

## Space-Crafts Newsletter 4 - December 2025

Hi everyone, and welcome to the December edition of the Space-Crafts 2026 Newsletter. I hope you all had a great Christmas—and that the bearded fellow left plenty of large models under the tree!

### Podcast

If you'd be interested in seeing what happens when someone starts eating, sleeping, and breathing model exhibitions, I've been invited onto the World of Wayne podcast. The show will be live on Monday 5th January at 8pm. If you'd like to tune in, you can find Wayne's page here:

<https://www.youtube.com/@WorldofWayneUK>

Huge thanks to Wayne Green for the invite—his site is fairly legendary in the subscription build world!

### Competitions

A quick update on the Gerry Anderson Competition: this has now been expanded to a worldwide competition. Some entries will be submitted virtually and judged directly by the Anderson Team, running alongside the in-person entries on the day. It'll be fantastic to see what Anderson fans from around the globe are working on—and I'm quite relieved I won't be judging!

### Looking Ahead

As the show gets closer, I've had quite a few requests for a second day and for the event to run again in future years. Unfortunately, it can't be extended to two days for 2026, but if it's a success, I'm hoping to make it an annual weekend event.

With that in mind, I'm afraid I have to join the "like and subscribe" crowd!

If you could occasionally share the Space-Crafts Facebook posts to any modelling groups you're part of, it would be hugely appreciated. There's already a lot of interest in the show—but the more, the merrier!

### Stay in the Loop

Next month there'll be quite a bit of planning going on for the show.

If you'd like to hear updates as soon as they happen, please join the Space-Crafts Facebook page—all news goes up there first.

For more daily updates please join the Facebook Group

Thanks very much and here's to new year free of gluey fingerprints on models!

The Space-Crafts 2026 Team

## Featured Exhibitors:

Ian Chrichton

IPMS Harrow

## Featured Vendor: Madmans Workshopt

*Specialising in 3-D Printed Sci-Fi models and miniatures. The variations of the Dalek that are available is a little overwhelming!*
