

# Sightseeing and WWII History Tours

## Sightseeing Historical Tours

The Sightseeing Historical Tour is the tour you should **take before you do anything else in Corpus Christi**. It provides the perfect overview. During this amazing tour, you will visit unique points of interest, including the vibrant bayfront, the Port of Corpus Christi (one of the most important ports in the USA), the oldest Federal Cemetery in

Texas, as well as some of the oldest homes and buildings in our city. Hear about the events that shaped our history – shipwrecks, encounters with Native American Indians, boundary disputes, wars, yellow fever epidemics, and hurricanes. In addition to all the history, you will get to enjoy learning about some of our unique public art and colorful murals that brighten our uptown and

downtown. This is our most popular tour - you don't want to miss it! And we are adding the:

## WORLD WAR II TRAIL

In December 2022 Corpus Christi was designated an **American World War II Heritage Community** by the National Parks Service! What an honor!

Enjoy Corpus Christi Tours has developed a guided World War II Trail to commemorate daily the sacrifices made by so many - men, women, and children - so that we might enjoy the freedoms we have today. Our beautiful community played a significant part in that powerful period in U.S. history...world history.

Our World War II Trail will follow the route of the largest naval air station in the world, the deployment of military equipment, supplies, and personnel, secrecy, black-outs, the enemy close at hand, celebrations, and the colorful lives (it wasn't always as drab as we might think) of those left on the home front. **Join us as we remember the greatest generation!**
