

## Space-Crafts Newsletter 2 - October 2026

Hello and welcome to the October edition of the Space-Crafts 2026 newsletter!

Each month, we'll keep you in the loop with the latest updates on the show — from newly confirmed attendees and exciting event announcements to answers to some of the top questions submitted through our website.

It's been just two months since the site launched, and we've already seen over 3,000 visits! Ticket sales are off to a strong start, and interest continues to grow. Since last month's update, we've welcomed a wave of new exhibitors and vendors. If you're thinking of joining us, don't wait too long — space is filling up fast, and we'll soon be moving to a wait-list system for new requests.

Confirmed Vendors so far:

Cozmic Scale Models - Sci-Fi models, accessories, stands, decals, lighting and more

Archive X - Paints uniquely designed for use on Star Wars projects

Scalectronics - Lighting solutions for sci-fi models

Tiryidium Models - Sci-Fi models and lighting kits

Ignition Master - Star Wars Lightsaber prop replicas

Model Behaviour - Model Kits, decals

Albion Alloys - Metal Work for use in modelmaking

Dead Universe Comics - Sci-Fi Collectables

Affinity Models - Model Making Accessories

Jedi Archives - Star Wars Collectables

Tyrell Models - Model Making Accessories

Next month, we'll be attending the Telford IPMS show to connect with attendees and spread the word about Space-Crafts 2026. If you're there and would like to have a chat over a coffee let us know!

All the best,

The Space-Crafts 2026 Team

## Featured Exhibitors:

**Andy Preston**

**Olly Barrett**

## Featured Vendor: Cozmic Scale Models

*The largest selection of sci-fi models and accessories in the UK. Models, Decals, Stands, Lighting, they really do have everything you need and a really nice bunch of people to boot!*
