

We're back to the battles. By my count (crude count, could be off by 1 or 2) we have 36 different players vying for 10 prizes. So if you've made it this far, you have roughly a 28% chance of scoring a prize. More I suppose if you have multiple spots left, which many do enjoy. A truncated number of games today compared to the madness of last week's barrage of games. Here are today's lines:

Purdue	7 1/2	Texas (I'm betting this one)
Nebraska	1 1/2	Iowa
Arizona	7 1/2	Arkansas
Houston	2 1/2	Illinois (best game on the board)

Good Luck if you have action today.
