

ADVENTURES

IN HEALTHCARE

A Rotary initiative 

Adventures in Health Care is a Rotary initiative that focuses on helping high school students explore opportunities in the field of health sciences by partnering with community organizations and business to provide a comprehensive experiential activity.

Starting up Adventures in Health Care requires gathering foundational information to build a strong program. Here's a starter package of information.

- Rural Health Care and Recruitment - Summary of Recommendations –
 - All British Columbians, no matter where in the province they live and whatever their health concerns, should have access to timely, high-quality health care.
- Project Charter – Adventures in Health Care
 - In partnership with community organizations the program will provide health science exposure through a 3-day, hands on adventure through many aspects of health care.
- 2019 Program - Adventures in Health Care
 - A minute by minute of the Prince George program in 2019
- Review of Adventures in Health Care – 2024
 - A look back seven years to review what outcomes have occurred.
