

School Innovation Marathon 2025

About School Innovation Marathon 2025

School Innovation Marathon (SIM) is envisioned as India's largest school-level innovation challenge, jointly organized by the Ministry of Education (MoE), Atal Innovation Mission (AIM), NITI Aayog, The Innovation Cell of the Ministry of Education (MIC), AICTE and Yuwaah, UNICEF

The program invites students from across the country to identify real-world problems and develop innovative solutions of their choice—nurturing creativity, problem-solving skills, and a spirit of social innovation among young learners

School Innovation Marathon 2025 URL - <https://schoolinnovationmarathon.org/lp/>

The image is a screenshot of the School Innovation Marathon 2025 website. The browser's address bar shows the URL <https://schoolinnovationmarathon.org/lp/>. The website's header features the logo on the left, a navigation menu with links to 'About Us', 'Road Map', 'Themes', 'Prizes', 'Impact', 'Partners', 'Testimonial', and 'FAQs', and a language dropdown menu set to 'English'. The main content area has a light blue background with a large illustration of two students, a girl and a boy, sitting at desks and working on laptops. The girl is on the left, and the boy is on the right, wearing a yellow cap and a red backpack. Between them is a large monitor displaying a video of a person with a backpack, with a 'LIVE' indicator and a viewer count of '80'. To the left of the students is a small potted plant on a stand. The text 'School Innovation Marathon 2025' is prominently displayed in a large, dark blue font. Below it, the tagline 'Igniting Young Innovators, Shaping a Better Future' is written in a smaller, dark blue font. Further down, a short paragraph describes the mission: 'Fostering future-ready skills and social leadership to nurture the next generation of problem-solvers and changemakers'. At the bottom left, there are two blue buttons labeled 'Register' and 'Login'.

Welcome Message for Teachers

English ▼

SANDHYA MENEZES
Teacher

Welcome teachers and mentors!

We are delighted that you have signed up for this program and have joined us on this journey of nurturing problem solving and innovation in youth. As you are already aware, you will be playing the role of a guide teacher to the students for the duration of the course. The portal includes various information modules and resources that will help you and your students on their learning journeys.

Your journey as a guide teacher will include the following key milestones. We would like you all to go through the following in order.

Please make sure you've joined the **WhatsApp group** at the earliest to stay informed and engaged.

- Step 1: Register and take the pre-survey.
- Step 2: Watch the instructional videos to understand the program.
- Step 3: Conduct awareness & Orientation sessions for the students.
- Step 4: Form teams and register them on the portal.
- Step 5: Mentor students throughout the program.
- Step 6: Ensure teams complete the course & submit their final ideas.
- Step 7: Complete the post survey.
- Step 8: Download your teacher's certificate.
- Step 9: Guide students to download their certificates once they finish the course and submit idea.

We hope you and the students will have a great time doing this program.
We wish you all the best!

Teacher's Role in School Innovation Marathon 2025

In the **School Innovation Marathon 2025**, teachers play a vital role as mentors and facilitators. They guide students in identifying real-world problems, developing innovative solutions, and encouraging teamwork and creativity. Teachers also ensure timely registration, documentation, and submission of projects while coordinating communication between the school and the organizing committee. Additionally, they review students' progress, provide constructive feedback, and maintain records of participation for recognition and certification purposes.

Student's Role in School Innovation Marathon

2025

In the School Innovation Marathon 2025, students play a central role as innovators and problem-solvers. They are expected to identify real-life challenges, brainstorm creative ideas, and design practical and sustainable solutions. Students work collaboratively in teams, share responsibilities, and actively participate in all stages of the competition — from ideation and research to prototype development and presentation. They must document their progress, seek feedback from mentors, and refine their projects based on guidance. Through this process, students develop critical thinking, teamwork, and entrepreneurial skills while showcasing their creativity and innovation.
