SOL SRFR

500 on-chain and immutable SRFRs to rule Solana Beach! Amazing PFP pixel art, community and rewards.

Sol SRFR is one of the earliest, complete NFT collections inscribed forever on the Solana blockchain! Sub 100k, fully immutable and with ZERO royalties! Our five clubs minted out on November 20th 2023.

Currently our clubs are building their teams with raffles and platform sales. We are on the hunt for the right 500 diamond hand members! Activities and contests are in the discord weekly!

We are working hard with our dev, FreeSol, and the other leaders in the Solana inscription ecosystem to bring more value and tools to our community. Be it spl20 tokens, fair launch opportunities or the inside scoop from other inscription projects. Friends like Blockrons, iMB, YOLOMIGOS and Fossils.

2024 looks to be the year for Solana and Sol SRFR! The fun, rewards and possibilities are limitless!
