You Can Have Your Own Page:

Anyone can have their own page on the website under the Our Artists tab. Please send the following to be included:

- Short bio or artists statement – check out some of those already on the website for ideas. Include any links to your own website or social media accounts. Decide what contact info you want listed – email, phone, neither?
- Up to 10 representative images of your artwork. They can just be images without any written caption. Or you can include a title for each of the images and, if for sale, the size of the work, the medium used, and the price. Interested people will need to contact you directly for a sale. If you have a headshot photo of yourself, please also send that so visitors to the site see you!
- Please be sure the images are very sharp and clear to show the work to its best advantage. Please be sure the image is a good size – not a thumbnail. Better to send an image too large than too small. Optimal size is 2000 pixels on the long side. If you need help getting good images, contact a photographer in LOW Arts or the LOW Photo Club for help.
- Send bio and images to Jen at jenheinz6103@gmail.com.
