

Job Description - Mechanical Draftsperson

Overview:

Fortech Engineering Ltd. is a mechanical and electrical engineering company based in Cambridge Ontario providing engineering services for the construction industry across Canada. We provide design and consulting services for industrial, commercial, retail, institutional, and multi-residential projects.

General Duties:

To work as a full-time Mechanical Draftsperson producing construction documents of mechanical HVAC and plumbing systems for commercial, retail, and industrial building types across Canada.

The ideal candidate will have experience with drafting mechanical building systems in AutoCAD and will be capable of delivering high quality documents for use by contractors.

Qualifications:

- Bachelor or technologist degree in architectural or mechanical engineering from an accredited Canadian institution
- Strong working knowledge of interpreting and producing engineering drawings
- AutoCAD and Revit experience considered a strong asset
- Ability to work in a remote team environment and meet deadlines
- Ability to work with minimal supervision (required for remote work)
- Strong attention to detail
- Strong organizational skills
- Strong communication skills (written and verbal)
- Knowledge of Ontario Building Code preferred

Job Type: Full Time with ability to work remotely (4 days/week)

Salary : \$50,000 – 70,000 (salary commensurate with experience)

Apply: Submit resume and cover letter on the Fortech website. Include for Transcripts if you have less than 2 years relevant work experience.
