

# Cairns Safer Streets

Manoora - Manunda - Mooroolbool

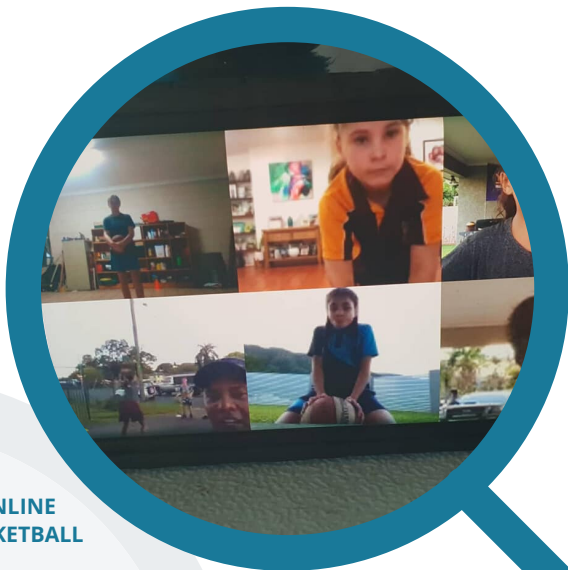

## MAY 2020 UPDATE

### BASKETBALL CHALLENGE

Every Monday afternoon, Phoenix Sports and Culture Club engage young people in a basketball skills and drills session, setting challenges for them to practice throughout the week.

It was identified that some young people didn't have basketballs, so the facilitators hand-delivered brand new basketballs to them at home and helped them get connected to the activity online. The purchase of the sporting equipment by Cairns Safer Streets has enabled inclusive participation and has also been a mechanism for mentoring and support to take place at this stand out activity.

### CAIRNS WEST DRIVEWAY PROJECT

Encapsulating the concept of community connectedness, the Cairns West Driveway Project is an unstructured activity where the service provider selects a street within the community to visit each Sunday and play some fun driveway games including hopscotch, skipping and ball games. The relaxed and friendly atmosphere of this activity encourages children, families and neighbours to come together to build stronger communities.

### UNLEASH A STAR

Harbrow Mentoring delivers this highly attended activity, with Jarrod Harbrow from the Gold Coast Suns streaming live every Wednesday evening. Jarrod talks to participants about the trials and tribulations of growing up in Cairns, pursuing his dream to play professional football and what it has taken to stay on top of his game over the years.

Jarrod also introduces guest speakers who are young Indigenous recruits in the AFL scene to talk about what it takes to rise to your full potential, as well as setting fun online challenges for participants.
