# Sentry

The only monitor of its kind that can **reliably detect and identify cigarette smoke and excessive noise.**

Halo Sentry affords property rental owners and managers peace of mind with the ability to use these groundbreaking features as a deterrent to unwanted smoking and disturbances, prevention of costly damages, and evidence for insurance claims.

By easily installing Sentry's sensor technology, rental owners and managers can remotely monitor their property and be proactively alerted to any unwanted disturbances, including smoking, loud noises, an ongoing party, and other issues — right from their phone.

Unwanted smoke detection

- AirID™ technology identifies cigarette, marijuana and vape smoke with >99% accuracy
- Enforce smoking fines using graphical data
- Prevent damages with proactive alerts

Noise detection

- Monitor unwanted disturbances using SiSonic™ MEMS technology
- Stop parties and neighbor complaints before they happen
- Receive alerts for sustained noise while respecting the privacy of your guests

Powerful reporting and alerts

- Easily create evidence based incident reports for damage reimbursement
- Reduce claims and conflict settlement time
- Live alerts prevents costly damages

Tamper protection

- Secure design helps prevent tampering
- Push alerts immediately notify you of attempted device disconnection
- Backup battery keeps Sentry online even when disconnected
