

## Pinky's First Trip

Pinky lives at Central Library. She is a friendly mouse. When she was a friendly mouse, she made friends with baby mice. She lives in the hay in the ship of the children's section. One day, she was looking for food and saw a shimmering purple heart on the ship. She wanted to touch it and when she touched it she got sucked up into a magical ice house. Pinky felt scared because she was cold and there was no one there. She turned into an ice mouse. She could freeze or melt the whole world. She still did not find her food because she was looking at her powers. Then up in the sky there was a hole in the cloud. It was the shape of a witch's hat. She went up the ladder and into the hole. She ended up at the doctor's office and she got her coronavirus shot. She took the doctor's car and drove to the airport and then flew back to Central Library.
