

SPONSORSHIP PROSPECTUS

Kingston AI Symposium 2027

Sydney, New South Wales | March 2027

Hosted by the Kingston AI Group of Australian AI professors, the Kingston AI Symposium is a national forum dedicated to advancing Australia's standing in AI research and innovation. Following the inaugural success of the 2026 Symposium at Adelaide Oval, the Kingston AI Symposium 2027 moves to Sydney, bringing together Australia's most accomplished AI researchers, practitioners, students and industry partners for a full day of keynotes, research presentations and an exclusive awards dinner.

This invitation-only event offers sponsors a unique opportunity to engage directly with Australia's leading AI community and to help shape the national conversation about AI research and talent.

About the Kingston AI Symposium

Artificial intelligence is becoming a cornerstone of the global economy. Ensuring that Australia develops and sustains world-class capability in this critical area requires coordinated national leadership, strong research communities, and visible platforms that recognise excellence.

Hosted by the Kingston AI Group and led by principal partners, UNISW and Adelaide University, the Symposium convenes Australia's most accomplished AI researchers and practitioners to showcase outstanding work, strengthen domestic collaborations, and recognise emerging leaders shaping the future of the field. The inaugural 2026 event, held at Adelaide Oval, featured keynotes from leading researchers at Monash University and the Australian Institute for Machine Learning (AIML) at Adelaide University, alongside research presentations from institutions including Deakin University, the Australian National University, the University of Melbourne, and industry research group Maincode.

As Professor Anton van den Hengel, Kingston AI Group Chair, has noted of the Symposium's ambition:

"We compete, and win, against the best in the world, continuously. The outcome I'd really like to see is... that the symposium might help change the narrative about AI in Australia."

Why Sydney?

Building on the strong foundation of the 2026 Adelaide event, the 2027 Symposium will be hosted in Sydney, broadening access for the country's growing community of AI researchers, start-ups and enterprise adopters. Venue, full program and keynote speaker details will be announced closer to the event; sponsors will receive early access to this information as it is confirmed.

Who attends

- Australia's leading AI academics and researchers from universities and national research institutes.
- PhD students who have had a paper accepted and published in a top conference in 2026.
- Sponsorship-backed industry leaders
- Government representatives and special guests

Sponsorship Opportunities

The Kingston AI Symposium 2027 offers a range of sponsorship tiers designed to suit different levels of engagement and investment. All tiers include admission to the symposium and gala dinner, with benefits scaling in line with sponsorship level. The tiers below build directly on the sponsorship table package offered at the 2026 Symposium, with additional tiers introduced for 2027 to provide more flexible options for partners.

Principal Partner

\$25,000 AUD

- Naming association as Principal Partner of the Kingston AI Symposium 2027 across all event materials, signage and communications
- A dedicated speaking slot during the day program (subject to program committee approval)
- Admission tickets for up to 10 staff/guests to the full symposium
- A premium table of 10 at the gala dinner, with up to 7 seats assigned to your organisation and the remaining seats curated to your talent interests
- Top-tier logo placement on the event website, program booklet and on-site signage
- First right of access to the post-event attendee list, in line with privacy guidelines
- Dedicated social media and newsletter recognition before and after the event

Gold Sponsor

\$15,000 AUD

- Recognition as a Gold Sponsor across event materials and on-site signage
- Admission tickets for up to 7 staff/guests to the full symposium
- A table of 10 at the gala dinner, with up to 7 seats assigned to your organisation and the remaining 3 seats assigned to talent curated to your interests
- Prominent logo placement on the event website and program booklet
- Access to the post-event attendee list, in line with privacy guidelines
- Opportunities for direct engagement with attendees throughout the event

Sponsorship Table

\$10,000 AUD

- Admission tickets for up to 5 staff/guests to the full symposium
- A table of 10 at the gala dinner, with up to 5 seats assigned to your organisation and the remaining 5 seats assigned to talent curated to your interests
- Brand visibility across event materials and on-site signage on the day
- Access to the post-event attendee list, in line with privacy guidelines
- Opportunities for direct engagement with attendees throughout the event

Supporting Partner

\$5,000 AUD

- Logo placement on the event website and program booklet
- Admission tickets for up to 3 staff/guests to the full symposium
- 3 seats at the gala dinner
- Recognition as a Supporting Partner in event communications

Bespoke sponsorship packages, including research prize naming rights, poster session sponsorship, and AV/livestream sponsorship, can also be arranged on request. Please contact us to discuss a package tailored to your organisation's objectives.

Individual Ticket Pricing

For reference, individual ticket categories from the 2026 Symposium are outlined below. Indicative pricing for 2027 will be confirmed closer to the event and is expected to remain broadly in line with 2026 levels.

Ticket type	2026 price	Notes
Student admission	\$120 AUD	Full program only
Academic and researcher admission	\$220 AUD	Full program only
Gala dinner only	\$150 AUD	Not available to industry reps
Industry admission	Sponsorship only	Full program only

All prices are inclusive of GST.

Our 2026 Sponsors

The inaugural Kingston AI Symposium was proudly supported by the Australian Institute for Machine Learning (AIML) at Adelaide University, Google Australia, and ResetData. We look forward to building on these partnerships for 2027 and welcoming new sponsors to the program.
