WHAT WE DO

You've written an incredible story that deserves to be shared with the readers of the world, and we want to help.

HB Ink, LLC, is an independent publishing imprint that provides editing and formatting services to help authors prepare their works for publication and professionals polish their presentations, articles, and other written works for publication or presentation.

THE PROCESS

STEP ONE

The Discovery Call.

Your editor will sit with you for an hour to discuss your story and the way you want to tell it, from your overall vision to tone, genre, audience, point-of-view, and a potential schedule for publication.

STEP TWO

First-Round Edits.

You submit a digital copy of your manuscript to us, and we go through it with a fine-toothed comb, tracking our in-line recommendations and making more extensive comments in the margins. Once we're done, we return this edited version of the manuscript to you for corrections.

STEP THREE

Second-Round Edits.

You submit a new (unmarked) digital copy of your updated manuscript to us, and we refine it for a second time, taking into consideration the changes you made and polishing it even further. Once we're done, we return this edited version to you, and you correct it again.

ADDITIONAL EDITING

An Optional Step.

For manuscripts that require substantial changes during Second-Round Edits, we may suggest an additional round of editing to reach the level of polish we strive to achieve in every project.

STEP FOUR

Formatting.

You submit a new (unmarked) digital copy of your manuscript to us, and we do a final editing sweep while we format it for the trim size (cover size) and various formats (print and e-book) you've selected for publication.

STEP FIVE

Cover Art.

We discuss your desires and plans for cover art and coordinate accordingly, providing you with the files necessary to upload a wraparound cover to your independent publishing platform or printer of choice (if desired).

WHAT YOU GET

When we're done, we'll give you:

DIGITAL FILES

The digital file manuscript formats you need for print (paperback *or* hardcover) and e-book, ready for uploading to an independent publishing platform. (The additional print edition — paperback *or* hardcover — not selected with the editorial package is billed separately.)

ISBNs

ISBNs under the HB Ink, LLC, imprint for print (paperback *or* hardcover) and e-book to allow you to sell your book anywhere. (No need to purchase your own or use a freebie that only applies to the publisher providing it.)

EXTERIOR COVER DESIGN

An exterior cover design (front, back, and spine) using art provided by the author or derived from royalty-free/license-free stock images and delivered in PNG, JPG, and PDF formats.

3D RENDERINGS

Two (2) 3D renderings of your books for promotional use. (Additional 3D renderings billed separately per image.)
