

Sightseeing Boat Tours

Both of our Evening cruises will offer a chance to view Corpus Christi from the bay as the sun sets over the city. Times on the POW are approximate. Both tours will board our buses, or you can choose to walk a couple of blocks down the seawall to Harrison's Landing for the Texas Tease Tour. We don't think you can go wrong with either choice. The views will be stunning and the company, well..... you've sailed with many of them before.

TEXAS TEASE TOUR – Harrison's Landing

The Texas Tease is a 74-foot yacht that they say delivers the ultimate evening cruise through Corpus Christi Bay. You can enjoy the breeze on the open-air upper deck or relax in the air-conditioned comfort below. There is a full bar onboard. We are sorry but there is no elevator to the second deck, stairs only. Maximum of 50 onboard.

Buccaneer Cruise

After arriving at Snoopy's Pier we will set sail on the Buccaneers. Their crew will take you on a journey to see the wonders of the Laguna Madre. During your cruise there is a good chance of getting up close and personal with the local dolphins in their natural habitat.

More than 380 different species of birds have been sighted in the area as well! No bar is available, but guests may bring their own small soft sided coolers with their own drinks (no glass please). Who knows but your convention committee may have a few complimentary beverages there also for you. Maximum of 40 allowed onboard.
