About Me

An optimistic visionary, I use my passion and enthusiasm for the natural world to inspire and empower others to connect with the rest of nature and have a positive impact on the planet.

Speaking Topics

Design Like Nature

Learn how to listen to and emulate nature to achieve your goals in a regenerative way.

The Magical World Beneath Our Feet

Microorganisms are hard at work in our soil, yet we often treat them like dirt. Learn what they do and how you can support them.

Food Forests

Create a resilient and productive edible forest that feels like a Willy Wonka wonderland in your own yard.

Compost Systems

Learn which method is right for your lifestyle and how to be successful. Options range from an overview to detailed hands-on workshops.

Testimonial

As a main-stage speaker at our annual conference, Kelly did an outstanding job using relatable analogies to make complex issues understandable. She hooks the audience and is a remarkable presenter! - Beverly Babb, Executive Director of ACTC
