Amber Gilbertson Ext. 108

Takeoff/Final Review

Nathan Slein Ext. 142

Customer Service

Service Department

Amy Zastrow Ext. 112

Quality Assurance Coordinator

Morgan Hinker- Newsletter Editor

THINSCAPE

What is Thinscape

Wilsonart Thinscape Tops are an engineered composite material. The core is made up of papers and resins that are bonded together under high heat and pressure. The top decorative layer is the same material as Laminate. The overall thickness is ½". Thinscape is designed to set right on the cabinets with no substrate. Thinscape is water resistant and can accommodate standard undermount sinks. Because of the solid core Thinscape is more impact resistant than laminate, outside of this it will look and perform similar to Laminate.

SEAMS

Seams will be either a 45 or straight seam (we determine based on the layout). Seams are put together using biscuits and adhesives.

Seams will be seen and felt- you will see the seam itself AND the directional change of the material. (See page 2 for images of Thinscape seams)

Important Information

- Backsplash is Set on only (no option for coved).
- Interior applications only
- Core color is solid and can't be changed (the solid core can be seen on the edges- edges can't be mitered).
- The standard sheet size/what is included in THD pricing is 30" x 144" (60"x 144" sheets available- Custom pricing is required when larger sheets are needed).
- 10 year Limited Warranty
- Brackets are needed when the countertop overhangs the cabinets. See chart below for required support for overhangs on standard 24" deep cabinets.

Overhang	Support Required
0" to 6"	None
6" to 18"	Brackets or Corbels
18" to 24"	Brackets or Corbels AND Supporting Legs
