

ReadyVote

EASYFOLD PRIVACY CURTAIN

YOUR ALL-INCLUSIVE ELECTRONIC VOTING PRIVACY SOLUTION

Uniqueness is a benchmark of ReadyVote. The revolutionary patent pending movable curtain assembly is attached directly to the frame of the cart. With two easy movements the curtain becomes fully deployed creating sturdy and fully suspended privacy around the ballot box and voter. Truly an industry first that only could have happened at ReadyVote.

Quality, convenience, and ease of use with the Easyfold privacy curtain are other benchmarks of all ReadyVote products. The powder coated steel frame and durable nylon curtain, coupled with a revolutionary folding system, eliminates the need for any poll site assembly. The Easyfold privacy curtain saves time and energy. The Easyfold curtain provides convenience for the poll worker and protects the secrecy of the ballot for the voter.

The Easyfold privacy curtain in conjunction with the ReadyVote ballot box cart, allows an optical scan ballot box to be stored, transported and used on a single or double cart that requires no lifting. The flow from the warehouse to poll site, use at the poll site and return becomes seamless.

The ReadyVote ballot box cart is designed to move without effort on six inch casters, the wheels are easily locked while in the voting mode. The accessibility for all voters is maintained by the unique design of the carriage assembly that supports and protects the ballot box.

With all the differences between the manufacturers of Ballot Boxes, it takes a leader in the industry to have the foresight to adapt their products for the wide variety of current and future equipment in the industry. The decision to store, protect and deploy your valuable election equipment safely and efficiently becomes easy. Look to ReadyVote to save time and money for your staff and enhance the voting experience for the Voter.
