TECH IN THE NEWS

PROJECT: EMBER

Step One:

[Watch this Video](#)

Designed for home or office, the Ember Mug and its companion app on your iPhone or Apple Watch allow you to set your precise drinking temperature for hot beverages, track caffeine consumption, save presets for your favorite drinks, customize the LED color, and more. Ember also maintains your chosen temperature for approximately 1.5 hours, so your hot beverage stays perfect from the first sip to the last drop.

Step Two:

[Navigate to this Website](#) and review all the pages, and look at the products. Include the cost of the Mug.

Create a Word/Google doc and list the 5 W's of the project: Who, What, Where, When, Why.

Discuss the Pros and Cons of the product. What other foods would it be useful?

Step Three:

Using the website, find the location and address of the Ember Company and using Google Maps locates and add to your review. Map the distance to the Company from Oak Park High School. Take a screen capture of the route. Add to your review.

Step Four:

Using the website, find the careers page and list five (5) current careers they are seeking.

Choose three (3) careers and discuss if they would be on interest to you.
