COUNTERTOP LAYOUTS

Countertop Layouts/Seams

When a customer orders countertops from The Home Depot and McDermott is the fabricator, the standard process does not include an approval drawing with seams or a digital layout. The number of seams and the placement of the seams is determined by CAD/Programing based on a number of factors including access into the home/room, layout, countertop size, weight, & material, etc.

Approval Drawings

If you or your customer would like to know where the seam(s) will be placed an approval/seam drawing can be requested. See image 1 for an example of an approval drawing. Approval drawings include seam placement, measurements, cutouts, finished edge/edge profiles,

Approval Drawings Cont.

appliance information, material type and color etc. Your customer is just signing off on seam placement, edge profile, and color. Requesting an approval drawing may increase lead times especially if changes are requested or there are delays in returning the sign off.

Digital Layouts

A digital layout is a high definition picture of the customers material and how it will be laid out and seamed together. The digital layout can be purchased as a "hot sauce" item for \$250 retail. See image 2 for an example of a digital layout. If a digital layout is purchased the customer will also receive an approval drawing. The process of creating a digital layout and approving the drawings will extend the installation lead time.

HOME DEPOT PORTAL INFORMATION:

www.McDermotthdportal.com

This web address will take you right to the McDermott portal. The "Open Files" tab is where all of the files are located. This is password protected and confidential. Do not share with customers. The password is **VHDMTS02tops**.

If you are in need of additional training or information on how to access the McDermott or Home Depot Portals, please contact Ken Rosinski or Morgan Hinker to set up a training session.

Drafted by CP Measured by Clay

1-Dimension

Technical drawing of a kitchen countertop layout showing dimensions and sink locations. The main layout is a large rectangle with overall dimensions of 81 1/16" wide by 29 1/16" deep. It features a central sink labeled P2.2, a lower-left sink labeled P1, and a lower-right sink labeled P3. A DW KIT (Drainage Water Kit) is labeled P2.3. Dimensions for sink placement, including offsets and radii (R 3/4), are provided. Two smaller inset drawings show detailed views of the sink areas P3 and P4, with dimensions for their respective widths, depths, and offsets.
