Nikola Tesla (discovered) the Lithium Battery's most efficient concept for batteries he calls "Electrical Condensers" in his 1891 patent US464667 that ("possess high insulating power, together with a smaller specific inductive capacity") <https://google.com/patents/US464667>. Modern Lithium Batteries exhibit ("the lightest and most "electro-negative" metal in the periodic table"). Later in 2000, this discovery was patented by Sony under patent #US6677083 for almost all modern Lithium Batteries <http://google.com/patents/US6677083> -- The Sony patent specifically describes the use of Lithium, an electrolytic salt, to diminish resistance against ion conduction to improve ion conductivity. -- Nikola Tesla's other Electrical Condenser patent in 1896 #US567818 for Oils used as Insulators (Now a common classification for all <https://google.com/patents/US567818> -- Tesla's first referring patent to his 1891 patent #US464667 includes a "Capacitor with liquid dielectrics" <https://google.com/patents/US3903460> -- Tesla's referring patents to his 1896 patent #US567818 includes a "Oscillator tank circuit configuration" used by GE/RCA during and after Tesla's death <https://google.com/patents/US2530995> -- Also a 1993 "Cellular telephone (TV) coupling network " used by RCA, Westinghouse & Ford Cellular telephone coupling network <https://google.com/patents/US5463405> -- Lastly, another referring patent is used by Westinghouse Corporation for use in Nuclear Reactors <https://google.com/patents/US5027099> -- Added to Tesla's Wardencllyffe Wikipedia: ""Speculation on the Wardencllyffe Tower tunnels ranges from them being for drainage, acting as access ways, or having the function of enhancing ground connection or resonance by interacting with the water table below the tower, maybe via being filled with SALT WATER or LIQUID NITROGEN (LIQUID SUPERCONDUCTIVE GASSES LIKE HYDROGEN OR ARGON/KRYPTON).[18][21] There is also contemporaneous and later descriptions of four 100 foot long tunnels, possibly brick lined and waterproofed, radiating from the bottom of the shaft north, south, east, and west terminating back at ground level in little brick igloos.[21]"" [https://en.wikipedia.org/wiki/Wardencllyffe\\_Tower](https://en.wikipedia.org/wiki/Wardencllyffe_Tower)

DISAPPEARING NIKOLA TESLA: The Burial of Tesla and Rebirth of His Discoveries. Tesla was buried, both literally and intellectually, in January, 1943. Considering the long and thorough eradication of Tesla's name from encyclopedias and books on science, invention and technology, becoming the "invisible man" of science history. What did Tesla discover which threatened the powers that be? Since we already know about the many patented inventions, that the unknown, still classified works were far in advance of the published ones, and were in realization of projects which Tesla had previously announced or had already tested and developed, but had not yet "...given to the world". The attempted destruction and concealment of Tesla's work has now been

exposed, and will soon be reversed. The factions which were responsible for this still exist through perpetuity, but will not be able to control the technology when it finally emerges. [http://whale.to/b/lyne\\_tesla.html](http://whale.to/b/lyne_tesla.html)

Considering the long and thorough eradication of Tesla's name from encyclopedias and books on science, invention and technology, becoming the "invisible man" of science history. What did Tesla discover which threatened the powers that be? Since we already know about the many patented inventions, that the unknown, still classified works were far in advance of the published ones, and were in realization of projects which Tesla had previously announced or had already tested and developed, but had not yet "...given to the world". The attempted destruction and concealment of Tesla's work has now been exposed, and will soon be reversed. The factions which were responsible for this still exist through perpetuity, but will not be able to control the technology when it finally emerges. August 24th 2016 - China sets sights on new global export: nuclear energy. The Chinese are using the Tesla/Westinghouse technology to build the plants. Nuclear power is Nikola Tesla technology. Nuclear power plants are a multi-use system as a frequency regulator, ballast for the grid, water boiler, separates salt and lithium-7 from seawater, produces hydrogen and other gasses, transmutation of metals, purification of metals, produces phosphorescent gasses like Argon and Krypton.

<http://phys.org/news/2016-08-china-sights-global-export-nuclear.html> -- Today, there are more than 430 Westinghouse nuclear power reactors in operation worldwide. (Tesla stated that nuclear power would result in "more or less value" depending on the metals and gasses derived or function used.) <http://nikolateslasolar.blogspot.com/> -- CHAPTER II - DISAPPEARING TESLA:

George Orwell said, "In a time of universal deceit, telling the truth is a revolutionary act." Thanks to WikiLeaks, we know that powerful institutions have been abusing their power and lying to the public. For example, redacted State Department communications published by WikiLeaks revealed that Secretary Clinton identified Saudi Arabia as a leading funding source for terrorist groups around the time she approved a whopping \$29 billion arms deal with the Saudi dictatorship.

Chris Edwards posted in TeslaLeaks.com - Nikola Tesla Leaks.

<http://peswiki.com/directory:teslas-pierce-arrow>

In 1931, under the financing of Tesla Pierce-Arrow and George Westinghouse, a 1931 Pierce-Arrow was selected to be tested at the factory grounds in Buffalo, N.Y. The standard internal combustion engine was removed and an 80-H.P. 1800 r.p.m electric motor installed to the clutch and transmission. The A.C. motor measured 40 inches long and 30 inches in diameter and the power leads were left standing in the air - no external power source. At the appointed time, Nikola Tesla arrived from New York City and inspected the Pierce-Arrow automobile. He then went to a local radio store and purchased a handful of tubes, wires and assorted resistors. A box measuring 24 inches long, 12 inches wide and 6 inches high was assembled housing the circuit. The box was then placed on the front seat and had its wires connected to the air cooled, brushless motor. Two rods 1/4" in diameter stuck out of the box about 3" in length. Mr. Tesla got into the driver's seat, pushed the two rods in and stated, "We now have power." He put the car into gear and it moved forward. This vehicle, powered by an A.C. motor, was driven to speeds of 90 m.p.h. and performed better than any internal combustion engine of its day. One week was spent testing the vehicle. Several newspapers in Buffalo reported this test. When asked where the power came from, Tesla replied, "From the ethers all around us."... In the 1970's, an inventor used an Ev-Gray generator, which intensified battery current, the voltage being induced to the field coils by a very simple programmer (sequencer). By allowing the motor to charge separate batteries as the device ran, phenomenally tiny currents were needed. The device was tested at the Crosby Research Institute of Beverly Hills, Ca., a 10- horsepower EMA motor ran for over a week (9 days) on four standard automobile batteries. The inventors estimated that a 50-horsepower electric motor could traverse 300 miles at 50 m.p.h. before needing a re-charge. <http://peswiki.com/directory:teslas-pierce-arrow> -- More at <http://nikolateslasolar.blogspot.com/>

The IEEE, Long Island confirms Wardenclyffe is the original "Radio City" in 1901. After Nikola Tesla dies in 1943, the U.N. Conspiracy (founders of the New World Order) for several years had their offices at Sperry-Rand Corp in 1945-6 with Ford Corp at Lake Success LI & RCA/GE Radio Central at Rocky Point, Shoreham, LI within eyesight of the Wardenclyffe Site for several years. Tesla states in his 1919 Autobiography that Wardenclyffe at Shoreham LI was demolished on July 4th 1917, along with the Tesla/Marconi Station "Telefunken" in Sayville, LI in 1917 and ... In Margaret Cheney's book "Man out of Time", the not well known Tesla "Tuckerton" Radio Station was ceased by the U.S. government and replaced with RCA. But he states, "they are building more of them"! After Tesla's autobiography, GE merged with Marconi in 1920, RCA was formed. By November 5th 1921, the first radio broadcast was sent from the President of the United States from the White House, using the new RCA system at Rocky Point, near Sayville. By 1943, after Tesla dies, in 1945-46, the Sperry Gyroscope Company takes over office space with the Ford Company at Lake Success, LI and RCA at Rocky Point, LI. According to the Tesla FBI File, Henry Ford is alleged to be involved with Tesla's missing inventions, which were to be turned into "idea factories". In 1946, the United Nations had their headquarters at the Sperry Company. By 1973, Sperry merges with Remington Rand to create the Sperry-Rand Corporation. --

<http://teslaresearch.jimdo.com/death-ray/>

#tesla #deathray Principles and concepts of Tesla's "death ray". In Tesla's mind, it was time to reveal his greatest invention: a perfect and impossible idea, a weapon to prevent World War II. Principles and concepts of Tesla's "death ray": New York Herald Tribune - July 11, 1934: "First and most important is a mechanism for producing rays and other energy manifestations in free air. Hitherto vacuum tubes have always been necessary. Second is an apparatus for producing unheard-of quantities of electrical current and for controlling it when produced. The current is necessary as power for the first mechanism. Without this, no rays of sufficient strength could be produced. The third is a method of intensifying and amplifying the second process, and the fourth is a method of producing "tremendous electrical repellent force". <http://teslaresearch.jimdo.com/death-ray/> On July 23, 1934 Time Magazine wrote an article about Tesla's Ray: "Last week Dr. Tesla announced a combination of four inventions which would make war unthinkable. Nucleus of the idea is a death ray – a concentrated beam of sub-microscopic particles flying at velocities approaching that of light. The beam, according to Tesla, would drop an army in its tracks, bring down squadrons of airplanes 250 miles away. Inventor Tesla would discharge the ray by means of 1) a device to nullify the impeding effect of the atmosphere on the particles, 2) a method for setting up high potential, 3) a process for amplifying that potential to 50.000.000 volts, 4) creation of "a tremendous electrical repelling force." -- According to Wikipedia, the NY Times, and in the Tesla FBI File, by 1935, Teleforce was demonstrated for the U.S. Government <https://en.wikipedia.org/wiki/Teleforce>

#oil #prices #saudi #arabia #standardoil #chevron #exxon #assassins "The great American take-over has begun". - British Journalist David Holden wrote in his history of Saudi Arabia -- In 1938, Rockefeller's Standard Oil, now Chevron/Exxon, struck oil in the middle east. (Within the same years, 1934-1940 Nikola Tesla presents "Teleforce" based on a new type of physics, earlier called the (UV) "Death Ray" to the U.S Military and published Teleforce in the NY Times in 1940 to prevent WW2). By 1939, Roosevelt finally established diplomatic relations with Saudi Arabia, it's oil used for WW2. Before Tesla dies on January 7th 1943, on July 15th 1942, Tesla meets King Peter II to present him a "Missile Shield" to defend Yugoslavia. By February 1943, the month after Tesla died, the U.S. secretary of interior, Harold Ickes, declares Saudi Arabia vital to the defense of the U.S. Later in 1945, Roosevelt meets the king of Saudi Arabia for the first time. <http://ameu.org/getattachment/51ee4866-95c1-4603-b0dd-e16d2d49fcbc/The-Day-FDR-Met-Saudi-Arabia-Ibn-Saud.aspx> -- Secretary of Interior [https://en.wikipedia.org/wiki/Harold\\_L.\\_Ickes](https://en.wikipedia.org/wiki/Harold_L._Ickes) -- Records of the office of the Secretary of the Interior <http://archives.gov/research/guide-fed-records/groups/048.html>

Power from Niagara has always been 1c kw/hr. But there are reasons why you're still paying 10X that. Such as a monopoly,

privatization of profits, insurance, regulators, commodities prices, and the minimum wage. For example, Canada's Hydro2 plants requested \$500M to build and guaranteed \$5B in profits to the private company.

<https://www.inverse.com/article/19659-the-5-industries-and-businesses-that-fear-tesla-s-ascension>

Unfortunately for Mr. Musk, his true enemies have yet to reveal themselves, at least not overtly. But each imaginable adversary would be foolish not to combat Tesla's ascension. If Tesla's popularity goes unchecked, a pantheon of agencies, organizations, companies, and people will suffer. And these people, accustomed as they are to triumph, are not good sufferers. Even if Tesla's success means the world is objectively a better place — less traffic, fewer automobile deaths, less gas guzzling, and so on — those snubbed by this success will likely stay bitter. <https://www.inverse.com/article/19659-the-5-industries-and-businesses-that-fear-tesla-s-ascension>

<https://youtube.com/watch?v=i4zPBcY4YJ4>

#tesla #niagara #falls #history Discovery Channel's "Tesla's Niagara" -- Tesla's 4 phase AC system apparatus he says existed PRIOR TO THE DESTRUCTION OF MY LABORATORY OF 1895 "I employed already in the 35 South Fifth Avenue laboratory, I remember I gave entertainments to several scientific societies and it was then present there. There was the Society of Architects, and another, the Electrotherapeutic Society, and then I had distinguished men like Mark Twain and Joseph Jefferson -- I gave them a demonstration which was published in Martin's article in the Century Magazine of April 1895, and I know that on these occasions I used a two-phase arrangement. Later on I made it four phase. <https://youtube.com/watch?v=i4zPBcY4YJ4> --

<http://teslaresearch.jimdo.com/niagara-falls-power-project-1888/>

<http://image.jimcdn.com/app/cms/image/transf/dimension=orig/path/s40c423127565d23a/image/ib342079e0afabedd/version/1422241897/image.gif> Within months of Tesla's lab burning to the ground GE's Steinmetz patents a "system of distribution by alternating current" (A/C power), on January 29, 1895. This was the world's first three phase alternating current generator. Between January 1895 and March 1895, Tesla allegedly meets with JP Morgan and announces he has abandoned A/C power for wireless power and his "Electric Ray".

By the St Louis World Fair in 1903, Tesla's systems had been replaced with General Electric. Also in early 1895, the Thompson-Houston company patented an AC system and AC Transformers that would compete directly with Nikola Tesla's AC system and AC Transformers. Also pictured Tesla's Three phase variable reluctance motor - Tesla patent 381,968 filed Oct 12, 1887, later filed by the Ford Motor Company on February 2nd 1971 as a "Reluctance Motor"

<http://inventors.about.com/od/astartinventions/a/Steinmetz.htm> -- Prior to the initial planning of Niagara Falls in 1887-1888,

Westinghouse employee and Tesla partner in 9 of Niagara Falls's 13 patents, Schmid files a patent on May 2nd 1887, for a Gas "Pumping" Engine using a secondary compressed air reservoir, but does not describe the Tesla described concepts and need for reciprocation. Researching the Tesla/Schmid Niagara Falls Patents, Schmid has a patent for a "Field Magnet for Electric Machines" which then refers to a 1996 patent for a "Low torque ripple switched reluctance motor" for a Dana Corp. and a "Stator" for Electric Motors by Toyota approved in 2014 <https://www.google.com/patents/US519097> Later in 1902, Schmid patents a "Driving mechanism of motor-cars." which is one of the first hybrid cars using an internal combustion engine to charge and power and electric dynamo motor. <https://www.google.com/patents/US716113> Also located in the 13 Niagara Falls Patents is the William Stanley Electrolytic "Storage Battery" of March 1st 1892 which is a new method for "Preventing the negative plates from losing their capacity" using "spongy lead" and "carbon", commonly known as Graphene/Graphite. Also noted in the article is a lawsuit by

Westinghouse protecting the Stanley patent which is described it's function as a "Self-Regulating Transformer". The article also describes Stanley's work as the potential inventor of the "Kinetoscope" and not Thomas Edison. The last suspicious patent of the 13 Niagara Falls patents is by Arthur Kennelly, who prior to 1895, worked for Thomas Edison working with Tesla's AC Power in order to electrocute animals. Chris Edwards commented on Shane Calkins's post.

Group: Chemtrails Global Skywatch

They're going to have to break billions of solar panels, 300,000+ wind turbines, 1000's of hydro plants, and geothermal worldwide. Since they are nearly indestructible, they'll have to smash each solar cell one by one with a hammer and pull out the WW2 "bouncing bombs" to "try" to destroy a hydro plant. Then, they'll have to invade the 100+ Islands that will soon be 100% renewable energy. Good luck with that.

Dr Judy Wood's number for the old WTC height is 45 seconds. That means the towers fell at least 3X faster than that or 30 meters per second or about 67mph, however, the "squibs" are seen half way down the building in 4 seconds. That puts core destruction at about 150mph or "Terminal Velocity".

What happened to Nikola Tesla's "Apparatus for the Utilization of Radiant Energy"? It was filed on Mar 21st, 1901, prior to the assassination of President William McKinley on September 6th-13th 1901, and was approved by the U.S. patent office on Nov 5th, 1901. Tesla's radiant energy and wireless works culminated from his Colorado Experiments in 1899-1900. At the time McKinley's assassination, most transportation was electric, in many cases using Nikola Tesla's patents for AC Induction Motors, Steam-Engine and Turbine Trains, Monorail and AC Trolley's (including the electric ambulance that carried President McKinley to the hospital) were all running off of power generated at Niagara Falls. President William McKinley's last public speech at Buffalo after visiting Niagara Falls. His Niagara Falls speech is unavailable. <http://books.google.com/books?>

<http://nikolateslasolar.blogspot.com/2014/11/nikola-tesla-apparatus-for-utilization.html>

Nikola Tesla's Top 13 Methods, Apparatus and Systems of wireless power and communications include: 1) Create "Cloudborn Wavelets", receive it with specially designed antenna 2) Artificial Ionization & De-ionization of the atmosphere with Ion/Negative Ion Generators (Plasma Fields) 3) Low Frequency Radio Waves, creates Concentric, Longitudinal Standing Waves along the surface of the Earth (Whale communication) 4) Earth-Vibration as a Resonant Cavity (Cyclotron's/Magnetron's) (Earth Audio Signals by "Granite/Quartz Vibration Sounds") 5) Earth Currents between tuned coils/capacity, with amplified Electrical Impulses using Cold Temperature. Sensitive receiving devices like the (Audion) 6) Tethered Balloons as Energy Receivers 7) Radiant Energy/Solar/Static/UV reception, even at night time with a Radiant Energy Receiver made of Hybrid Perovskite's of Salt/Lithium and Tin 8) A "Sun Tap" with HAARP 9) Induced Lightning with Elevated Super-Conductors (High Altitude Voltage Access) (Elevated Batteries) 10) Electro-Static Generators 11) Sending TV signals through water or the Ocean 12) HF Generators and Inductive Superconductive Receivers 13) Inductive (Charged) Beams of particles from Accelerators (Acting like an Artificial Wire or Tether) 14) Superconductive Lasers or LiFi <http://nikolateslasolar.blogspot.com/2014/11/nikola-tesla-apparatus-for-utilization.html>

Take the vaccine's. They are 100% approved. The Chimps they tested the "Ebola Vaccine" on said they worked great. After the Vaccine, the Chimps were sure it worked, they threw 50% less crap at each-other and ate 50% less bananas. On the other hand, if combined with large quantities of Cannabis, they ate 50% more bananas and took a siesta. When they woke up, the G-Protein receptors in the Cannabis, gobbled up those vaccine protein snippets. It wasn't then, until the Chimps began throwing 50% more crap at each-other. But just because it was funny.

Methyl Mercury is in almost all pesticides, including DEET. It's the Mercury that absorbs 95-100% into your skin and causes cancer. If you don't spray it on your skin, they will spray it on you or some happy methyl-mercury-chemtrails. <http://phys.org/news/2014-08-safer-pesticide-toxic-mercury.html> <https://www.google.com/#q=pesticides+methyl+mercury>

#tesla #marconi #telefunken #aeg #titanic This is the Tesla/Marconi Station by Telefunken/AEG/AEG Live at Sayville, Long Island that was supposedly communicating with the Titanic at the time it sunk. But, radio waves are also designed to direct Automation Torpedoes to their target. The station used ULF radio waves (like a giant guitar) designed to communicate and send power to submarines as far south as South America and Australia. Two months after the assassination of U.S. President McKinley on Oct 6th 1901; on November 11th, Tesla sends JP Morgan legal documents including international patents with improvements on various crucial aspects of his wireless machinery. He promises once again to beat Marconi in the race for the wireless. Morgan acknowledges receipt of the patents in a letter from his secretary to Tesla. However, in December, Marconi successfully transmits the letter S (dot/dot/dot) from England to Canada.

Two months after the assassination of President McKinley on Oct 6th 1901; on November 11th, Tesla sends JP Morgan legal documents including international patents with improvements on various crucial aspects of his wireless machinery. He promises once again to beat Marconi in the race for the wireless. Morgan acknowledges receipt of the patents in a letter from his secretary to Tesla. However, in December, Marconi successfully transmits the letter S (dot/dot/dot) from England to Canada.

Chris Edwards posted in RENEWABLE ENERGY CENTER.

<https://ecnmag.com/news/2016/08/hybrid-perovskites-super-ion-building-blocks>

8/2/2016 - The U.S. DOE confirms Nikola Tesla's statements in his 1901 patent for an "Apparatus for the Utilization of Radiant Energy" use of Hybrid Halogen Perovskites: "Super-ion Building Blocks" to determine maximum solar cell efficiency. The DOE & Tesla tested 40 combinations and confirm the best candidates are a Salt or Lithium Salt + a nano Tin halogen perovskite metal. The curvature of the nano metal should have the "highest curvature" NT, like of a nano-sphere or nano-dome. Tin has the ability to build 100% electro-static capacity and discharge that capacity at 100% at a very high rate. Once the Tin plate's "electron's" have been discharged to the stepping motor, the plate becomes superconductive to the atmosphere. This happens as the negative ion's "holes" from the Earth-Ground, rush to the elevated plate. Repeat. <https://ecnmag.com/news/2016/08/hybrid-perovskites-super-ion-building-blocks> <http://phys.org/news/2016-08-stability-cheap-solar-cells.html> <http://phys.org/news/2016-07-solar-cells-power.html> -- Nikola Tesla's patent for "Apparatus for the Utilization of Radiant Energy" describing it's use as an "Elevated Battery" + perpetual reluctance engine/stepping motor. A new room temperature method to create the nano dome's using water droplets has been developed. <https://www.google.com/patents/US68595> <http://nikolateslasolar.blogspot.com/2014/11/nikola-tesla-apparatus-for-utilization.html>

The DOE & Tesla tested 40 combinations and confirm the best candidates are a Salt or Lithium Salt + a nano Tin halogen perovskite metal. The curvature of the nano metal should have the "highest curvature" NT, like of a nano-sphere or nano-dome. Tin has the ability to build 100% electro-static capacity and discharge that capacity at 100% at a very high rate. Once the Tin plate's "electron's" have been discharged to the stepping motor, the plate becomes superconductive to the atmosphere. This happens as the negative ion's "holes" from the Earth-Ground, rush to the elevated plate. Repeat. <https://ecnmag.com/news/2016/08/hybrid-perovskites-super-ion-building-blocks> -- Nikola Tesla's patent for "Apparatus for the Utilization of Radiant Energy" describing it's use as an "Elevated Battery" + perpetual reluctance engine/stepping motor. <https://www.google.com/patents/US68595>

<https://www.youtube.com/watch?v=LCViL5XfDwo>

Hot Air Balloon Hoax: Located near George Bush and Alex Jone's house, the hot air balloon hoax was created and being used to ban private balloon companies and personal use. The same staged events were used to BAN and SHUT DOWN the private trolley system in the U.S, high flying zeppelins, wirelessly powered zeppelin's, Tesla's vertical take-off (VTOL) flying craft, high speed steam engine electric rail, electric cars and even electric toys (and their batteries). Lithium batteries are banned on air flights, because Lithium batteries can be charged-up by the voltage available in the upper atmosphere. Tesla recommended an "Elevated Battery" in his Apparatus for the Utilization of Radiant Energy. Further, the balloon was not burnt, no damage to the electrical wires and no bodies were shown. <https://www.youtube.com/watch?v=LCViL5XfDwo>

<http://nordic.businessinsider.com/the-queen-of-batteries-unveils-her-new-invention-that-can-increase-the-range-of-teslas-by-70-2016-7/>

Nikola Tesla's Electrolytic "Wound Coil" Electrolytic Salt Batteries patented in 1891-96, similar to the battery used at Niagara Falls in 1899. The Swiss "Queen of Batteries" supposedly invents a 70% more efficient lithium battery than the Tesla Model S, using an electrolytic "wound (coil) capacitor" battery. However, Nikola Tesla patented inventions he calls "Electrical Condensers" in 1891 and 1896 that fully describe all salt based, lithium salt based electrolytic "wound capacitors", which is now a common classification.

<http://nordic.businessinsider.com/the-queen-of-batteries-unveils-her-new-invention-that-can-increase-the-range-of-teslas-by-70-2016-7/> -- Nikola Tesla's 1896 "Electrical Condenser" <https://google.com/patents/US567818> -- Nikola Tesla's 1891 "Electrical

(Electrolytic) Condenser" used as a capacitor for liquid di-electrics <https://google.com/patents/US464667> -- and manufacturing methods. Tesla recommends the highest thermal conductivity materials such as oil, mercury or saline or molten salt. The best salts being Lithium, extracted by electrolysis, a well known process since about 1823, and combine with Fluoride salts, us the liquid fuel used in some nuclear reactors. Lithium is also used to produce Tritium, with the bombardment of neutrons and is known for it's flux effects. Lithium for commercial purposes was widely used by 1923. Tesla did predict the faster-than-light "Neutrino" in 1932.

Nikola Tesla's Electrolytic "Wound Coil" Electrolytic Salt Batteries patented in 1891-96, similar to the battery at Niagara Falls. The Swiss "Queen of Batteries" supposedly invents a 70% more efficient lithium battery than the Tesla Model S, using an electrolytic "wound (coil) capacitor" battery. However, Nikola Tesla patented inventions he calls "Electrical Condensers" in 1891 and 1896 that fully describe all salt based, lithium salt based electrolytic "wound capacitors", which is now a common classification.

<http://nordic.businessinsider.com/the-queen-of-batteries-unveils-her-new-invention-that-can-increase-the-range-of-teslas-by-70-2016-7/> -- Nikola Tesla's 1896 "Electrical Condenser" <https://google.com/patents/US567818> -- Nikola Tesla's 1891 "Electrical

(Electrolytic) Condenser" used as a capacitor for liquid di-electrics <https://google.com/patents/US464667> -- and manufacturing methods. Tesla recommends the highest thermal conductivity materials such as oil, mercury or saline or molten salt. The best salts being Lithium, extracted by electrolysis, a well known process since about 1823, and combine with Fluoride salts, us the liquid fuel used in some nuclear reactors. Lithium is also used to produce Tritium, with the bombardment of neutrons and is known for it's flux effects. Lithium for commercial purposes was widely used by 1923. Tesla did predict the faster-than-light "Neutrino" in 1932.

Nikola Tesla's missing inventions, improvements can be found in his International Patents such as 1) Method & Apparatus to the certain transmission of a message on a certain receiver mittles of electric impulses or oscillation of a different state. (Pulse code/ Pulse-width modulation/ Multiplexing aka "Secrecy Systems"). Later patents around the time of Tesla's death were patented a John R Pierce, relative to Barbara Pierce Bush (Of Pierce-Arrow) grand-daughter of George Herbert Walker Bush/Scherff? (Curious George). John R Pierce coincidentally also patented after Tesla's death Electron Guns, Cavity Resonators (Cyclotron's/Klystron's/Mangetron's) Television Tubes, Radar, Microwaves and Linear Accelerators. Other earlier patents, before WW2, show up under RCA (Tesla allegedly worked for RCA under the name "Terbo") Telefunken and Westinghouse that are similar to the earlier Tesla patents. <http://tfcbooks.com/patents/patents.htm> Oct 1909 UK Patent for 3) Improvement Method of Imparting Energy to or Deriving Energy from a Fluid by "skin effect", adhesion and viscosity.

Some of Nikola Tesla's missing inventions and improvements can be found in his International Patents, such as: 1) Improvements in fluid propulsion and fluid propelled mechanism 2) Method and Apparatus to the certain transmission of a message on a certain receiver mittles of electric impulses or oscillation of a different state. (Pulse code/ Pulse-width modulation/ Multiplexing). Later patents around Tesla's death were patented by a "John R Pierce", relative to Barbara Pierce Bush (Of Pierce-Arrow) and grand-daughter of George Herbert Walker Bush/Scherff? (Curious George). John R Pierce coincidentally also patented after Tesla's death Electron Guns, Cavity Resonators (Cyclotron's/Klystron's/Magnetron's) Television Tubes, Radar, Microwaves and Linear Accelerators. Other earlier patents, before WW2, show up under RCA (Tesla allegedly worked for RCA under the name "Terbo") Telefunken and Westinghouse that are similar to the earlier Tesla patents. <http://tfcbooks.com/patents/patents.htm> Oct 1909 UK Patent for 3) Improvement Method of Imparting Energy to or Deriving Energy from a Fluid by "skin effect", adhesion and viscosity. Nikola Tesla's Superconductivity and Hydrogen production at Wardenclyffe. The present limitations in the transmission of power to distance will be overcome in two ways—through the adoption of underground conductors insulated by power, and through the introduction of the wireless art. The first plan I have advanced years ago. The underlying principle is to convey through a tubular conductor hydrogen at a very low temperature, freeze the surrounding material and thus secure a perfect insulation by indirect use of electric energy. In this manner the power derived from falls can be transmitted to distances of hundreds of miles with the highest economy and at a small cost. <http://tfcbooks.com/tesla/1915-09-09.htm> -- Nikola Tesla's "Wonder World" of Electricity 1915 - Tesla predicts Hydro Power & Demand Response [https://www.youtube.com/watch?v=1TwbmP-yU\\_w](https://www.youtube.com/watch?v=1TwbmP-yU_w)

22 Ways To Delay The Electric Car Revolution. Let's say that, for some reason, you really don't want humans to drive in cleaner, more enjoyable, more exciting, safer, better electric cars. How do you go about slowing down the transition? Below are prescriptions for three different groups (automakers, the media, and investors) that could pitch in and do their part to delay the transition.

<http://www.ew.com/article/2016/07/25/last-days-night-eddie-redmayne>

The Last Days of Night is being directed by Morten Tyldum, who previously worked with Moore on the 2014 Oscar-winning drama The Imitation Game. Moore won his first Academy Award for penning the film's screenplay, and will adapt his own novel for the The Last Days of Night script. Historical figures such as Nikola Tesla, Alexander Graham Bell, and Stanford White will also reportedly appear in the film, which is being produced by Nora Grossman, Ido Ostrowsky, and Teddy Schwarzman.

What's a "Sun Tap"? A method of wireless power transfer! The movie of "Angels Don't Play This HAARP" referred to a "Sun Tap", and Dr Judy Wood referred to a "Solar Maximum", happening the day of 9/11. The HAARP Director explains it succinctly (perhaps!). Official record has HAARP being turned on, on 9/11, being the worlds largest radio broadcasting mechanism and the WTC antenna being the largest radio receiver. <https://www.youtube.com/watch?v=pHtIR2yvxdc>

Tesla's 4 phase AC system apparatus he says existed PRIOR TO THE DESTRUCTION OF MY LABORATORY OF 1895 "I employed already in the 35 South Fifth Avenue laboratory, because I remember that I gave entertainments to several scientific societies and it was then present there. I know on one occasion there was the Society of Architects, and another, the Electrotherapeutic Society, and then I had distinguished men like Mark Twain and Joseph Jefferson -- I gave them a demonstration which was published in Martin's article in the Century Magazine of April 1895, and I know that on these occasions I used a two-phase arrangement. Later on I made it four phase. <http://teslaresearch.jimdo.com/niagara-falls-power-project-1888/>  
<http://image.jimcdn.com/app/cms/image/transf/dimension=orig/path/s40c423127565d23a/image/ib342079e0afabedd/version/1422241897/image.gif> Within months of Tesla's lab burning to the ground GE's Steinmetz patents a "system of distribution by alternating current" (A/C power), on January 29, 1895. This was the world's first three phase alternating current generator. Between January 1895 and March 1895, Tesla allegedly meets with JP Morgan and announces he has abandoned A/C power for wireless power and his "Electric Ray". By the St Louis World Fair in 1903, Tesla's systems had been replaced with General Electric. Also in early 1895, the Thompson-Houston company patented an AC system and AC Transformers that would compete directly with Nikola Tesla's AC system and AC Transformers. Also pictured Tesla's Three phase variable reluctance motor - Tesla patent 381,968 filed Oct 12, 1887, later filed by the Ford Motor Company on February 2nd 1971 as a "Reluctance Motor"

Alleged conspiracy to murder Nikola Tesla: In 1895 after Nikola Tesla met with JP Morgan about his new discovery of the "Electric Ray" for Free, Worldwide Wireless Energy, making Tesla's own AC Power Invention obsolete. Before returning from an unannounced 2:30 am dinner at Del-Monico's, Tesla's 5 Story Steel & Concrete Lab, largest in the U.S., next to the Military, was on fire, witnesses hearing "boom" "boom" "boom". By the time Tesla returned to his 5 story lab in NY, it was burned completely to the ground and all of his work on the "Electric Ray" from his Colorado Experiments were lost. Tesla avoids an assassination attempt. There is no statute of limitations on murder or attempted murder. If it was willful, deliberate, and premeditated attempted murder, then the maximum sentence is life. <https://www.youtube.com/watch?v=QgL8jLbPLgM>

Rockefeller, Uncle Translated Tesla's Stolen Work · The Mind Unleashed <http://themindunleashed.com/2017/03/trumps-grandfather-worked-john-d-rockefeller-uncle-translated-teslas-stolen-work.html> -- Mr. Walter Gorsuch was the custodian at the Office of Alien property that handled Tesla's last secret documents. John G. Trump sent a letter to him concerning those papers. Any relation to Neil? : The\_Donald [https://www.reddit.com/r/The\\_Donald/comments/6119k9/mr\\_walter\\_gorsuch\\_was\\_the\\_custodian\\_at\\_the\\_office/](https://www.reddit.com/r/The_Donald/comments/6119k9/mr_walter_gorsuch_was_the_custodian_at_the_office/) -- John G Trump, Donald Trump's uncle and Nikola Tesla were recently added to Donald Trump's Wikipedia page:

[https://en.wikipedia.org/wiki/Donald\\_Trump](https://en.wikipedia.org/wiki/Donald_Trump) His uncle, John G. Trump, a professor at MIT from 1936 to 1973, was involved in radar research for the Allies in the Second World War, and helped design X-ray machines that prolonged the lives of cancer patients; in 1943, the Federal Bureau of Investigation requested John Trump examine Nikola Tesla's papers and equipment when Tesla died in his room at the New Yorker Hotel.[9] Vignettes of early radiation workers with John G. Trump, DSc Professor of electrical engineering MIT. Moderated by Lauriston S. Taylor. In his video series "Vignettes of Early Radiation Workers" Taylor interviews pioneers on topics in "fields that have impinged on the applications of ionizing radiation to diagnostic and therapeutic radiology"; Trump has been involved in the "development of high-voltage radiation producing machines making them available for research applications such as medicine." August 29, 1978. John G Trump 8 Page Report in the Nikola Tesla FBI File

Chris Edwards updated the description of the group TeslaLeaks.com - Nikola Tesla Leaks.

TeslaLeaks - Not WikiLeaks, it's Nikola Tesla Leaks. Tesla's missing documents, patents, inventions and property. Nikola Tesla patents, inventions, principles, improvements and vernacular in: Alternating Currents (AC) Polyphase System of Generators Transformers Motors for Trains, Fans, Washing Machines and A/C Arc Lamp Lighting, AC Induction Motors & Generators, Rotating Magnetic Field, EMF Recycling, Dynamo's, Impulse Direct Current (DC), Radio, Speakers, Amplifiers, Teleautomatics, Telegeodynamics, Teleautomata, Multi-plexing, Feedback, Coherers, Torpedo, Remote Control, Logic Gates, Nodal Systems, Wireless Energy, Non-Radiative Power Transfer, Radiant Energy, Ion Generators, Plasma Containment, Superconductivity, Cryogenics, Transmutation, the Ether, Faster-than-Light, Longitudinal & Standing Waves, Resonant Rise, Submarine Communications, Super-Critical Water, Power to Gas, Radioactive Elements, Teleforce, Proton Beams, Field Effects, Levitation, Concentric Waves, Ruby Laser, LED, Radar, X-Ray, Tesla Coil, Tuned Coils, Voltage Transformers, Frequency Regulation, AC-DC Converters, Commutators, High Frequency Microwave Generators, Ozone Generator, Nitrogen Fixation, Fluorescent Lighting, Vacuum Tube Capacitors, Negative Resistance, Water Purification with UV, Lightning Protection & Capture, Condensers/Batteries,

Flow Batteries (Salt Batteries), Tesla Bladeless Disc Turbine, Tesla Pump, Turbine Pump for Desalination, RamJet Engine, Fluid Propulsion, Fluid Dynamics, Boundary Layers, Skin Effect, Fountain, Electric Train, Monorail, Compounding Steam Engine, Pyromagnetic electric engine (Heat Engine), Solar Cells, Geothermal using the Tesla Heat Pump & Tesla Bladeless Turbine, Hydro/Water Power, Wind Turbines & Generators, Magnetic-Levitation, Potential Energy with the Rigidity of a Spring, Electric Starter, Spark Plug, Spark Gap Transformers, Rotary Motor, GPS by Triangulation, Doppler Effect/Tracking Storms, Speedometer, Water Flow Meter, Electric Meters, Electrolytic Meters, Ships Log, VTOL Aircraft, Reciprocating Engines (Internal Combustion Engines/Heart Pumps), Earthquake Machines, Molecular Dis-sociation, Cyclotrons (Echo chambers), Particle Accelerators (CERN), ULF/VHF Atmospheric Ionization & Heating (HAARP), UV Death Ray, Electro-static Generators, Weather Modification, Ball Lightning, Teleportation, Tesla Effects, Matter Projection, Invisibility, Mind Projection, Electro-therapy, Electrical Massage, Healing Devices, Cosmic Ray Motor, Electric Car, Electric Arc Aircraft, Device to End Wars, TV machine, Non-Tape Recording Devices, Gravity Motor, Metal Analyzer, Purifying Metals, Underground Locator/Fracking, Translator Device, Flying "Stove" Machine, ElectroKinetic and Gravitic Machines, Drilling Machines, Manufacturing Methods for all of the above.

English Mechanic & World of Science, May 3rd, 1907 Tesla's Tidal Wave to Make War Impossible. With a magnifying transmitter as diagrammatically illustrated, rates of 25,000,000 H.P. have already been obtained. A similar and much improved machine, now under construction, will make it possible to attain maximum explosive rates of over 800,000,000 H.P. -- By July 1907, JP Morgan staged a banking collapse and stock market collapse between Anaconda Copper & United Copper, then the next month bailed out the U.S. government with \$500,000,000 of his own money. <https://teslauniverse.com/nikola-tesla/articles/teslas-tidal-wave-make-war-impossible> <http://theteslasociety.com/sites/default/files/Volume%2018%20Page%20019.jpg>

English Mechanic & World of Science, May 3rd, 1907 Tesla's Tidal Wave to Make War Impossible. With a magnifying transmitter as diagrammatically illustrated, rates of 25,000,000 H.P. have already been obtained. A similar and much improved machine, now under construction, will make it possible to attain maximum explosive rates of over 800,000,000 H.P. By July 1907, JP Morgan staged a banking collapse and later bailed out the U.S. government with \$500,000,000 of his own money.

Not Wikileaks, It's Tesla Leaks -- 500+ Nikola Tesla Files at the Patent Office, FBI File, J.P. Morgan Letters -- Missing Files + Free

Energy Conspiracy. Many Tesla referring patents are blacked out, but will have a patent number. Other patents Tesla did not file,

but would be in his paperwork. Some patents have sub-patents: Invention, System & "Art Of". Further, his International Patents, in

some cases in the Turbine & Wireless, are "Improvements" to the previous patent. There is also a Tesla FBI file conspiracy, since

the original file refers to other FBI but-file numbers, which are not available to the public. Also, in 1895 when Tesla switched to

Wireless, all of his inventions in his NY lab were destroyed. He did not file any patents in 1895 and stated others he did not re-file.

He stated in the NY Times that Teleforce involves 50 patents he did not file and a new type of Physics. His "Dynamic Theory of

Gravity" is missing from the ceased papers. That's besides GE did get their version of A/C power systems, with minor changes to

Tesla's A/C, approved at the patent office and later used their A/C to electrocute people and animals. By early 1900's/1907 many

Tesla/Westinghouse A/C systems, were replaced by GE's. In another case, GE held up Tesla type fluorescent lighting until the

1960's. Tesla's FBI File: <https://www.youtube.com/watch?v=vryqT3WPYkE> -- Tesla US Patents + More:

Many Tesla referring patents are blacked out, but will have a patent number. Other patents Tesla did not file, but would be in his paperwork. Some patents have sub-patents: Invention, System & "Art Of". Further, his International Patents, in some cases in the Turbine & Wireless, are "Improvements" to the previous patent. There is also a Tesla FBI file conspiracy, since the original file refers to other FBI but-file numbers, which are not available to the public. Also, in 1895 when Tesla switched to Wireless, all of his inventions in his NY lab were destroyed. He did not file any patents in 1895 and stated others he did not re-file. He stated in the NY Times that Teleforce involves 50 patents he did not file and a new type of Physics. His "Dynamic Theory of Gravity" is missing from the ceased papers. That's besides GE did get their version of A/C power systems, with minor changes to Tesla's A/C, approved at the patent office and later used their A/C to electrocute people and animals. By early 1900's/1907 many Tesla/Westinghouse A/C systems, were replaced by GE's. In another case, GE held up Tesla type fluorescent lighting until the 1960's. In 1899, Nikola Tesla lit the street lights in downtown Colorado Springs during his wireless experiments. The bulbs downtown were composed of Mercury-gas, but can contain other phosphorescent gasses, preferably Krypton, which is superconductive. The monopolar "beam tubes" exhibit negative resistance, where the pressure need to keep them lit, decreases with increases in capacity.

Mercury-gas bulbs with Hydrogen/Krypton spark-gap transformers (to increase voltage) were tested by the Army in 1963. Their report confirms the existence of negative resistance in thermeonic A/C systems. Negative Resistance by Eric Dollard

Latest from TESLA LEAKS: In 1899, Nikola Tesla lit the street lights in downtown Colorado Springs with his wireless experiments. The bulbs downtown were composed of Mercury-gas. These types of bulbs can contain other phosphorescent gasses, preferably Krypton, which is superconductive. The bulbs in parallel create negative resistance, where the pressure need to keep them lit, decreases with increases in capacity. Mercury-gas bulbs with Hydrogen/Krypton spark-gap transformers (to increase voltage) were tested by the Army in 1963. Their report confirms the existence of negative resistance in thermeonic A/C systems. In 1899, Nikola Tesla lit the street lights in downtown Colorado Springs during his wireless experiments. The bulbs downtown were composed of Mercury-gas, but can contain other phosphorescent gasses, preferably Krypton, which is superconductive. The monopolar "beam tubes" exhibit negative resistance, where the pressure need to keep them lit, decreases with increases in capacity. Mercury-gas bulbs with Hydrogen/Krypton spark-gap transformers (to increase voltage) were tested by the Army in 1963. Group: Motherfrunkers - Tesla Motors Enthusiasts

Nikola Tesla's patented his tower structure at Wardenclyffe in 1907, but then JP Morgan bought the U.S. for \$500M, started the Federal Reserve System in 1913 and then started WW1. After that, they approved the patent in Dec.

This might help. Tesla states his patent applies to "all phenomena" regarding superconductivity and "resonant rise" for "free oscillations" in tuned systems as resistance reaches zero and time equals zero. Nikola Tesla ... optical resonators - all are specific embodiments of the phenomenon of resonant rise by standing waves. [http://www.bibliotecapleyades.net/tesla/patents/super\\_c.htm](http://www.bibliotecapleyades.net/tesla/patents/super_c.htm)

And, all inherently possess the capability to raise the electric field intensity to the point of media breakdown with an ensuing spectacular production of electric fire. <http://www.teslauniverse.com/nikola-tesla/books/vacuum-tube-tesla-coils>

<https://youtube.com/watch?v=CGyEd0aKWZE>

Group: Nikola Tesla's World

Ellie Goulding's video MOCKS inventor Nikola Tesla's Colorado Springs WIRELESS "BULBS ON THE GROUND" experiment in her song "BURN" ("The human race has the light and the power, but we have the fire, and were going to let it burn, burn, burn... and we're burnin one hell of a something")) <https://youtube.com/watch?v=CGyEd0aKWZE> --Tesla's Colorado Springs Lab Location Controversy - 80's documentary reports 22 Miles due East of Colorado Springs directly on Schriever Air Force Base on Discoverer Lane at Lockheed. In the Lockheed parking lot is an empty field, the size of the Lot with a small ridge, facing directly at Pike's Peak. The other would be the location reported, in the local paper and possibly a 3rd downtown Colorado Springs, per "The Prestige". Kolman Czito, Tesla's assistant supposedly "threw the switch" from Pike's Peak. While tracking storms, only 2 locations are needed, the storm makes the 3rd point in the triangle. (The papers seemed to report 2 different locations, North and South of the city. Another report that could be receiving devices located 15 miles on a nearby named mountain ridge. The real estate documents are not available or questionable. One of the Colorado Springs lab pictures with the Hotel in the background looks like a composite.)

That would be directly on Schriever Air Force Base on Discoverer Lane at Lockheed. In the Lockheed parking lot is an empty field, the size of the Lot with a small ridge, facing directly at Pike's Peak. The other would be the location reported, in the local paper and possibly a 3rd downtown Colorado Springs, per "The Prestige". Kolman Czito, Tesla's assistant

supposedly "threw the switch" from Pike's Peak. While tracking storms, only 2 locations are needed, the storm makes the 3rd point in the triangle. (The papers seemed to report 2 different locations, North and South of the city. Another report that could be receiving devices located 15 miles on a nearby named mountain ridge. The real estate documents are not available or questionable. One of the Colorado Springs lab pictures with the Hotel in the background looks like a composite.) <https://www.youtube.com/watch?v=vryqT3WPYkE>

The Tesla Missing Files in the Patent Office, FBI File, J.P. Morgan Letters Conspiracy. Many Tesla referring patents are blacked out, but will have a patent number. Other patents Tesla did not file, but would be in his paperwork. Some patents have sub-patents: The Invention, System & "Art Of". Further, his International Patents, in some cases in the Turbine & Wireless, are "Improvements" to the previous patent. There is also a Tesla FBI file conspiracy, since the original file refers to other FBI bus-files, which are not available to the public. Also, in 1895 when Tesla switched to Wireless, all of his inventions in his NY lab were destroyed. He did not file any

patents in 1895 and stated others he did not re-file. That's besides GE did get their version of A/C power systems, with minor changes to Tesla's A/C, approved at the patent office and later used their A/C to electrocute people and animals. By early 1900's 1907 many Tesla/Westinghouse A/C systems, were replaced by GE's. In another case, GE held up Tesla type fluorescent lighting until the 1960's. Also, in 1895 when Tesla switched to Wireless, all of his inventions in his NY lab were destroyed. He did not file any patents in 1895 and stated others he did not re-file. That's besides GE did get their version of A/C power systems, with minor changes to Tesla's A/C, approved at the patent office and later used their A/C to electrocute people and animals. By early 1900's 1907 many Tesla/Westinghouse A/C systems, were replaced by GE's. In another case, GE held up Tesla type fluorescent lighting until the 1960's. Tesla Missing Files in the Patent Office, FBI File, J.P. Morgan Letters Conspiracy. Many Tesla referring patents are blacked out, but will have a patent number. Other patents Tesla did not file, but would be in his paperwork. Some patents have sub-patents: Invention, System & "Art Of". Further, his International Patents, in some cases in the Turbine & Wireless, are "Improvements" to the previous patent. There is also a Tesla FBI file conspiracy, since the original file refers to other FBI bus-files, which are not available to the public. Also, in 1895 when Tesla switched to Wireless, all of his inventions in his NY lab were destroyed. He did not file any patents in 1895 and stated others he did not re-file. He stated in the NY Times that Teleforce involves 50 patents he did not file and a new type of Physics. His "Dynamic Theory of Gravity" is missing from the ceased papers. That's besides GE did get their version of A/C power systems, with minor changes to Tesla's A/C, approved at the patent office and later used their A/C to electrocute people and animals. Nikola Tesla method of World Wireless power transfer using High flying balloons. The balloons act as an Earth dynamo. The balloons are tethered to the ground, to a submarine or ship or to the top of a building. The current "Flashes" to the balloon (sent from the top of a Wardencllyffe Tower), through (artificially) "Rarefied Air" or naturally in the air strata, which he states is "easily accessible" by aircraft. Like (Chemtrails+HAARP). Chris Edwards commented on Jonas Svensson's post.

Group: The Tesla Society (UK)

Thanks Simon. It's also referred to as longitudinal, surface waves, since the sound and vibration, and even electricity occur along a

surface. "Scalar" may just refer to the idea of multiplexing with the longitudinal wave, creating the various, even pre-determined

effects. Basing the effects on concentric waves and triangulation. If it's sound waves, the strength of the effects would be in decibel

Scales. For example, a cyclotron (echo chamber), at cyclotron resonance, it's end to end speed is generally faster than light. It's

effect is amplifying a specific radio wave by over 70 decibels.

Chris Edwards commented on his own post.

Group: Nikola Tesla

Tesla's system doesn't require spraying metals in the atmosphere, but could. He is stating the capability of ionizing layers of the atmosphere using Ion and Negative-Ion generators. That's why the "chemtrails" are always WHITE and not SILVER, GRAY, Red, Green, Blue or Black or any other colors. "Artificial Clouds" using the Ionization method would always be WHITE in color. Like the color of a Cloud.

See bottom blog: Using the upper atmosphere can be utilized "like a metallic conductor" using high flying aircraft. "Cloud Borne Wavelets Encircle the Globe" <http://www.teslauniverse.com/nikola-tesla/articles/cloudborn-electric-wavelets-encircle-globe> -- In US Patent 585,953 Method of intensifying and utilizing effects transmitted through natural media, Tesla states "Another method is based upon the fact that the atmospheric air which behaves as an excellent insulator to currents generated by ordinary apparatus becomes a conductor under the influence of currents or impulses of enormously-high electromotive force which I have devised means for generating. By such means air strata, which are easily accessible, are rendered available for the production of many desired effects at distances, however great. This method, furthermore, allows advantage to be taken of many of those improvements which are practicable in the ordinary systems of transmission involving the use of a metallic conductor." -- Modern patents include: Mar 12, 1991 US Patent 4999637 A CREATION OF ARTIFICIAL IONIZATION CLOUDS ABOVE THE EARTH Dec 8, 1987 US Patent 4712155 A - METHOD AND APPARATUS FOR CREATING AN ARTIFICIAL ELECTRON CYCLOTRON HEATING REGION OF PLASMA ABOVE THE IONOSPHERE <http://nikolateslasolar.blogspot.com/2014/11/nikola-tesla-apparatus-for-utilization.html>

If the two people who failed to board the Titanic, were named "RATS", would they be named Morgan & Marconi? Or did they really actually board the Titanic and on the trip and torture John Astor and their other anti-fed and anti-Tesla enemies. Then later they board the nearby Rockefeller owned ship who picked up survivors?

Group: The Tesla Society (UK)

The U.S. National Labs confirmed the need to bury radioactive waste "deeper", since the further from the Sun, the less "radioactive" matter becomes. At its deepest levels, the matter ceases to be radioactive, confirming that matter gets its energy from the environment, primarily, primary solar rays.

Nikola Tesla's Wardencllyffe Tower - (This is an animation of the top of the tower. From investigations of Tesla's patents and writings; here is a good modern analysis. The tower acts as an electro-static generator using energy derived from the hydro system and/or density/ocean mass engine designed below the tower. Under the tower was built into the Long Island aquifer and to the Atlantic Ocean. Some allege that the Wardencllyffe tower needed an external generator. The latest documentary called "Tesla's Niagara" admitted Wardencllyffe was to be installed there in 1895 to send negative ions to the atmosphere for reception using a distant "radiant energy receiver" of 1901. Tesla describes both methods of low frequency radio frequency pressure waves in the ether from tuned coils or long underground tubes used for radio communications. A wave complex including the concentric sound waves and what he describes as "standing longitudinal surface waves" (scalar) in a nodal system of towers used for power. Tesla's remote control and logic gates patents provide for analog or digital "multiplexing" of waves for signal security. In the final version, the 1000 cupola bulbs provide the high frequency UV for Li-Fi communications to your solar wallpaper or to a solar panel. One method using the special half-sphere vacuum tube bulbs that were to be added to the outside of the copula allows for taking pictures of a distant location or taking pictures of the atmosphere near the tower using the high-frequency UV. Think Kodak Instamatic. The electrical oscillations use a method of magnifying transmission using superconductivity of cold temperature gasses contained in or below the tower in the spiral staircase. Since the Earth is a conductor of electricity, the system would be reversible in order to create artificial lightning. Lightning containing it's voltage, speed and it's striking the earth. Ozone is created at ground level. The electrical waves and sound waves created run in "concentric waves". Continuing... It has been proposed that a cold temperature method used in "Nuclear" power plants is possible. The electrical pressures created in his system automatically create and accumulate the superconductive gasses or liquids, Argon, Xenon, Krypton, H3, O3, N3 ... from the interaction of radioactive matter, neutrons, high pressure and sea-water. This accumulation of gasses causes a further collapse of the temperature and increases the magnifying transmission. (Keeping in mind that Westinghouse still makes "Nuke" plants. These plants officially create superconductive gasses like Krypton). Further, artificial negative ion generators on "aircraft" can create "chemtrails" (artificial electrified clouds) to generate pathways for Tesla's ascribed "cloudborn electric wavelets" for reception at distant locations. Tesla's last communications with his co-designer Stanford White, was regarding the spark-gap, plasma containment mechanism within the tower structure. The tower was built into solid granite in order to "ring the earth like a bell". Granite uniquely makes sounds when under stress or vibration. Both the receiving devices and sending device will exhibit "negative resistance". The addition of capacity and reduction of resistance to or near zero allows for the system to reach infinite power.)

<http://www.facebook.com/100009085196708/videos/vb.100009085196708/1607020929610731/> --- Wardencllyffe Tower Blog:

<http://nikolateslasolar.blogspot.com/2014/11/nikola-tesla-apparatus-for-utilization.html> --- Wardencllyffe Test of 1903: June 15, 1903 the "New York Sun" wrote:"people living near Tesla's laboratory at Long Island were the witnesses of multicolored lightning made by Tesla himself, the inflammation of the atmospheric layers at different altitudes and along NY, Night suddenly turned to day. Air was full of luminescence, people radiated a mysterious shine or glow. They seemed to be (as) ghosts. Thunder heard 25 miles away"

<http://www.sciencedaily.com/releases/2016/06/160629095609.htm>

July 1st 2016 -- Cannabinoids remove plaque-forming Alzheimer's proteins from brain cells -- ScienceDaily - Scientists have found preliminary evidence that (THC) and other compounds found in marijuana can promote the cellular removal of amyloid beta, a toxic protein associated with Alzheimer's disease. <http://www.sciencedaily.com/releases/2016/06/160629095609.htm> In 2015, the below blog published the function and mode of the cannabis cure for Alzheimers. The G-Protein receptor in Cannabinoids is responsible for the uptake of protein-snippets in the brain. The cannabinoids are then excreted out of the body with the said proteins. Further, the cure for skin cancer was allegedly invented by Nikola Tesla using Ozone and Cannabis Oil and other oils.

<http://www.popularmechanics.com/military/navy-ships/news/a21591/seagull-israel-anti-submarine-drone-ship/>

July 1st 2016 Submarines Beware: Here Come Tiny Robot Boats Armed With Torpedoes -- This is an old idea that's finally getting its due. As far back as 1898, celebrated inventor Nikola Tesla talked of the advantages of small, unmanned warships when he demonstrated a remote-controlled toy boat in New York. Battleships ruled the seas then, but Tesla claimed unmanned torpedo boats would stop them, with dramatic consequences for warfare. "War will cease to be possible when all the world knows tomorrow that the most feeble of the nations can supply itself immediately with a weapon which will render its coasts secure and its ports impregnable to the assaults of the united armadas of the world," "Would make Junk of large ships" ... Tesla told the New York Herald. Even if he was dead wrong about torpedo-firing robots bringing an end to war, Tesla was right about them changing the game. <http://www.popularmechanics.com/military/navy-ships/news/a21591/seagull-israel-anti-submarine-drone-ship/>

July 1st 2016 Submarines Beware: Here Come Tiny Robot Boats Armed With Torpedoes -- This is an old idea that's finally getting its due. As far back as 1898, celebrated inventor Nikola Tesla talked of the advantages of small, unmanned warships when he

demonstrated a remote-controlled toy boat in New York. Battleships ruled the seas then, but Tesla claimed unmanned torpedo boats would stop them, with dramatic consequences for warfare. "War will cease to be possible when all the world knows tomorrow that the most feeble of the nations can supply itself immediately with a weapon which will render its coasts secure and its ports impregnable to the assaults of the united armadas of the world," "Would make Junk of large ships" ... Tesla told the New York Herald. Even if he was dead wrong about torpedo-firing robots bringing an end to war, Tesla was right about them changing the game. <http://www.popularmechanics.com/military/navy-ships/news/a21591/seagull-israel-anti-submarine-drone-ship/>

Nikola Tesla's Wardenclyffe Tower - (This is an animation of the top of the tower. From investigations of Tesla's patents and writings; here is a good modern analysis. The tower acts as an electro-static generator using energy derived from the hydro system and/or density/ocean mass engine designed below the tower. Under the tower was built into the Long Island aquifer and to the Atlantic Ocean. Some allege that the Wardenclyffe tower needed an external generator. The latest documentary called "Tesla's Niagara" admitted Wardenclyffe was to be installed there in 1895 to send negative ions to the atmosphere for reception using a distant "radiant energy receiver" of 1901. Tesla describes both methods of low frequency radio frequency pressure waves in the ether from tuned coils or long underground tubes used for radio communications. A wave complex including the concentric sound waves and what he describes as "standing longitudinal surface waves" (scalar) in a nodal system of towers used for power. Tesla's remote control and logic gates patents provide for analog or digital "multiplexing" of waves for signal security. In the final version, the 1000 cupola bulbs provide the high frequency UV for Li-Fi communications to your solar wallpaper or to a solar panel. One method using the special half-sphere vacuum tube bulbs that were to be added to the outside of the copula allows for taking pictures of a distant location or taking pictures of the atmosphere near the tower using the high-frequency UV. Think Kodak Instamatic. The electrical oscillations use a method of magnifying transmission using superconductivity of cold temperature gasses contained in or below the tower in the spiral staircase. Since the Earth is a conductor of electricity, the system would be reversible in order to create artificial lightning. Lightning containing it's voltage, speed and it's striking the earth. Ozone is created at ground level. The electrical waves and sound waves created run in "concentric waves". Continuing... It has been proposed that a cold temperature method used in "Nuclear" power plants is possible. The electrical pressures created in his system automatically create and accumulate the superconductive gasses or liquids, Argon, Xenon, Krypton, H3, O3, N3 ... from the interaction of radioactive matter, neutrons, high pressure and sea-water. This accumulation of gasses causes a further collapse of the temperature and increases the magnifying transmission. (Keeping in mind that Westinghouse still makes "Nuke" plants. These plants officially create superconductive gasses like Krypton). Further, artificial negative ion generators on "aircraft" can create "chemtrails" (artificial electrified clouds) to generate pathways for Tesla's ascribed "cloudborn electric wavelets" for reception at distant locations. Tesla's last communications with his co-designer Stanford White, was regarding the spark-gap, plasma containment mechanism within the tower structure. The tower was built into solid granite in order to "ring the earth like a bell". Granite uniquely makes sounds when under stress or vibration. Both the receiving devices and sending device will exhibit "negative resistance". The addition of capacity and reduction of resistance to or near zero allows for the system to reach infinite power.)

The Nucleomagnetic uses a nuclear powered ion generator for the electric engine and what appears to be a brand of Cyclotron/echo chambers in the Disc. Tesla created the first Ion Generator and the first Cyclotron, before they were called such. The notion of creating levitation type Nodes in a system of wireless power would also relate to anti-gravitic type propulsion.

Tesla created the first Ion Generator and the first Cyclotron, before they were called such. The notion of creating levitation type Nodes in a system of wireless power would also relate to anti-gravitic type propulsion.

Chris Edwards posted in Nikola Tesla's World.

Nikola Tesla's Wardenclyffe Tower - (This is an animation of the top of the tower. The tower appears to be building electrostatic capacity from energy received from the hydro system and density engine designed below the tower. It also appears to be sending negative ions to the atmosphere for reception using a distant radiant energy receiver. Its also creating radio pressure waves in the ether for radio based communications and high frequency UV for Li-Fi communications with your solar wallpaper or solar panel. One method allows for taking pictures of a distant location or taking pictures of the atmosphere near the tower using the high-frequency UV. The electrical oscillations use a method of magnifying transmission using superconductivity of cold temperature gasses below the tower.) <http://www.facebook.com/100009085196708/videos/vb.100009085196708/1607020929610731/> Wardenclyffe Tower Blog: <http://nikolateslasolar.blogspot.com/2014/11/nikola-tesla-apparatus-for-utilization.html>

Chris Edwards commented on Pierre J. Surette's post.

Group: The Tesla Society (UK)

Nikola Tesla stated that he worked with all kinds of oils like olive oil, at his Tesla Ozone Company. To imbue it with Oxygen (Ozone). Tesla's Ozone Generator is the same technology to make O<sub>3</sub>, H<sub>3</sub> and N<sub>3</sub> from the air. If hemp oil was available at the time, you can assume he experimented with it.

In the 1980 documentary about Tesla, it was the news reporters that asked about Mars. Tesla did not bring it up.

According to the Tesla FBI file, he had 900 patents, of which 600 are missing from the patent office/s. Here's the closest you'll get.
