Architectural Control Committee Change Proposal Form

As stated in the Meadowpark Homeowner's Association CCRs, approval must be obtained from the Architectural Control Committee prior to construction of any structure within the development or before any change is made to the exterior of the property. Such changes include but are not limited to the construction of any structure that is visible from the street (fences, sheds, playground equipment, etc), painting a home, removal of any trees, or major landscape changes. Specifications should include a plot plan showing the nature, kind, shape, materials, colors and location on the lot. Attach additional pages and paint chip samples as necessary. You will be notified of the committee's decision as soon as possible – in no case later than fifteen days from receipt. To expedite this process, this form can be e-mailed to the committee at the following address: acc@meadowparkhomeownersassociation.com.
