

Weekly NEWSLETTER

Welcome

Hello Moms, Dads, and Families! Before you know it, summer will be over and all American children, teachers, and school staff will be heading back to a classroom. Here are some skills that your child should be practicing prior to starting kindergarten

Math Skill

Counting 0-5

By the time your little one finishes kindergarten she/he will need to count to 100. Start small and increase numbers once your child has mastered what you have practiced with them.

Literacy Skill

Children should be able to identify the letters in their first and last name. Practice spelling your child's first and last name this week. If you point to a letter and they can name it for you move on to the next letter. Before you know it they will know all the letters in their name.

ABC

Reminder

Time to start buying school supplies for kindergarten. This 8 pack of Crayola crayons is perfect for the first day of school .

Check with your school for a specific list of recommended school supplies.

Social Skill

Children learn through asking questions. Allow your child to ask questions and try finding the answer together.
