectations.”

WS

“Tom and his team were great, the communication and the install of our windows went extremely smoothly. Very please with the results.”

TN

“Great communication & an efficient installation with a very friendly team, very happy & highly recommend”

DM

“Tom helped us get the installation for our backdoors sorted. The process was great and we're really happy with the finished result.”

RH

“Whilst doing our full house renovation we chose to have Heritage steel windows and doors. We were recommended to use The Fenestration Network for professional experienced people used to installing such type of windows. From start to finish Tom and his network of fitters were exemplary, Tom kept us full informed through every step of the process, his communication was always on point as were his fitters, 'Jas' one of the fitters from Leeds and his colleague were courteous, professional and conscientious. They cleaned up thoroughly after they had finished. They installed Heritage steel doors and windows for me and they look beautiful.

We 100% recommend Tom and his Fenestration Network to anyone wanting a top class professional installation. We would not hesitate to use Tom and his people for any future projects.”

Other Information

Guarantees

- 10-year Manufacturer Guarantee for structural integrity and function across all products.
- 5-year Guarantee on Glazed Units for all product lines, covering defects in materials and workmanship.
- 12-Month Moving Parts Guarantee.
- 25-Year (dependent on product) Guarantee on Powder Coating applied to aluminium systems.
- 1 Year installation Guarantee.

Garden Room Specific

- Structure: A 10-year guarantee is provided to cover faults (such as warping, cracking and discoloration) related to core materials used for the construction of the structure, including the pressure-treated timber base and frame, external cladding, insulated roof panels, as well as the window and door frames.
- Glazing: For manufacture faults with double-glazed units, a 5-year guarantee is provided.
- Moving Parts: For manufacture faults associated with moving parts, a 2-year guarantee is provided.
- Miscellaneous: For faults with the vinyl flooring, guttering/downpipes, a 1-year guarantee is provided.
- Guarantees are applicable when the garden studio has been maintained in accordance with the manufacturer recommendations and cover the cost of replacement products and materials only; additional costs related to installation and fitting may apply.

Aftercare - What happens after my install is complete?

Once your install is finished and your Customer Sign off Form has been completed, our involvement in your project doesn't end there!

We will post out your Aftercare Pack to you and your 1 year Installation Guarantee period begins. If there are any issues which are install related within the first year after installation then we will attend and fix free of charge.

Verified installers

All our installers are CPS scheme verified (either FENSA, CERTASS OR ASSURE) and install to the very highest standards. For a small admin fee you can receive a sign off certificate with your install. Alternatively you can sign off the install yourselves with building control. Customers who are completing larger scope of works normally choose building control.
