

SAFETY PRACTICES

1. In your work today which hazards did you identify, and which ones did you miss?
2. What made your work different to other times? What worked well?
3. What surprised you during the work ("that wasn't expected")?
4. Where did you have to 'make do', or adapt today?
5. If there's one key message for leaders from today's work, what would it be?

IDENTIFYING HAZARDS

Workplace hazards can affect you, your team, property, or the environment and can be in many forms, for example the heat, chemicals or noise.

1. Can you identify some specific hazards that you encounter or observe daily in your role?
2. What do you think some of the fatal risks are in our operations?
3. What is the process for reporting a hazard or unsafe condition?
4. How can we ensure everyone feels comfortable reporting hazards promptly?
5. What specific risks do you think are associated with the tasks you're performing today?
