

## HIGH PERFORMANCE CLINIC

**Skate 3 - Tyngsboro, MA - June 21- August 25th**

**Excel Hockey High Performance Camp** is a summer development program designed to maximize a players off season development. The camp will consist of over 13 hours of ice time across 10 weeks. Players will be pushed in a structured and competitive environment. 6-1 Player to coach ratio

Scoring is the objective. Players will practice countless repetitions of the various shots required by the sport. Players will work on shooting mechanics, deceptive scoring tactics and position specific shooting.

### SHOOTING

Skating efficiency and edge control will be a top priority. Players will will develop explosive starts, dynamic edge control and an efficient stride. Overspeed and cross acceleration will be areas of focus.

### SKATING

Excels rigorous stick handling program will improve player vision, muscle memory, puck protection and evasive maneuvers. Passing will also be a point of emphasis, hard, touch and using deception to create lanes will all be part of the program.

### PUCK CONTROL

Specialized practices will aim to connect players hands and feet through high tempo skating-passing- touch drills. Hockey is getting faster and faster, reactive training is critical and long term player development.
