(h) Visits to the Pitcher's mound limited

- i. By Catcher. The catcher shall be permitted to make one trip per inning to the pitcher's mound.
- ii. By Manager or Coach. A Manager or Coach is permitted two (2) visits to the pitcher's mound to consult with the pitcher. A second visit in any one inning results in the automatic replacement of the pitcher.
- iii. However a second visit is allowed to change the current pitcher to a fielding position if the Manager/Coach approaches the Plate Umpire and advises the Umpire of their intention.
- iv. Failure to make the change through the Plate Umpire will then mean the rules of Baseball will apply and the pitcher must be replaced.
- v. Player/Coach. A player who is also acting as a coach must be so nominated on the Line-Up sheet. Only a coach playing in the infield may request time to visit the pitcher. Any such visit will be deemed a visit under this rule.
- vi. The umpire will automatically call for the relief pitcher when this rule requires a change of pitcher.

(i) Limits on Warm-up Pitches

- i. A pitcher entering a game to replace a pitcher, who has been injured or ejected, shall be permitted a maximum of eight (8) warm-up pitches.
- ii. Pitcher warming up prior to the start of an innings is limited to 60 seconds under Rule (g).

BY-LAWS AND PLAYING CONDITIONS**

(j) Designated runner for the Catcher

- i. A catcher must participate offensively until there are two (2) outs. The last out closest to the current batter is to be used as the runner.
- ii. If on base, they shall be replaced by a designated runner immediately the second out is achieved.
- iii. If at bat, they shall be replaced once the play by which they get on base is complete.

19. UMPIRES

- (a) Any non-accredited umpires that belong to the Umpire's Association should be linked to a Club for insurance purposes, they are registered as an official and not as an umpire. If they then gain accreditation, they will then go through the umpires association.
- (b) Non-accredited umpires are expected to umpire to the best of their ability, in a non biased way and have an appropriate level of knowledge of the game.

20. PLAYING CONDITIONS

Games conducted by the Wagga Wagga Baseball Association Inc. will, in addition to the rules of Baseball, include:

(a) Game Duration and Times

- i. All general games will be two (2) hours. In the event of tied scores no extra innings will be played or game time extended apart from an extension detailed in Sections 20 (a) (vi).
- ii. Game start times will be set each season by the Management Committee.
- iii. Matches set down as competition fixtures must be played out for a minimum of seventy-five (75) minutes or five (5) innings, whichever is the sooner to constitute an official game.
- iv. In all competition games, with a team leading by ten (10) or more runs at the bottom of the 7th innings, then time shall be called and the leading team shall be awarded the game according to the ten (10) run rule.
- v. No inning shall start with less than ten (10) minutes remaining to the finish time. Once an inning starts it must be played out for a result not for averages. No game shall be called with more than ten (10) minutes remaining irrespective of the score, unless due to bad weather.
- vi. Double Header Rule
 1. A double header shall be seven (7) innings or 1¾ hours whichever comes first.
 2. The duration between games of a double header, played on the same day, shall be a minimum of fifteen minutes to a maximum of thirty minutes.
 3. Any other decisions regarding double headers will be made by the WWBA Executive Committee.

(b) Weather and Other Factors

- i. If light, rain or any other factor prohibits a Grand Final game from being completed, it must be re-commenced on a date arranged, from the position where the game was called. If at the rescheduled game no play or limited play occurs, then the result is determined as per section 23. Playing Conditions (a) v. above or if this does not resolve the matter, then the team highest on the ladder moves forward in draw as the winner.
- ii. In the event of bad weather, the umpire shall have the power to determine whether or not the ground is in playing condition. If the umpire decides that games shall not commence, then all games scheduled for that ground that day shall be cancelled. If after a period of bad weather, the weekend is clear but the umpire feels the ground is too wet for the full schedule of fixtures, then the umpire has the power to cancel lower grade games so the 1st grade game can be played if they feel the ground can be made playable for that fixture.

- iii. Approved senior grounds not under the control of individual teams or clubs (i.e. junior fields) that meet the minimum requirements for senior play may be used to avoid cancellation of games. These grounds may be used for competition, final series, country championships or similar tournaments and shall be deemed seniors grounds when set up in the approved configuration.

(d) Teams

- i. All players in the starting line-up for each grade in any competition round must be fresh players. All players intending to be used in a game shall be listed on the line up sheet. Exemptions to this rule are outlined in point (iii) below and Section 21 Forfeits.
