DE PRODUCTOS ESPECIALIZADOS

- Special designed for small joint width
- Floor to Floor Thermal Expansion Joint Cover
- Featuring a recessed design that minimizes sight lines
- The flexible seal provides a secure fit and yet retains flexibility
- The below-floor blackout design adapts easily to many different floor finishes
- An optional vapor barrier slides into the frame for easy installation

**Features:**

- Easy to install
- Economical solution for retrofit and surface mount installations
- Offering serrated surface and beveled edges for pedestrian safety
- Ideal for carpet, vinyl, ceramic tile and other floor finishes
- Also available in stainless steel and brass
- Wider widths available
- The most popular and economical model

**Features:**

- Centering bar system
- High load bearing systems rated for vehicular traffic
- Engineered for pneumatic and solid tires
- Ideal system for parking garages, warehouses, trolley access, etc.
- Cost-effective option for high load bearing system needs
- Ideal for vehicular traffic areas such as parking garages and warehouses
- Many different choices for cover plate, such as aluminum plate, stainless steel plate and galvanized steel plate

1. Anti slip grooves make the connection between screed and aluminum base much more stronger in case the decorative level will get off easily
2. Round aluminum bearing allows cover to move smoothly and easy to protect system when expansion and compression
3. Modular pan' s design eliminates deflection and cracking. It' s better for loading and connection of the whole system
4. Exclusive edge protection eliminates chipping and cracking of pavers
5. Special design for big movement inquiry

**DISTRIBUIDORA®**  
DE PRODUCTOS ESPECIALIZADOS

- Suitable for Joint width 50—250mm
- Different designs for coating and tile decorative level
- Unique seal barbs provide for secure engagement in the frame
- Engineered for multi-directional seismic movement
- Frame allows for finishing with joint compound or wall covering
- Easier installation
- Resistant to UV, ozone, acid rain, most chemicals and extreme temperatures
- Splices can be heat welded or bonded with specialty adhesive
- The face of the seal resists sagging and remains flat
- Visual seals are available in standard and custom colors
- Continuous lengths in most applications
