AUGUST 2020 UPDATE

FIT TOGETHER - KHAING FAMILY

SUPPORTING FAMILIES

August activities saw improvement of young Cindy. Achieved a few different tasks that is not only working her sporting skills, but trying to add speech into our activities. Cindy has not spoken in any of our sessions prior, so this is a big step. We then run soccer skills for the second half of the session, with increased development of her skills. Cindy is now participating and connecting to other like minded youth through the delivery of the program. Its also given her the platform to connect socially within the family nucleus.

SPAYC CADETS

SPAYC Cadets program continues to flourish. Our 13 participants are still on the journey of discovery, development and learning through our mentoring program.

19.08.2020 we where honoured to have had a number of Cairns professionals volunteer their time and present to the Cadets. All made themselves available for Q & A. Our Cadets were super keen to listen and learn from locals professionals with many now our mentoring our Cadets. This in inspiring to seen our future leaders of tomorrow taking it all in.

NATIONAL ABORIGINAL & TORRES STRAIT ISLANDER CHILDREN'S DAY

Cairns Safer Streets partnered with Australian Red Cross for National Aboriginal & Torres Straits Islander Children's day.

Great afternoon with the children and their extended families coming together to celebrate this national day at Shang Park. Cairns Safer Street supported the event by providing multiple physical activities under the banner SPAYC + PLACE. There was plenty of food and activities on offer for the families. The day closed with some spectacular cultural dancing.
