2024 ARCH HAWAII SYMPOSIUM FEBRUARY 15-17, 2024 HONOLULU, HI

Target Audience

ARCH Hawaii has been designed to meet the educational needs of Interventional and General Cardiologists, Internists, Cardiothoracic Surgeons, Primary Care Physicians, and Nurses, Nurse Practitioners, Residents, Fellows, and Ancillary staff.

Educational Goal

The purpose of this educational activity is to provide participants with evidence-based data, newer technological advances, case-based discussions, tips and tricks in complex cases, and innovative therapeutic strategies that will enable physicians to treat their patients with high-risk and complex coronary, peripheral vascular, and structural anatomy.

Learning Objectives

- Identify the role of adjunctive imaging and physiology for diagnosis and management of complex cardiovascular disease.
- Evaluate the development of new technology-imaging modalities, IVUS, OCT and CT angiography.
- Differentiate the distinction between the specific clinical features of appropriate use criteria and the evidence-based summaries on which PCI guidelines are developed.
- Describe strategies in improving quality and cost reduction in the modern cath lab.
- Define technically difficult & high-risk subsets.
- Describe emerging data for interventions to treat hypertension.
- Appraise serious complications how to avoid them, how to treat them.

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of *CMEsolutions* and Gaffney Events. The *CMEsolutions* is accredited by the ACCME to provide continuing medical education for physicians.

The *CMEsolutions* designates this live activity for a maximum of 17.75 *AMA PRA Category 1 Credits*. TM Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component and 75% passing on MOC test, enables the participant to earn up to 17.75 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.
