### Connected Collage Art/Illustration Workshop

**Workshop Description:** Over a period of two consecutive days, participants will spend six dedicated hours building a work of art start to finish. Connected Collage artistry is a watercolor process building hand-painted color boards and hand-drawn, cut, and torn image elements. Then piece-by-piece, these elements are combined and layered together to produce the larger finished artwork. Incorporating a quote, poem, or story to Connected Collage artistry enhances the creative experience and delivers a one-of-a-kind art-illustration with dimensional depth and texture.
