## DMH8000 Quality Stereo Dual Muff Headset

- ✓ Performance
- ✓ Durability
- ✓ Value
- ✓ Compatibility

**Performance:** Acoustically the DMH8000 Monitor amazes users with its dynamic bass response and overall transparency in the midrange and high frequency section. The headphone's low-impedance and highly sensitive drivers are able to adapt to the widest range of equipment - whether on a mixing table or on portable devices. The DMH8000, with its low visual profile, was specifically designed with stereo and studio applications in mind. The ear speakers have a specially contoured and wide bandwidth in combination with high sensitivity. Two types of ear cushions are available. For noisy applications, dual chamber foam-filled cushions provide optimum noise exclusion. In studio or other musical applications the alternate style of ear cushions are designed to optimize frequency response.

**Durability:** The DMH8000 continues the unrivaled durability of our 200 Series headsets. The ear speaker housings are constructed of an almost indestructible material that will not be damaged if dropped or stepped upon. The material is fully recyclable and can be cleansed with ordinary household detergents. Should repair ever be necessary the headset can be easily disassembled and reassembled.

**Value:** Headsets of this quality are not inexpensive, but we invite you to compare value with any other headset in this category. When you plug in the durability factor and our immediate and no-quibble service, the difference becomes even greater.

**Compatibility:** The DMH8000 is fitted with a Stereo Multi-jack 3.5 / 6.3mm gold plated connectors for multi use.

### Technical Specifications (subject to change without notice)

#### Earspeakers:

Frequency response: 14 - 24.000 Hz

Nominal Impedance: 2 x 40 ohm

Sound Pressure level: 98 dB (1 mW/1 kHz)

External Noise Isolation: appr 22 dBA

Weight with cable: appr. 250 g

Connector: Combination Stereo Mult-jack 3.5 / 6.3mm gold plated

Cable: 2,5m polyurethane cable

Continuous Power Rating: 100mW
