I think Cotton Candy Sally is a great book because it has a lot of mystery in it and you're always eager to read forward. I really liked the book because it was a big adventure for Sally, and to me I felt like I was in the story with Sally, and going with her on every adventure she took. My favorite part was when Sally thought she was going to be lonely with none of her friends and when she came into her stall and Solomon was there. This was my favorite part because now Sally can talk to someone she knows and express her feelings. My least favorite part was when I didn't know Kara could take Sally in. This was my least favorite part because they are best friends and it is very sad when friends break their friendship, but then Kara took Sally in.

This book relates to me because when I met my little sister Bianca I fell in love with her and I still am. I also tried to take care of her while I was only 3 or 4 years old.

I am also looking forward to Cotton Candy Sally Meets a Friend.
