

LAUNDRY ROOM ORGANIZATION HACKS

1. **Sort as you go**

Use multiple hampers or a sorter with sections for lights, darks, and delicates. Experts say this cuts time on laundry day dramatically

2. **Create a stain station**

Dedicate a small container or tray with stain remover and brushes right next to a sink – it makes pre-treating quick and easy (thespruce.com)

3. **Zone your space**

Establish functional zones: washing, pretreating, drying, folding, and storage. Keep detergent, dryer sheets, or tools within reach near the machine

4. **Use vertical wall space**

Install open shelves, rods, or over-the-door organizers for items like hangers, mops, and frequently used supplies (thespruce.com)

5. **Add a folding surface**

A countertop, ironing board, or folding board saves time and doubles as extra storage space for supplies

6. **Utilize rolling carts**

Mobile sorters, rolling hampers, or carts make it easy to move laundry stations and supplies around efficiently

7. **Dry smarter**

A good drying rack helps reduce dryer load and preserves delicate items—especially bamboo or wooden ones which collapse and store neatly

8. **Declutter & label**

Purge unused items and keep like things together in labeled bins or jars for effortless access

9. **Decorate intentionally**

Make the space inviting – add small decor touches or aesthetically pleasing bottles for detergent
