Our Clinicians

Chelsea Troutman (BCBA)

Chelsea Troutman is co-director of SBSS and a Board Certified Behavioural Analyst (BCBA), practitioner and clinical supervisor. Chelsea has extensive experience working within Government and Community Service Sectors with expertise in disability services, children and family services- out of home care, and forensic disability. Chelsea has international experience in consulting on individual cases, system design, and policy.

Chelsea holds a Masters of Education in School Psychology (Applied Behavioral Analysis) from the University of Cincinnati, and a post graduate degree in Criminology (forensic disability) from University of Melbourne.

Chelsea provides extensive experience in strength based approaches to working with individuals with complex needs, complex client assessments, intervention and is recognized for her holistic practice lens, and proficiency in managing risk under the least restrictive circumstances.

Areas of specialty includes consulting with multi-disciplinary teams working with individuals with a disability and/or developmental delays, whom present with severe emotional and challenging behaviors. Practice of specialists areas of behavior change include: trauma and challenging behaviors, problematic sexualized behavior, sexual offending in persons with an intellectual disability, and violence within adolescents and adults with disability.

Chelsea can be reached directly at ctroutman@sbss.org.au

Jennifer Colechin

Jennifer Colechin is co-director of SBSS, a registered Developmental Educator, and a clinical specialist in positive behaviour support and trauma-informed care. She is also a Senior Trainer and Senior Behavioural Consultant within Berry Street Educational Model. Jennifer has practiced within schools, community and home based settings across government and community sectors. Jennifer is a skilled practitioner, who utilises the science of behaviour analysis to guide assessment, strategies and implementation approaches within a positive behavioural support and trauma informed practice lens. Jennifer has international experience in disability service design and delivery.

Jennifer holds Bachelor's degrees in Secondary Education and English Literature, a Master's Degree in Disability Studies and a Graduate Certificate in Forensic Disability. Presently Jennifer is completing a Master of Education, Applied Behaviour Analysis, which comprises the verified course sequence to qualify as a Board Certified Behaviour Analyst.

Areas of specialty includes direct intervention with individuals and their supporting team and family to ensure the rights of the person are protected through the provision of effective and evidenced based service delivery.

Practice of specialists areas of behavior change include: trauma and challenging behaviors, consulting within multi-disciplinary teams, and person-centred support within group settings. Jennifer provides a master class on how to apply positive behavioural interventions for students with a disability and challenging behaviours, as well as a masterclass on trauma and disability.

Jennifer can be reached at jcolechinchin@sbss.org.au
